

CALIFORNIA INVADED BY PRIVATE ARMY

Trainloads of Armed Men Employed by Street Car Lines on the Way From New York to San Francisco. Repetition of Homestead Riots Liable to Occur.

New York, Aug. 29.—Another special train was started today by Farley for San Francisco, loaded with street car strike breakers. Three Farley trains are now en route trying to complete the trip in four days. Another will leave tonight and tomorrow. Farley's headquarters will resemble a general's headquarters in the field. Expeditions are being equipped with ammunition, medical supplies and 15,000 rounds of ammunition. Farley has ordered 1100 revolvers and furnished a New York surgeon, who will get assistants in San Francisco. Many union men trying to join as strike breakers were ejected from the train. As soon as he has men en route, Farley will take the train himself for San Francisco.

The "Farley Union" Men.

Chicago, Aug. 29.—Twenty-seven men, two sections of a Farley train, arrived at 7 this morning. They have made 30 minutes in the trip to make the record run to the city. There were slight delays on account of the refusal of union trainmen to handle the cars. Crowds gathered to see them. The first section left

at 7:35, thirty minutes ahead of time; the second at 8:45, forty-five minutes ahead.

San Francisco, Aug. 29.—The strike situation is unchanged this morning. Neither side shows indication of yielding. Confirmation of the departure from New York of three train loads of strike breakers has given a serious aspect to the strike since the determination of the company to operate its cars by this method is likely to lead to an outbreak of violence. The public generally sympathizes with the striking carmen. It was admitted by the company's employes at the barns this morning that arrangements were being made for housing the men and the company intended to use men from the East. During the night the company smuggled 100 Japanese to the Fillmore street barn, who today were put at work on the streets and tracks. Ten unions, representing all classes employed by the United Railways, have united in the fight against the company.

San Francisco, Aug. 29.—A much larger crowd surrounded the car barn

at Turk and Fillmore streets today than at any time since the inauguration of the strike, but there was no demonstration. The railroad made no attempt to operate its cars. President Cornelius this afternoon issued another statement to the public stating the position of the union is not changed, charging the company with breaking its contract with the union, and stating the men were ready to return immediately on the granting of a \$3.00 wage and eight hours a day by the United Railways.

Thieves Shoot Policeman.

San Francisco, Aug. 29.—Police this morning arrested Charles J. Green, who is suspected of shooting Policeman James Cook, at the corner of Seventh and Townsend streets early this morning. Cartridges of the same calibre as those with which Cook was shot were found in Green's pocket. Cook is in the hospital. His condition is serious. The officer tried to arrest four men who were stealing wire, and the shooting followed.

BROUGHT GRIEF TO THOUSANDS

Philadelphia, Aug. 29.—Depositors, including many women, gathered this morning in front of the Real Estate & Trust Company's buildings, and blocked the city's busiest corner, Broad and Chestnut streets. They threatened the officers amid their tears. A special detail of police was sent for reinforcements.

Philadelphia, Aug. 29.—A member of the crowd started the cry "kill the officers now and investigate later." Detectives arrested the man and kept close watch on the others.

Philadelphia, Aug. 29.—Hipple's will was filed today. He leaves personal property worth \$100,000 and upwards, and realty valued at \$30,000. The will is brief and is in the testator's handwriting, and is unwitnessed. Frank Watson is the executor.

RUSHED YOUNG HIPPLE

Philadelphia, Aug. 29.—Shortly before noon Warden Hipple, son of the dead president, tried to leave the building. The crowd rushed toward him, shouting, "There's the son of the pious rogue who said he would not have faith in a tobacco user." Hipple was badly frightened, but was rescued by the police, and carried on the officers's shoulders to a cab.

Sad Fate of Twin Officers.

