NOTES ABOUT HOPS

Waterville Times and Hop Reporter Gives Resume of Hop Conditions

The Cobleskill Times, August 9,
 says: Yards in this vicinity are
 looking fine, and the yield will no
 doubt be a fair one, and the quality
 judging from present appearances
 will be the best raised in years.
 One of the largest growers in this
 section informed a Times reporter
 that he had never seen his yards
 looking better, or more encourag-
 ing for a first grade quality. He
 has already been offered 20 cents.
 France Brothers contracted 50 bales
 of 1906 hops at 15 cents. They
 raise upwards of 100 bales. A Cob-
 leskill dealer, who is in a position
 to know said a few days ago: "The
 market is in about the same condi-
 tion as it was the year hops went
 to a dollar a pound. The reports
 from England indicate that the crop
 will not exceed one-third of a crop.
 Germany has no hops to spare, and
 the amount raised in the United
 States will not be a big item. The
 New York state yield will be about
 42,000 bales according to estimates
 made. I look for at least 30 cents,
 a pound to start with and when the
 shippers begin to buy to see the
 price go to 35 or 40 cents. Surely
 this is encouraging for the growers.
 Too great care cannot be exercised
 in harvesting and curing the crop,
 and if that part is looked after Scho-
 harie county's hop crop will bring a
 good round sum this fall.

The Oneota Herald, August 9th,
 says: The outlook now is for a crop
 in New York state from 15 to 25 per
 cent below that of last year. There
 are no lice as yet, and with favor-
 able weather the quality will be fine.
 It is stated that some contracts of
 the growing crop have been made
 at 20 cents.

The Coopersville Journal, August
 9th, says: There is nothing new in
 the local market to report. The bet-
 ter grades of '05 have sold at 12
 cents. The new crop looks favorable
 so far as quality is concerned, but
 the quantity will be comparatively
 small.

The Cherry Valley Gazette, Aug-
 ust 10th, says: The hop crop in
 this section continues to promise
 well and there is every indication
 that they will command good prices.
 Already offers of 17 cents have been
 made for the growing crop and the
 market shows an advancing ten-
 dency.

In Self Defense.
 Major Hamm, editor and manager
 of the Constitutionalist, Eminence,
 Ky., when he was fiercely attacked,
 four years ago by piles bought a box
 of Bucklen's Arnica Salve, of which
 he says: "It cured me in ten days,
 and no trouble since." Quickest
 healer of Burns, Sores, Cuts and
 Wounds. 25c at J. C. Perry's drug
 store.

Were July Contracts.
 Six contracts were made in Salem
 yesterday for hops, at 15 cents, and
 yet some of the papers are yelling
 that hops are 22 cents.—Albany Dem-
 ocrat.

The Democrat is mistaken. The
 contracts were filed Tuesday with
 the recorder, but the contracts were
 made in July, before the sudden spurt
 in prices.

A Pleasant Way to Travel.

The above is the usual verdict of
 the traveler using the Missouri Pacific
 railway between the Pacific coast and
 the East, and we believe that the ser-
 vice and accommodations given merit
 this statement. From Denver, Colora-
 do Springs and Denver there are two
 through trains daily to Kansas City
 and St. Louis, carrying Pullman's lat-
 est standard electric-lighted sleeping
 cars, chair cars and up-to-date dining
 cars. The same excellent service is
 operated from Kansas City and St.
 Louis to Memphis, Little Rock and Hot
 Springs. If you are going East or
 South, write for particulars and full
 information.

A SALEM CASE.

Many More Like It In Salem.

