

TO READERS OF THE LADIES' HOME JOURNAL:

Did you read the article published by The Ladies' Home Journal... attacking Dr. Pierce's Favorite Prescription? Have you seen the statement more recently made by Mr. Bok, the Editor of the magazine that his company "has not paid a single penny to Dr. Pierce's concern... in settlement of any suit"? We want to know the truth. The facts are these: Four days after the article in May 1904, appeared, Dr. Pierce's lawyers sued The Ladies' Home Journal publishers for libel. The suit was had in April last. Dr. Pierce proved that the attack made by The Ladies' Home Journal was false. He proved that Dr. Pierce's Favorite Prescription does not, and never did contain either alcohol or any of the injurious drugs which The Ladies' Home Journal falsely stated contained. This was so conclusively shown that the attorneys for The Ladies' Home Journal were forced to admit it. The jury rendered a verdict against The Ladies' Home Journal in favor of Dr. Pierce's Favorite Prescription for \$16,000.00. This was a complete vindication of Doctor Pierce and his "Favorite Prescription." It judicially established that the libel was wholly false, and without any justification. Dr. Pierce, however, believed that his company is justly entitled to a much larger sum. Through his attorneys he has, therefore, applied to the court for a new trial of the case. For this reason, and for this reason alone, has The Ladies' Home Journal not paid a single penny to Dr. R. V. Pierce's concern." Dr. Pierce has simply chosen not to collect the judgment until the motion for a new trial has been decided.

In the light of these facts does not this boastful statement that it has not paid a single penny to Dr. R. V. Pierce's concern "look like a common bluff, a half truth intended to mislead you? In fact the "Favorite Prescription" stands alone as being the only medicine for woman's special ailments which has any such professional endorsement of its several ingredients which fact is generally recognized as entitled to much more weight than any amount of lay, or non-professional testimonials. The "Favorite Prescription" stands alone as the only non-secret, medicine for woman's ailments. Its manufacturers are not afraid to publish its ingredients, as they do, broadcast—thus courting the fullest scrutiny. The "Favorite Prescription" has been on trial in court and came out fully vindicated as containing no harmful or habit-forming drugs. What other medicine for women could stand such a test? No invalid woman can afford to accept a secret nostrum of unknown composition for this tried and proven remedy of known composition. Leading physicians often prescribe it because they know exactly what it is made of and that the ingredients of which it is composed are the very best known to medical science for the cure of woman's peculiar weaknesses and delicate ailments.

Dr. Pierce's Favorite Prescription is not advertised as a "Cure All" but admirably fulfills a singleness of purpose, being a superior and most positive remedy for one class of diseases only—those easily recognized weaknesses, derangements, irregularities and painful disorders peculiar to women. It is a powerful, yet gently acting, invigorating, tonic and strengthening nerve. For weak, worn-out, over-worked women—no matter what has caused the breakdown—whether it be from too frequent bearing of children or from much worry, care, or over exertion of any kind, "Favorite Prescription" will be found most efficient in building up the strength, regulating all the womanly functions, banishing pain and bringing about a regular and healthy, vigorous condition of the whole female system.

The turtles and their shells. The shells shipped from the Col. district are taken from turtles in the Caribbean sea during months of May, June, July and August, when they approach the sand to deposit eggs, which are on the sand beaches above high mark at night; holes are dug 1 1/2 feet deep and the eggs are buried therein; generally about three layers are made during a period of nine weeks. The eggs are covered with sand and left to hatch out by the heat of the sun. The turtles are caught either while on shore or in the water by means of nets. As a rule, they are killed immediately after being caught, cleaned, and the shell frame washed with sand; but on the San Blas coast the Indians do not kill them; but at once proceed to remove the shell by subjecting the turtles to great heat, afterwards throwing the turtles back into the sea. By the application of heat the successive plates of shell come off very easily. Turtles caught in these waters vary in size from 1 to 4 1/2 feet long.

CASTORIA For Infants and Children. The Kind You Have Always Bought Bears the Signature of Dr. J. C. Hutchins. In Use For Over Thirty Years CASTORIA. 900 DROPS. NOT NARCOTIC. THE SARGENT COMPANY, NEW YORK CITY.

FIFTY MILES OF TRACK

Southern Pacific Buys A Town at Junction of Four of Its Lines

The Southern Pacific plans to construct a \$500,000 terminal, with extensive roundhouses and fifty miles of switching tracks at Roseville, where the company bought the heart of the town and moved it over to make room for this gigantic enterprise.

Rushing to New Town. People between Sacramento and Rocklin rubbed their eyes when they heard that the Southern Pacific had "bought a town," as they speak of it up there, and at first they were disappointed; for the great Roseville terminal will take 2000 workmen away from Rocklin and Sacramento, and that means probably 8000 or 10,000 people, to be located in the new town. But their second thought was to take advantage of the situation and get into Roseville early.

The railroad company will have double tracks from Roseville to Sacramento, a distance of eighteen miles, and freight trains from the east and north for San Francisco will be made up at the new terminal, saving sometimes 24 hours delay in delivering the freight here.

The object of the railroad company in buying the center of the village of Roseville for four blocks on either side of the main line, was to secure permission to close crossings. The stores and churches were shifted back one block in each direction and the inclosure for the switching yards will extend for a mile and half without a crossing. The town is divided into two strips with no connection except at the ends of the big yards, where wagons and people may go around.

Mile and a Half of Yards. The main yard will be a mile and a half long and about 350 feet wide but at the eastern extremity it will be widened to 700 feet. Roseville will be the junction of the northern line to Portland; the eastern line to Ogden; the southern line to Los Angeles, and the western line to San Francisco, by way of Carquinez strait. Most of San Francisco freight will hereafter come from Roseville by way of Stockton saving the delays at the Carquinez ferries. The new roundhouses at Roseville will be among the largest in Southern Pacific system, accommodating 40 or 50 locomotives.

with a maximum weight of 150 pounds, and the average weight of shell obtained from each is from 6 to 7 pounds. The commercial value of tortoise shell depends upon the thickness and size of the plates rather than upon the brilliancy of the colors. The price of shell in this market fluctuates from \$3 to \$6 gold per pound. As the best prices are obtained in England, the largest amount of the shell shipped from this part goes to that country. The San Blas Indians, however, trade a large amount of shell to coasting schooners, which is partly carried to the States and partly brought to Colon.

During the year 1905 the total amount of tortoise shell shipped from the entire consular district of Colon to all countries was estimated at 16,000 pounds. The total amount shipped from Colon alone in 1905 was estimated at 800 pounds, valued at \$37,000 gold; of this amount, about 5000 pounds, valued at \$22,000 gold, was shipped to England, and about 2000 pounds, valued at \$9000 gold, to the United States, and the residue of 1000 pounds, valued at \$45000 gold, went to Germany. For the fiscal year ending June 30, 1906, tortoise shell valued at \$11,219 gold, was shipped to the United States from Colon—Consul James C. Kellogg of Colon.

Her Little Hint. The full moon flooded the porch with shafts of steel-blue rays. It was late but he showed no signs of departing. "It has been said," he remarked dreamily, "that the moon is dead." "It that any reason," she inquired with a yawn, "why we should sit up with the corpse."—Judge.

"My neighbor blames me for everything that happens to his place; he says my dog does all the mischief." "I noticed he was angry at the disappearance of his rubber mat." "Yes, he even laid that at my door."—Il Diavolo Rossa.

CLASSIFIED DEPARTMENT
