CAPITAL CITY A CENTER OF MANUFACTURES

History of Some of the Successful Plants in Operation Here--How They Are Growing

Salem, the Capital City of Oregon, is quite a future as a manufacturing center. Those who are engaged in manufacturing here are uniformly prosperous and successful. As will be seen by the descriptions in this special edition devoted to our manufacturers, many of the plants have in contemplation immediate extensions, and all are preparing to handle a larger volume of business in the coming year than ever before. In each case it will be seen that there has been constant growth. Prepared in a few days there has not been time to see some of the manufacturers of this city, and some were out of the city and could not be seen. There are many lines employing labor that are manufacturers in part, but not wholly, like the printing offices and laundries, the meat packers and bakeries, the confectioners and druggists, all of whom employ labor and turn off products

that are strictly speaking manufactures. There is need for some industries at Salem, and with an abundance of water and electric power and cheap fuel for making steam power, they could easily get a foothold. A flax industry is said to be founded and will materialize some time in the future. A wagon factory, implement factory, furniture factory, excelsior mill, manufacture of hardwood lumber, and many kindred lines of manufacture could find a fine field here. Rents are cheaper, property is cheaper, taxes are lower, labor is cheaper and power is cheaper here than in any of the larger places. Fire protection for factories is excellent, and there are many practical reasons why manufacturing can be carried on here to better advantage than in any other city of the state. Transportation by river and rail and by electric lines is no small item in locating a factory.

EVERY HOME A HOSPITAL

Four Hundred Injured in the Jellico Explosion of Yesterday

Jellico, Tenn., Sept. 22.—Almost every home in this town, left after the explosion, has been turned into a temporary hospital. School girls have left their studies to become nurses. Lawlessness followed the disaster, and rescuers detected persons removing valuables from bodies, but the thieves escaped. Parties are digging in the ruins today to see if there is a possibility of finding more dead. The total injured number 400.

KILLED ALL IN VILLAGE

Hague, Holland, Sept. 22.—Dutch troops captured the village of Badong, in the East Indies, according to reports here, and killed 400 inhabitants, including women and children. Badong is the capital of a small state, the ruler of which rebelled some weeks ago against the Dutch control, and attacked the troops stationed near. The destruction of the village means the end of the insurrection.

Say Treppoff Is Not Dead.

St. Petersburg, Sept. 22.—It is reported by the terrorists that Treppoff is not dead. It is stated the body buried was not Treppoff's. It is further declared that Treppoff is clean shaven, and is still the dominating influence in arranging protection for the Czar.

Blew Safe.

Ziegel, Ill., Sept. 22.—Robbers blew the safe of a private bank here this morning, and escaped with \$4000.

The Angelus, Restaurant, Confectionery and Bakery.

Open from 6 a. m. to 12 p. m. Regular dinner including ice cream 25c. Angelus ice cream is the best.

ANARCHY RULES IN MOROCCO.

Natives Arm for Holy War and Sultan Has No Power.
Tangier, Sept. 22.—The situation in Morocco is becoming daily more menacing. European properties at Taflet, Rif, Mogador, Casa Blanca and even Tangier are threatened. Natives are equipping and organizing as if for a holy war, and the Sultan's authority is non-existent. The shiekhs in the Marakesh region have demanded complete autonomy.
Up to the present time the Sultan has succeeded in preventing the big feudatories from uniting, but their power is growing daily. They intercept taxes, raise levies and expel officials sent by the Sultan. Sherouf Elkstanni of Fez, one of the bitterest Europeans, is going to Marakesh to preach to the tribesmen against the European population.
Raisuli has nearly recovered from his recent illness.

PLAYING FOR CIGARS GAMBLING

Judge Cameron So Decides in the Case Against E. J. Burns

Portland, Or., Sept. 22.—(Special to Journal).—The decision in the case of E. J. Burns, who was charged with gambling for drinks or cigars, was decided by Judge Cameron this morning. The decision is against playing cards for drinks or cigars, and is based upon supreme court cases, which are to the effect that for drinks or cigars are equal to money, and games for these exchanges are held to be gambling, and contrary to law. The decision marks an epoch here.

The Patrick Case.

New York, Sept. 22.—Attorney Patrick is not seeking a pardon, but vindication, according to advices received today. He declares he is not guilty of directing the killing of Rice, and wants the court to free him from the charges.

Bishop Hoare's Body Found.

Hong Kong, Sept. 22.—A steamer from Canton sighted the body of Bishop Hoare, who was drowned, and a party has been sent by the steamer Stanley to recover the body.