The following case is but one of
 many similar occurring daily in Sa-
 lem. It is an easy matter to verify
 its correctness. Surely you cannot ask
 for better proof than such conclusive
 evidence:

Mrs. S. Collins, of 679 High street,
 Salem, Ore., says: "Trouble with my
 kidneys and backache have caused me
 much annoyance for several years. Al-
 though I used a good many remedies
 I obtained no positive relief until my
 attention was called to Doan's Kidney
 Pills, and I procured them at Dr.
 Stone's drug store. They soon brought
 me effective benefit, eased the bearing
 down feeling through the back and
 loins, and banished the aching and other
 symptoms that had annoyed me for
 so long. I have since learned of oth-
 ers who think the world of your reli-
 able remedy and I gladly recommend
 it to all suffering from backache or
 kidney trouble."

For sale by all dealers. Price 50
 cents. Foster-Milburn Co., Buffalo,

 States.

Remember the name—Doan's—and

FIGHT WITH A BEAR

What is believed to have been the
 biggest wrestle with a bear since
 the days of Jacob and the angel took
 place Friday night on Rock Creek in
 the vicinity of Judge Alf L. Curry's
 camp. Extra particulars are difficult
 to obtain but the story is something
 like this, with Judge Curry as the
 hero:

A man named Illerton has a small
 cabin on Rock Creek near the camp
 of Judge Curry and other Bakerites
 who are enjoying the scenery of the
 mountains. Shortly before daylight
 on Saturday morning Illerton awoke
 with the conviction that there was a
 bear in his cabin. He got up and
 ran against the bear. The bear was
 very hungry and tried to eat Iller-
 ton. Illerton protected himself with
 a shovel and yells. The yells awak-
 ened Judge Curry, who was camped
 nearby and he came to the rescue.
 With a shovel and a pick the two
 men made enough noise to awaken
 every man on the mountain from the
 Maxwell mine to Haines.

In the morning when the smoke of
 battle had cleared away all that was
 discernable were the bare foot prints
 of Judge Curry about ten feet in
 advance of the bear hitting a hot
 foot down the creek road toward
 Haines. That is why Judge Curry
 came to town Saturday afternoon.
 He returned today with a galling
 gun and a whale harpoon. Illerton
 has a rifle but no cartridges.—Baker
 City Herald.

SHIPPING MANY PEARS.

Two Carloads Went to Portland To-
 Day to Be Canned There.

Two more carloads of Marion coun-
 ty melons were shipped to Portland
 by the Salem Mutual Cannery com-
 pany. The peer product of Marion
 county is coming on the market now
 at a rapid rate and all the fruit that
 is not canned in Salem is shipped by
 the company to Portland. In this
 manner it is possible to glut the fac-
 tory and all the fruit that comes in
 will be purchased at the highest
 prices, and if too much is unloaded
 here for the capacity of the Salem
 cannery, the surplus is at once sent
 to Portland.

A hundred and fifty employees will
 be at work tomorrow at the cannery
 and this number will be increased
 during the week.

Galveston's Sea Wall

Makes life now as safe in that city
 as on the higher uplands. E. W.
 Goodloe, who resides on Dutton St.,
 in Waco, Tex., needs no sea wall for
 safety. He writes: "I have used
 Dr. King's New Discovery for Con-
 sumption the past five years, and it
 keeps me well and safe. Before that
 time I had a cough which for years
 had been growing worse. Now it's
 gone." Cures Chronic Coughs and

SALEM WOOLEN MILL STORE

GIVE THEM WHAT THEY WANT

Concerning the insignificant sales
 of American cotton goods in Cuba,
 as shown by Minister Morgan, fur-
 ther proof of the true barrier as re-
 ported by him is heard from home
 sources. Cuban wholesalers say that
 American manufacturers do not cat-
 er to the Cuban market and will
 only sell them "stock" articles. A
 responsible Southerner states that a
 North Carolina gingham mill which
 was filling up its stock rooms with
 unsold goods was induced to send
 a representative to Cuba, who se-
 cured some substantial orders for
 gingham of a narrower width than
 the mill was making, but at some-
 what better price. The orders were
 declined by the mill because it was
 too much bother to change over the
 looms, and they preferred to pile up