Washington, Aug. 29.—The war department has heard nothing further concerning Lieutenant John C. Hamilton, of the 12th Infantry, since his disappearance some weeks ago from Fort Jay, New York, where he was stationed. Fears are entertained by his friends that he is mentally affected and that some harm has come to him. His brother, formerly a lieutenant in the army, is now a patient at the government hospital for the insane here, where he was sent following a series of wild escapades in the Philippines. The two officers were twin brothers and obtained commissions in the army about the same time. They gave promise of being bright and capable officers and of having most creditable careers. Lieutenant J. S. Hamilton, brother of Lieutenant J. C. Hamilton, resigned by request before it was fully known in Washington to what extent he had misbehaved himself, or that he was mentally affected. The absence of the other brother has created much sympathy for the family of the two young men. The military authorities do not expect to hear again of Lieutenant Hamilton, unless he is overtaken somewhere. He will then be tried for absence without leave. If he does not appear of his own accord within three months he will be dropped from the army register as a deserter at the end of that period.

REVOLT DUE ON THE BALTIC

German Residents Fleeing— They Declare the Storm Is Ready to Break

Berlin, Aug. 29.—Another uprising in the Baltic provinces of Russia is predicted, and the German residents are fleeing in great numbers, declaring it will be much worse than last year. They say the storm is likely to break any day. Preparations for an armed uprising are completed, and bloodshed worse than any ever known in the empire is certain. Very few Germans left Western Russia.

DEFEND PASTOR WARREN

Aurora, Ore., Aug. 29.—The people of Butteville, near this place, where Rev. Warren was formerly located, are loud in their condemnation of Rev. Smythe for his denunciation of Rev. Warren. While at Butteville Rev. Warren made friends with everyone, and made many converts to the church. The Butteville people and those who are in a position to know, claim that Smythe certainly must have been insane at the time he made his charges against Rev. Warren.

HOPS LOOK WELL

Aurora, Ore., Aug. 29.—Hop picking in this section will begin Thursday of this week in a few yards, but the majority of the growers will not begin until the second of September. Some of the yards are very late, and picking will not begin until the middle of September. There is a larger acreage this year than formerly, and taken as a whole the crop is looking exceedingly fine, though in some instances the extreme hot weather has had the effect of burning the arms and stunting the growth of the hops. About 75 per cent of the growers are going to pick by the box, and many of those who will start in picking by weight say they will go back to the box system if their pickers make any objection. Forty-five and fifty cents a box will be paid around here. No contracts are being made in this territory, and the growers say they will wait until the crop is picked and baled before they will talk about price. Even twenty cent hops does not appeal to them.

REBELS CAPTURE A TOWN

Havana, Aug. 29.—The former mayor Cruces returned to that village at the head of 100 men and sacked the stores. He also occupied the town of Consolation and held it for the rebels.

New Post Quarters.

Sedgwick Post, G. A. R. No. 10, and the Woman's Relief Corps, auxiliary thereto, today moved into their new quarters in the new town hall, on North Commercial street. They expect soon to give a house warming in approved coffee-cooler style.

Cuban Election Returns.

Havana, Aug. 29.—Marquetir is reported to have entered Cabanas with a large band of insurgents. The rebels removed the rails of the Cuban Central Railway in the southern part of Santa Clara. Rurales brought in 17 captives today.

STEAM SCHOONER ASHORE

One Boat in Which Are One Woman and Three Children Is Still Missing

Pacific Grove, Cal., Aug. 29.—The steam schooner Celia, lumber laden, from Santa Cruz to Monterey, went ashore last night on the rocks two miles south of the Point of Pines. One boat, with the captain and 10 of the crew, made shore at Monterey. Another, in charge of Mate Anderson, with Bishop, superintendent of the Albion Lumber Company, his wife, and three children and Brigham Kimpton, has not yet been heard from.

A late dispatch says the vessel went ashore in a heavy fog. The missing boat with its passengers arrived safe. The vessel is already a total wreck.

PLOT TO ABDUCT THE CZAR

Birmingham, Eng., Aug. 29.—The Post says the members of the Russian secret service police are seeking plotters representing high families in Russia who aim to abduct the czar and place a certain grand duke on the throne. It is said the terrorists plan to attack the foreign consulates and force the intervention of the powers.

Bar to Discuss Reforms.

St. Paul, Aug. 29.—The annual meeting of the American Bar association which opens this afternoon for 3 day's session, promises to be one of the best attended and most interesting meetings of that distinguished national organization ever held. Among the members who have come to this city to attend the meeting are many distinguished members of the bench and the bar from all parts of the United States. The sessions of the association promise to be unusually interesting and it is expected that important results will spring from it. One of the most important features will be the discussion of the report of the committee on insurance law, which will be submitted by Ralph W. Brockenridge, of Omaha, the chairman of that committee.

