# COUNCIL EXTENDS TIME

## Contractors Given to Middle of September to Complete Paving Job

A special meeting of the city council held last evening, under the presidency of Mayor Waters, was called to consider a petition presented by County Judge Scott and Manager Stone, of the Warren Construction Company, regarding the cessation of work on the South Commercial street improvement, and to grant the company an extension of time in which to complete it. This extension of time is made necessary by the work which is being done by the government experts on the "mile object lesson road" near the fair grounds, and which must be completed as soon as possible.

After reading the annexed communication, the council voted to extend the time of the Warren Construction Company for the completion of the improvement on South Commercial street to September 15th.

To the Honorable Mayor and Common Council of the City of Salem:

Gentlemen: I do hereby petition you, upon behalf of the county of Marion, and request your honorable body to extend the time for completing the work of macadamizing South Commercial street to such time as enough rock shall be furnished by the General Contracting Company to complete the mile of experimental road now being constructed under the direction of the general government.

I have been informed by Mr. Hair, the engineer in charge of said experimental work, that he can place upon the road from 150 to 175 yards of rock per day, provided he can have the rock furnished. At that rate it will not be many days until said work will be completed, provided the rock can be furnished us.

Mr. Stone, manager of the Warren Construction Company, and who is in charge of the work upon South Commercial street, hereby joins me in asking for an extension of time as above stated.

The county court feels that we are not asking anything out of reason, since the county has donated all the rock that will be needed to make said South Commercial street improvement, and it is impossible to carry on the two jobs at the same time.

And further, in view of the fact that the government engineers have been materially delayed on account of not being able to get material to do said work, and I fear that if they experience any further delay they will abandon the work entirely. I am sure they are making a splendid piece of road that will be a great drawing card for our state fair.

Trusting that our request might meet your approval, we remain,  
 Very respectfully,  
 JOHN H. SCOTT,  
 Upon Behalf of Marion County.  
 M. D. STONE,  
 Upon Behalf of the Warren Construction Company, as its Manager.

A warrant for \$120 was ordered drawn in favor of W. B. Warner for the painting of street signs.

**Canadians Will Exhibit.**  
 J. N. Grieve, of Spokane, who has charge of the Canadian immigration bureau in that city, has made application to the state fair board for space in the exhibit pavilion. It is the intention of Mr. Grieve to make an attractive exhibit of the resources of the Alberta country, and other Canadian provinces bordering on the United States, and to show the agricultural and horticultural products of those territories. The Canadian government made an exhibit at the state fair some years ago.

**Hay the Streets.**  
 Ed. Journal: Oil would help lay the dust on our streets, but it is

quite expensive. So would water, but that costs a great deal. A ten-foot windmill over one of our creeks would sprinkle a great deal of street, and there is hardly a day in the year the wind would not blow it without expense. But there is a cheaper way. Cut the dry hay growing on our streets and scatter that over the dust and you get noiseless and dustless streets. Almost any residence street has enough hay on it to do this and if you don't think it will work, try it. I have hayed several blocks, and there is no more dust. It will also cover rocks and slabwood. It also improves the street to cut the hay. Improvement all around.

# YIELD OF HOPS UNCERTAIN

## Reduced Crop on Continent Has Caused Prices to go Skyward

The Oregon hop crop is yet uncertain. A yield of 125,000 bales has been expected but the output will probably not exceed 100,000 bales. Moreover the continental yield will be 655,000 bales less than last year. With such an outlook for a reduced crop throughout the hop world it is not to be wondered at that buyers have offered 15 cents per pound and that it is reported that some of them are now offering 16 cents. There has been several purchases made at 15 cents in various portions of the Willamette valley hop belt but many offers at that price have been refused by the growers. It has been given out that Rosenblatt will pay 16 cents for an order of 40,000 pounds. The dealers and their agents are scouring the country but not many contracts are reported made. The growers appear to be willing to wait before selling for many of them believe the price will eventually raise to 20 cents or more.

John Burton of Independence, one of the prominent growers of that section, gave out yesterday that he had been offered 16 cents. The Krebs brothers have made offers of 15 1/2 cents but as yet have had no takers. The growers show little disposition to make contracts under the present conditions in which the hop market finds itself.