their stock rooms with the wider
 cloth which the Cubans did not want.
 "The mill was out the expense of the
 salesman's trip and lost an opportu-
 nity to build up an excellent export
 trade," says the Southerner who fur-
 nishes the information. On the other
 hand, another textile concern enter-
 ing the export trade is said to have
 spent over \$10,000 in the first year
 in building up a trade with Cuba in
 white goods, which had to be sized
 in a certain manner. There was con-
 siderable difficulty in getting the
 sizing and finish to the Cuban's lik-
 ing, but now that the trade is well
 established the exporter in question
 is reported to be making upward of
 \$50,000 a year out of sales to that
 island. The exporter is now making
 a similar campaign in a South Amer-
 ican country.

A WORKED-UP RECEPTION

Sarah Bernhardt once fell victim
 to a sudden attack of homesickness
 while she was traveling in eastern
 Europe. She announced that she
 was going back to Paris immedi-
 ately. Bucharest was the next city on
 the route, and Bernhardt's impres-
 sario at once sent the following tele-
 gram to his advance agent, who was
 then in the Roumanian capital:
 "Wire me immediately as follows:
 'Nobility and leaders society prepar-
 ing magnificent reception. Minister
 of Fine Arts will be represented sta-
 tion. Torchlight procession, massed
 bands. Wire exact hour arrival.'"
 This telegram was duly sent, and the
 impresario showed it to the actress,
 who forgot her homesickness in
 view of the magnificent reception

awaiting her. When they arrived
 there were 60 solemn gentlemen in
 evening dress, with many decora-
 tions, on the platform; there were
 torches, flags and flowers, massed
 bands playing the "Marseillaise,"
 and the triumphal procession started
 for the hotel. "Are you not
 not coming with us?" said the im-
 presario to his advance agent, who
 showed signs of remaining at the
 station instead of going to the hotel.
 "No," said he, "I must look after the
 nobility and leaders of society. I
 am afraid they will bolt with their
 dress clothes." But the actress, so
 the story goes, to this day is un-
 aware that the 60 great men at the
 station were supers hired by the ad-
 vance agent at 36 cents a head.—

EXCELSIOR FACTORY.

Gardner & Stayton Are Busy.

That Stayton is soon to have an
 excelsior factory may be seen by
 anyone visiting the rear of Gardner's
 flour mill, where the new factory is
 to be located. There is now nearly
 completed a large shed for wood,
 72x190 feet floor space. The com-
 pany has contracted for about 1000
 cords of balm wood, several hun-
 dred cords of which are now in the
 shed, and teams are continuously
 at work hauling. The wood before
 being cut into excelsior has to be
 perfectly dry, consequently work
 on the wood shed was begun before
 the factory building, so that the
 wood might be well housed before
 the fall rains begin. As soon as
 the wood shed is completed the fac-
 tory building will be erected, the
 same built and water wheel placed
 in position. The factory will be
 36x45 feet. The machinery for the
 plant has been ordered and will be
 here as soon as needed, which will
 probably be the last of next month.
 It is the latest of its kind, and it is
 expected when the plant is running
 that Gardner & Stayton will have as

good an excelsior factory as can be
 found on the coast.

The factory itself will employ
 about half a dozen men, while the
 cutting and hauling of the wood
 necessary to keep the plant running
 will occupy the time of quite a num-
 ber of men and teams, and this
 work can be done at a time when
 there is not a rush of other work.

This factory will prove a valuable
 addition to the already numerous
 manufacturing industries in Stayton,
 and we predict will prove a good in-
 vestment for its owners.—Stayton
 Mail.

Dogs Kill Chickens.

Several complaints have been sent
 to this office about hunting dogs kill-
 ing chickens in South Salem. Some
 of the residents in that part of the
 city say they have no desire to kill
 anyone's dog, but that they will pro-
 tect their property, and if the killing
 is continued the dead will not be all
 chickens, but contain a plentiful
 sprinkling of dog.
