

Fall Opening of the New Schloss Styles for Men

This is the great Clothing event of the year—Our advance showing of new SCHLOSS Fall and Winter models. As everyone knows who is at all posted on the subject, the new styles are very largely originated by the Schloss designers and later copied by others.

The present season is a good illustration. Now that our Fall stock is here, we can show you new advance models that will not be generally offered for at least two or three months.

It will pay you to see these splendid garments. Not only are you certain of the new style and the right style, but the quality, fit and incomparable workmanship of these garments are thoroughly exclusive characteristics. Furthermore, we have very few duplicates and our best will be quickly taken. See them now; we will reserve your selection until later, if you so desire.

The New "Harvard"

Here is one of the best of the new designs for fall—called the "Harvard" because the model came from there—well shown in the illustration. You'll find it just as correct for business wear in New York or San Francisco as it is on the Harvard campus.

Don't confuse this design with the ordinary "straight fronts" that you may see. The similarity ends there. Little differences of line and shape and proportion, impossible to describe, give this "Harvard" suit an unusual character and smartness specially brought out by the fine tailoring.

Our Schloss Suits Cost from \$15 to \$30. Others \$8 up

EDITORIAL COMMENT.

The Journal is not given to boasting but we are proud of the farmer boys. They are, with rare exceptions, a healthy, intelligent and happy class of young men. We feel like taking our hat clear off when we meet them upon our streets, and no

class is more welcomed to our office. Too many boys leave the farm where they would have made substantial and good citizens, and go to the city where only one in a thousand succeeds in life's battle. There are farmers who fairly drive their boys away. There is no excuse for this. The farmer boy is entitled to his vacations, to several relaxations, his visits to the city, good books, magazines and his home paper. To the observing one, it is plain to be seen that the old farm is the best place in the world for the average young man and never fails to bring a happier and more useful life than the city. Young men, you who till the soil and earn your bread by the sweat of your brow, we are proud of you, and always hope to see you prosper.

There are but few editors in our state who have not made a vigorous and continuous fight against the city mail order house. This has been done in the interest of the home merchant, and without money and without price. If the editors of the land had received regular advertising rates for all they have said against these enemies of the country merchant they could now be wearing diamonds. Now the department store man appreciates advertising space and is willing to take all the average country editor has for sale, and at a good price. What other class of business or professional men would refuse business to help their friends, especially as many of said friends never seem in the least disposed to return the compliment or even appreciate it.

PUSH THE MEHAMA LINE.

The construction of the electric line to Chemawa has brought new life to this city, new trade and NEW INSPIRATION.

Property towards Chemawa is advancing and coming into the market for suburban homes, and will as fast as the line is extended north. The new electric cars came in Saturday night LOADED DOWN

WITH PEOPLE attending the Grand Opera House theatre.

Every line of business feels the advantage of a new electric line in any direction. The Mehama line should now be pushed.

The people of Salem HAVE LONG WANTED AN OUTLET to that part of the country, and generally favor its construction.

Of course, there are the usual obstacles and delays. The hold-up element of the community is always ready to obstruct.

But, thank God and the progress of intelligence, there is less of that than formerly, and it is not in as much favor as formerly.

A New Consumption Cure.

London, Sept. 25.—A new consumption remedy, which has been tried in England, has achieved the most splendid success, according to one of the principal London physicians. It is a German remedy, and, a secret at present.

When Dr. Von Behring last fall in Paris told the profession of his wonderful discovery he declared that the bacilli of tuberculosis contained within themselves and their secretions substances which were inimical and to a degree fatal to their existence. He said he aimed at the separation of the substance from the bacilli and its application as ammunition, so to speak, for the destruction of bacteria.

With this to go upon several German scientists began work, and one of them, Dr. Thamm, was successful. He sent some of his remedy to England, and it has been tried in a hundred different cases, with the most wonderful, immediate and lasting success. The new remedy, the doctor explains, is administered in almost microscopic doses. One of the first noticeable results is an immediate diminution of the fever, which is a pronounced feature of consumption. Other symptoms then diminish, and with their reduction an unmistakable reconstruction of the diseased tissue takes place, until in some instances the action of the affected organ becomes almost normal. Out of the trial cases every one in six months was pronounced "a nearly complete cure."

In Rockland, Me., the other day a shipment of live lobsters was made to Seattle, Wash., which is believed to be the longest distance thus far for a consignment of that kind.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio.

Will Raise His Roof.

New York, Sept. 25.—Carl Fredericks, a 9-year-old boy, of Hoboken, N. J., is to be operated upon in the hope of reforming him. The lad is now at the Rahway reformatory, under constant supervision by scientists. The doctors declare the brain size must be reduced.

Tests made showed that the boy has no sense of right or wrong, and by the operation, which will probably take place within a week, it is hoped to overcome the criminal tendencies which have so far defied the corrective attempts of his parents. The boy's head is of abnormal shape, the skull coming almost to a point. The ears are small, but protruding.