HOOSIER FOLKS IN CHICAGO

Chicago, Sept. 22.—Senator Beveridge, who opens the campaign in the Middle West, in a speech here tonight, said there were no issues. He declared the country was united upon the legislation of the past and the needs of the future. That the contention is whether Roosevelt's policy is to continue, or the opposition prevail. He said the issues to rise would be government ownership against regulation, and the Cuban question.

SWEET MARIE BEATS RECORD.

Trots Mile in 2:02 at Columbus, O., Friday.

Columbus, O., Sept. 22.—Sweet Marie, in front of the largest crowd ever gathered at the Columbus track, was successful Friday afternoon in not only lowering her own record of 2:03 1/4, but in establishing a new trotting mark for the course. Her mile in 2:02 flat is a quarter of a second better than the time Frencho made here in 1901. Sweet Marie was accompanied by a runner alongside, but there was no wind-shield to help her.
Fractional time: :30, 29 3/4, 30 1/4, 32.

REBELS ARE GROWING IMPUDENT

Will Find They Are Not Being Chased by Fellow Greasers When Uncle Sam's Boys Start After Them

Havana, Sept. 22.—The Minneapolis and Newark arrived this morning. Taft held a conference with the rebel generals today. The secretary is seeking a guarantee that the insurgents will accept as final the decision of the commissioners. Heretofore the rebels have been independent and self-assertive, and have maintained that if the United States sustains Palma they will continue fighting. It was complacently remarked by an officer, when told that the ships were in the harbor "that the ships could not sail to the woods." The rebels will probably accept the American decision.

Havana, Sept. 22.—Congressmen, having close relations with the government, today asserted that Palma would resign before night, and the American troops would march in soon after.

Havana, Sept. 22.—The big question now forming in Cuba is not whether the United States shall intervene, but in what form the intervention will be offered. Taft has received statements from all factions, indicating no agreement can possibly be reached, that will place the government wholly in Cuban hands. American officials now contend that only American intervention will give relief from constant turmoil. One proposed solution is to continue the Palma government, with their rights guaranteed to the rebels by America. Taft is about ready to ignore both factions, and appoint a native commission to devise a solution, to be enforced by America.

Washington, Sept. 22.—The war department is expecting orders from the President at any time to send an army to Cuba. General Funston, for the last 24 hours, has been in almost constant consultation with Colonel Witherspoon, chief of the third division of the general staff, and acknowledged to be one of the most expert strategists in the army. Orders have been sent to all purchasing agents in the West to buy additional supplies in the open market. Norfolk will probably be the chief point of embarkation for the army. Funston left here at 3:40 this afternoon for Havana, via Tampa.

Havana, Sept. 22.—A basis for an agreement for all points in dispute between the insurgents and the

government, it is believed, has been reached. Reports to this effect are current, following a 20-minute conference this afternoon of the American commissioners and Palma. It is understood the insurgent chiefs promised Taft this morning to submit unreservedly to the American intermediates. Palma's resignation is expected as the result of a slight given him by the leaders of his party. The moderates had decided, without consulting him, to submit the case to the arbitration of the Americans. In all quarters there is a much more hopeful feeling since the visit of Taft to Palma.

St. Louis, Sept. 22.—Army officers today advertised for cavalry and draft horses aggregating about 900, and wheel, lead and pack mules for machine, platoon and mounted guns, aggregating about 700.

Havana, Sept. 22.—Leaving Palma's pale, Taft said: "The moderates show a desire to maintain the integrity of the republic, even if they lose control. Consequently the situation is more hopeful, but there must be some resignations before the rebels will lay down their arms. At least we have the ice broken." Taft received a long cable from Oyster Bay today in answer to his pessimistic messages. The President ordered him to exhaust every resource to secure a peaceful settlement without armed intervention.

AFTER COAL TRUST

Omaha, Neb., Sept. 22.—The court today issued an injunction restraining the Omaha & South Omaha coal exchanges and its members from attempting to monopolize the coal trade of the two cities, and commanding them to turn over their books to the district attorney September 24.

Will Sue the Company.
San Francisco, Sept. 22.—Attorneys representing the policy holders today formed an association for the purpose of joint action against the North German Insurance Company, to collect losses.

How Much It Costs.....

Did you ever stop to figure out what a good set of teeth means to a person. Every day you put off having your teeth attended to means added cost not only financially but from a standpoint of Health. Then there is your personal appearance. The old saying show me a man who don't clean his teeth and I'll show you one who never takes a bath, is literally true. So if your teeth are decayed or broken down I can fill or replace them by my painless method and you have an absolute guarantee that you are getting the best of high-class workmanship. What is more it won't cost any more than the ordinary kind in fact a little less.
Don't overlook the fact that we are giving away a \$125 diamond ring on January 1st.