The report which is quite lengthy, makes the following recommendations: 1. That the insurance committee be directed to draft and report to the next annual meeting of the association a bill that shall safeguard the interests of the life insurance companies and their policy holders, but shall require deferred dividends on life policies to be biennially apportioned, credited and certified to the holders of such policies. 2. The repeal of the so-called reciprocal or retaliatory tax laws. 3. The repeal of the valued policy laws. 4. The creation in each state of the office of fire marshal. 5. Stricter incorporation laws in the several states with particular reference to the capital stock and stockholders' obligations in insurance companies. 6. The enactment of a federal statute forbidding the use of the mails to persons, associations, so-partnerships or corporations conducting any kind of an insurance business in the United States who are not licensed to transact such business by the state where such persons, associations, co-partnerships or corporations are domiciled, or under whose laws any such corporations are created. 7. The enactment of a federal statute providing for the supervision of inter-state transactions in insurance.

Orloff the "Pacifier."

St. Petersburg, Aug. 29.—Orloff, who "pacified" the Baltic provinces, will be sent to Warsaw to exterminate the terrorists. The situation in Russia is worse than at any time since Alexander the Second, following whose assassination it was necessary to create a committee of public security. A dispatch says the whole township in the government of Tamboff has been burned by the revolutionists.

LAND FRAUD CASE

Evidence Shows Williamson Was Active in Getting Reserve Established

Portland, Aug. 29.—In the Mays land fraud trial today, R. B. Ormsby, formerly forest superintendent, was recalled, and admitted he owed his appointment to Binger Hermann solely. He sent all letters to Hermann marked "personal" and admitted that the government agents had threatened to indict his son if he did not tell what he knew. J. H. Dobbin, of Joseph, testified as to Congressman Williamson's activity in securing the wool growers convention to endorse an addition to the Blue Mountain reserve, containing land in which he, Williamson, was interested.

Soldered His Name On.

Berlin, Aug. 29.—The son of the crown prince was christened this evening at Potsdam, representatives of every royal family in Europe being present as godfathers. Charlemagne Tower represented America. The people are indignant at the kaiser because he said the christening was a family affair in which the nation has no part.

BUYS MORE SILVER

Washington, Aug. 29.—The treasury department this afternoon announced the purchase of 200,000 ounces of silver at 67.5 cents per ounce.

BRYAN COMES HOME

New York, Aug. 29.—The yacht Illini left this morning to await the arrival of Bryan off Sandy Hook. There were few aboard besides the heads of the reception committee and newspaper men.

New York, Aug. 29.—The North German Lloyd steamer Princess Irene, with William Jennings Bryan and Mrs. Bryan on board, is due here today, but notwithstanding the fact that hundreds and thousands of his political adherents are eagerly awaiting his arrival in this city, Mr. Bryan will not go ashore upon the arrival of the steamer. He and Mrs. Bryan will leave the steamer at the quarantine and go aboard the steam yacht of Edward Field Goltra, of St. Louis, a college classmate of Mr. Bryan, whose wife was a schoolmate of Mrs. Goltra. The yacht will at once start on a cruise about the sound and not until tomorrow afternoon, at 4 o'clock will Mr. Bryan land at the Battery, to be received by the reception committee and escorted in carriages to the Victoria hotel. The big reception in his honor will take place at Madison Square Garden in the evening.

Thousands of prominent Democrats are here from all parts of the United States to attend the reception tomorrow night and do honor to the returning traveler. Many of the leading Democratic clubs of this city have thrown open their club rooms to the visiting Democrats and the New York Democratic club is keeping open house and has arranged for a reception in honor of the visitors for this week. It is a significant fact that during the campaign of 1896 the same club closed its doors against Mr. Bryan and refused to aid in his campaign.

Dr. J. F. Cook Moved to 340 Liberty street, where he will meet all old and new patients. For any disease, call on Dr. Cook. Consultation free.

CHICAGO STORE PEOPLES BARGAIN HOUSE
