State News

Curry county Woodmen are to
 have a big initiation and blow-out at
 Orford, beginning on the 17th,
 lasting three days.

The steam schooner Raymond was
 wrecked at Bandon last week. She
 100 feet in length, 38 feet beam,
 10 feet depth of hold, and is a fine
 oil burner. She will be an "oil burner."

Warden A. G. Aiken, of
 Astoria, who has just returned
 from a trip in the mountains, says he
 saw many fine elk, and that they are,
 without doubt, rapidly increasing in num-
 ber.

Peter Nelson committed suicide at
 Bandon, August 4th, by shooting
 himself in the head. He was a man
 well known and universally liked,
 prominent in the Masonic and K. of
 G. orders. No reason is known for
 the act.

At the Maples.
 The Maples continue to draw
 crowded houses. An aquatic pleasure
 resort has been established that
 seems to please old and young alike.
 Five launches are now kept busy
 carrying people across the waters of
 the beautiful blue Willamette. Six
 hundred people were taken over yester-
 day. Many enjoy the walk back
 over the steel bridge.

The Coloma has been added to the
 list. The others are the Ijo, Verda,
 and Eva. The Coloma will
 carry 30.

Bathing parties are given each day
 at the sandbar at 3:30, and are
 growing in favor. A number of Sa-
 lem ladies are learning to swim.

A bear captured in the Cascade
 mountains has been added to the at-
 tractions.

The camps at The Maples are ex-
 tending down the river bank. The
 facilities of this resort are only
 improving.

The camping parties at present
 are:
 Mr. and Mrs. B. O. Shucking, Mr.
 and Mrs. Ray Gilbert.

Mrs. A. Eaton and daughters and
 Miss and Harry Cronjse.
 Mr. and Mrs. Whit Holman and
 Miss Maud Munson, of Utah.
 Charles Caulkins and Phil Pat-
 ton.

Mr. and Mrs. W. W. Zinn and fam-
 ily.
 Mr. and Mrs. Stahl.
 Mr. and Mrs. Stone.

Had Great Season.

The season just over has been a
 successful one in the sales of Champion bind-
 ers. The Mitchell, Lewis & Staver
 binders, of which F. F. Cary is manager
 of the Salem branch, at 217 to 237
 State street. In 1905 they sold more
 Champion binders than were sent out of Sa-
 lem of all other kinds. During the
 season just over they have repeated
 their performance. The beauty of it
 is that the Champion binder gives
 universal satisfaction. The best ad-
 vancement of a Champion binder is
 Champion binder in actual service;
 the harvest field. Now that the
 binder season is over, or about over,
 the Mitchell, Lewis & Staver people
 are turning their attention to baling
 hay for baling hay, and more espe-
 cially to buggies. They are making
 a sale of buggies just now; a dis-
 count on all open buggies and sum-
 mer rigs. If you want a new buggy
 at a small price, now is the time to
 buy it. Do not wait till all the sum-
 mer rigs are disposed of.

Found Cement in Coos.
 Richard Conboy, who has been su-
 perintending a force of men, driving
 a tunnel in the lime stone district on
 Coos river, which is controlled by lo-
 cal capitalists, has struck the ledge
 and penetrated the same for twelve
 feet, and as yet its thickness con-
 tinues. This fact was received with
 great joy by those who are providing
 the means for developing the prop-
 erty. There never any question to
 the superior adaptability of the
 rock for lime and cement, but here-
 tofore the question was—Is there a
 sufficient quantity? Experts, figuring
 from outcroppings, had previously
 concluded it to be six feet in thick-
 ness, hence the strike has buoyed
 up the promoters and if things are
 as represented there is a rich harvest
 in store for everyone connected with
 the property. The rock has been
 assayed and is particularly adapted
 for cement. At the ruling price of
 this commodity just now the prop-
 erty is next best to a gold mine.
 There is a great demand for cement
 all over the United States, and the
 prospects are that it will rule at a
 high price for many years to come.—

One Woman Among the Thousands.

We received a letter from Way-
 cross, Ga., from a woman who had
 been troubled with female complaint
 for a long time, until she was re-
 duced to almost a shadow. It ef-
 fected her mind, she could not re-
 member anything, would get con-
 fused and so nervous and irritable
 she could hardly sleep. She de-
 scribed her case as one similar to
 thousands of other women, and then
 ends the letter by saying she had
 gained 19 lbs last month and never
 felt better in her life, having no
 trace of her former troubles, slept
 well, ate her meals with a relish.
 She commenced the use of Dr.
 Gunn's Blood and Nerve Tonic just
 six weeks before she wrote the let-
 ter from which we copy the above.
 This tonic is in tablet form, and
 should be taken right after meals.
 It turns the food you eat into strong
 rich blood, feeding the nerves and
 curing disease by making healthy
 flesh. Sold by all druggists for 75c
 per box, or 3 boxes for \$2. Pale,
 weak, thin people should use this
 Tonic.

To Build Steam Schooner.

A portion of the keel for the new
 steam schooner to be built at
 Krause's yard is out, and as soon as
 the remainder can be secured from
 the logging camp it will be laid, and
 work commenced on the new boat,
 that is to be 200 feet over all and 39
 feet beam. She will have a carrying
 capacity of \$50,000 feet of lumber,
 and be the largest of her type ever
 constructed on Coos Bay. She will
 ply between San Francisco and Port-
 land, carrying lumber from Inman &
 Poulson's mills.—Marshfield Sun.

