INTEREST FOR LOVELACE

(Western Oregon) Recently Governor Lane has given publicity to the views relative to collecting officials and public men. The governor questions the good taste displayed in discussing the reputation of men who sit or sleep to be at the head of public affairs.

THE REASON WE HAVE NOT ATTENDED CROUCH THESE THREE IN ALL THAT TIME. Very few persons go there to attend church. Some attend there, but to be seen.

WHAT WE SEE IN OTHERS. The old charge about seeing ourselves as others see us, should be repeated to read our journal as we see others.

WE TALK ABOUT THE WISDOM OF OTHERS, because that has become a kind of second nature to ourselves. We see what we have developed in our own mental vision as being of real importance, the little get us hung to our brains and feet.

IT IS THE OLD STORY OF NOT CASTING THE MOTE OUT OF OUR OWN EYE BECAUSE WE HAVE BEEN SO BUSY SEARCHING FOR THE BEAM IN THE OTHER FELLOW'S.

FACTS AND FIGURES WORTH CONSIDERING. The much important change by given to certain figures brought out in the annual report of Representative Dill, of Pennsylvania.

Rheumatism

Does not let go of you when you apply lotions or liniments. It simply loosens its hold for a while. Why? Because to get rid of it you must correct the acid condition of the blood on which it depends.

"Let it be your first care not to be in any man's debt. Resolved not to be poor, whatever you have, spend less. Poverty is a great enemy to human happiness."—Dr. Johnson.

A good way to carry out this plan is to open a savings bank account. It will always stand between you and want. The longer you have it the larger it grows.

THE FACTS THAT WE ARE DISSENT FROM MANUFACTURING CENTERS AND THAT WE HAVE SUPPLIES OF RAW MATERIALS ARE STRONG ARGUMENTS WHY WE SHOULD PERFORM "MADE IN OREGON."

Is Disease a Crime? The new law on a popular magazine published in England states that all diseases should be regarded as crimes. Certain it is that such of the diseases which are the result of a man's own carelessness or neglect are crimes.

It would be hard, impracticable, and almost impossible to modernize the law which would require that all diseases should be regarded as crimes.
