

LASH WITH SOLDIERS

Strikers in Germau Town are Charged by Soldiers -- Many Injured

Bremburg, Germany, Aug. 25.—A hundred were wounded, some in a desperate street fight between soldiers and police, and the strikers charged with storming the works, and were fighting the police when a battalion of infantry was called.

Bremburg, Aug. 25.—A 12-year-old girl and two women were among the injured. The strikers had tried to storm the works and refused to discontinue until the infantry charged.

Sycophants or "Sickofants."

Wester Bay, Aug. 25.—Public Printer Shillings and other officials wrote president this morning enthusiastically endorsing the change of language. The president, though censured by many, and jollied by others, mindful of all and is enjoying vacation the same as if nothing happened. Shillings says he has had put a committee of employees work remodeling the manual of the new manual, with its simplification, will enable him to discontinue the services of a number of readers.

STOLYPIN A VICTIM OF ASSASSIN

Bomb Exploded in His Home Kills Many---He Cannot Recover

St. Petersburg, Aug. 25.—Premier Stolypin was assassinated this morning.

He was the victim of a bomb thrown by revolutionists.

A later report says the premier escaped, but that many were killed and wounded, the premier's son being among the latter. The outrage occurred during the regular Saturday reception by the premier at his home on Apothecary's Island. Stolypin was badly wounded and his boy was so torn that it caused the first report that he was killed at once. Soldiers have surrounded the house and admission is denied to every one. The explosion ignited the house, causing much damage. Physicians have given no hope of his recovery. Three weeks ago Stolypin received a letter from the terrorists saying he would be killed for assisting the reactionaries. It is said Stolypin's body is terribly mangled.

Opening California State Fair.

Sacramento, Cal., Aug. 25.—The annual California state fair opened here today, and, judging from appearances it promises the largest and most successful state fair held in California for many years. There is nothing to suggest that the state but recently was visited by an appalling calamity. Every department of the industrial, commercial and agricultural resources of the state is worthily represented in the exhibition and some of the special features are more interesting and on a larger scale than ever before attempted. Mr. Burbank, the horticultural wizard, occupies one of the most interesting departments with his exhibits and the experimental stations of the university are well represented. The United States government has sent a fine exhibit from its Chico farm. The poultry exhibit is also interesting and includes a curious exhibit representing an ostrich farm. The official opening of the fair this afternoon will be ushered in with a big choral concert in which a chorus of 500 well trained voices will take part, accompanied by a large band and an anvil chorus. The fair will last until September 1, inclusive. More than \$20,000 in prizes will be awarded to the exhibitors in the various departments. Among the special prizes is one of \$200 for the best church choir, with a second prize of \$150, a third of \$100 and a fourth of \$50.

Regatta on Hackensack River.

Jersey City, N. J., Aug. 25.—The annual regatta of the New York Bay Rowing association will be held on the Hackensack river this afternoon. The course is a quarter of a mile wide and a half of a mile straightaway. There is little or no tide and practically no commerce to interfere with the oarsmen. The number of entries is unusually large and some good sport is expected. The events will be as follows: Junior single, double gig, four-oared gig and single shell; senior single shell, four-oared barge and four-oared shell; intermediate single shell, four-oared gig; junior centipede (quadraple sculls) and four-oared gig.

Robbers Soon Caught.

Oraville, Cal., Aug. 25.—A. N. Anderson, a jewelry peddler, was held up and robbed last night by two highwaymen on a lonely mountain road. He lost \$430 and a lot of jewelry. The sheriff this morning captured Ben Salvatori and L. Lawrence, in Oraville with the booty, which was identified by Anderson.

ALL TAKE A WHACK AT TEDDY

Instead of Simplifying, Will Make "Confusion Worse Confounded."

London, Aug. 25.—The afternoon papers generally ridicule Roosevelt's adoption of reformed spelling. The Globe says: "Roosevelt will find, like William the Conqueror, it is easier to subdue a people than their language." The Standard calls it an "interference conference, ill timed, and harmful." The Pall Mall Gazette comments: "Roosevelt is likely to confound the confusion with a vengeance. He cannot straighten out orthography, but may succeed in making it more crooked."

Will Build Military Hospital.

Washington, D. C., Aug. 25.—The war department is preparing to build near this city, on Brightwood road, within the district limits, a large army general hospital, which will be the best equipped institution of its kind in the world. For months the army surgeons have been engaged in looking up literature on the subject and inspecting hospitals in all parts of the country. They have also obtained information from abroad. The best ideas which pre-

New Intelligence Officer.

Washington, D. C., Aug. 25.—The next chief of the military information division of the war department will be a full fledged colonel, instead of a major. He will be Col. R. D. Potts, the well known artillery officer, who has lately been on duty as commandant of the artillery school at Fort Monroe. He succeeds Major W. D. Beach, who has been in charge of the office three of four years. This change is necessary by virtue of the fact that Major Beach now leaves the general staff to join his regiment, the 15th cavalry. It has been considered that the importance of the division engaged in accumulating data of value in a military way justifies the designation of a high ranking officer, although that branch of the general staff prospered exceedingly under Major Beach, who is a tactful as well as an industrious officer, and increased the value of the division in every way.

San Francisco Carmen Certain to Go Out, Tying Up Every Car Line

San Francisco, Aug. 25.—President Cornelius, of the International Carmen's Union, this morning presented to the Geary and California street lines the same demands as were made on the United Railroads, "Three dollars for an eight hour day." Any action at tonight's meeting of the carmen will now apply to every line in the city, and if there is a strike the tie-up will be complete. The Independent lines will undoubtedly follow the United Railroads in refusing to grant the demands of their employees. The refusal of the carmen to await the arrival of President Calhoun for an answer to their demands widens the breach, and makes a strike almost inevitable.

Mixed Metaphors.

A clergyman in an English town warned his hearers lately "not to walk in a slippery path, lest they be sucked, maelstrom-like, into its meshes!" This metaphor suggests that of another clergyman, who prayed that the word might be as a nail driven in a sure place, sending its roots downward and its branches upward."

A Big Panther.

The biggest panther that was ever seen in northern California was recently killed by a sheep herder named Frank Lockhart, herding for Ed. Sanders, of Delta, Shasta county. Sheep from his flock had been disappearing very mysteriously when he set a forty pound bear trap and the first morning was awarded by the biggest catch of the season. He fired eight shots into the animal from a 38-caliber six-shooter with no effect when he secured a 30-30 rifle and put the panther out of commission. It weighed over 200 pounds and measured 11 feet, 6 inches from the end of its nose to the tip of its tail.

Land for the Peasants.