Good Salmon Run.

It is conceded by nearly all the
 fishermen to whom the matter is
 broached that the deferred "July"
 run of salmon is now fairly on. The
 fish were very plentiful yesterday
 at the lower grounds, but meagre at
 all points up stream. It seems the
 fish do not run very far up the river
 at this late day in the season, and
 are to be found in heavy shoals at,
 and just inside the bar. Two boats
 belonging to the McGowan cannery
 yesterday turned in 15 tons between
 them, and all reports from the lower
 bay were encouraging in the extreme.
 —Astorian.

Will Have Fair Yield.

William Ragsdale, an attorney
 from Moro, and formerly county
 school superintendent of Sherman
 county, was in The Dalles Tuesday
 on business. He says that the wheat
 crop in that section is not so badly
 damaged as was reported some time
 ago. Very little of the fall grain is
 damaged, and some of the spring
 grain is fairly good.—The Dalles
 Optimist.

SAW BOTH PLACES
Cherokee Indian Came Near Being Buried and Tells Marvelous Story of Next World

Muskogee, I. T., July 31.—Claim-
 ing to have arisen from the dead,
 and his story credited by a large
 number of the full-blooded Indian
 population near his place of resi-
 dence, not far from Tahlequah,
 Tooley Catron, a Cherokee Indian of
 21 or 26 years, is just now the cen-
 ter of more attention than is usually
 accorded one who has never been
 known beyond the narrow confines of
 his neighborhood.

Not many days ago young Catron
 was returning from Tahlequah, a
 distance of ten miles from his home.
 Traveling on foot, he came to the
 Illinois river, and he proceeded to
 wade across and had just reached
 the opposite shore when, without
 the slightest premonition of illness,
 he suddenly fell unconscious on the
 gravel bar. There he remained for
 some time, when he was found by a
 passerby, who, supposing him to be
 dead, carried him to his hut in the
 forest near Barren Fork creek.

Given Up for Dead.
 There Catron was laid upon his
 bed and efforts were made to restore
 him to consciousness, but to no avail,
 and he was given up for dead.

All the next day he lay stark and
 cold and it was decided to bury him
 on the following day. Consequently
 preparations for performing the last
 offices were begun, but, after all, the
 interment was not to be, for before
 the sun had risen on the day set for
 the funeral obsequies Catron began
 to show signs of returning anima-
 tion, and by the time the sunbeams
 were dissipating the mists in the
 Barren Fork valley the supposedly
 dead man was very much alive and
 ready to partake of food and drink
 and in a few days as strong as usual.
 was to be seen about his usual
 haunts.

But while he was well physically
 as ever, the processes of Catron's
 mind were diverted into other chan-
 nels. Whereas he had previous to
 his unconscious state entered into
 the commonplace conversations of
 his companions with readiness, he
 now assumes a greatly changed man-
 ner of speech. His demeanor, too,
 was different. He assumed a more
 dignified carriage.

Was Really Dead.
 All of this was in itself surpris-
 ing to his neighbors from what was
 supposed by his return from what
 was supposed by them to be death,
 but their surprise was even greater
 when Catron informed them that he
 had really been dead, had seen both
 heaven and hell and the position to
 be occupied in the unseen world by
 the red, white and black races.

His future on earth, he indicated,
 would be different from what it had
 been in the past. In conversation
 with an old acquaintance, Catron in-
 formed him that he (Catron) was like
 the Lord in that he, too, had been
 dead and had arisen. Claiming at
 first to be a man of business, Catron
 purchased a suit case, and going to
 Welling, boarded a train, saying that
 he intended going to Washington for
 the purpose of consulting the Presi-
 dent on public questions of impor-
 tance. However, he did not make
 an extended journey, but was back
 home in a few days, making prepara-

tions for preaching, and addressed a
 large crowd of full-bloods in the
 mountain regions, far down the Illi-
 nois river.

Catron is a slender, dark man of
 ordinary appearance and one of the
 last that would be supposed to have
 a "mission" to perform, but his hav-
 ing so strangely fallen into what was
 apparently the state of death and
 having returned will, no doubt, cause
 him to be regarded with a peculiar
 veneration and awe by large bands
 of his people.

**National Meeting Army of Philip-
 pines.**

Des Moines, Ia., Aug. 13.—The
 seventh annual national convention
 of the society of the Army of the
 Philippines opened here today with
 an unusually large attendance.
 Every state and territory is repre-
 sented by delegates. An interesting
 program has been arranged for the
 convention. The Des Moines dele-
 gates will make a grand effort to in-
 duce the convention to select Des
 Moines again for the place of next
 year's convention. Kansas City,
 Syracuse and Atlantic City are the
 most prominent other candidates.
 Among the guests of the encamp-
 ment are Governor Cummins, Secre-
 tary Shaw, General Charles King,
 General John C. Bates and General
 S. B. M. Young.

Benton Hop Crop Is Short.

The opinion of the Corvallis grow-
 ers generally is that the hop yield in
 that locality will be less than that
 of last year, and that the same con-
 ditions have served to shorten the
 crop all over the valley. The Lilly
 yard is the only one in this locality
 in which there can be said to be a
 good crop so far as volume is concern-
 ed. A grower said recently that it is
 his opinion that when picking and weigh-
 ing time comes it will be found that
 the intense heat of some of the early
 days of July left its mark upon the
 hops of the Willamette region.
