ROCKEFELLER IS SMOKED OUT

THINKS FAIR METHODS WOULD BE FATAL

DESTROYS YOUNG MAN'S CHANCES

Financial Birds and Beasts of Prey Must Not Be Hampered In Their Pursuit of the General Public

Cleveland, O., Oct. 4.—John D. Rockefeller thinks the last two years of "muck raking" has been very bad. In an interview he says: "If we limit opportunity it will stop national development. Will the individual strive if he knows the hard-won prize will be snatched by the government. This nation is too young to begin tearing down; it must build up. In Europe when attacks were made on the packers, Frenchmen were gleeful. They hate us. They use our own charges against the packers as hot ammunition. They are anxious to get the better of us in the world's trade. In the East Japan, in the same way, Japan is developing into a wonderful power. We must develop our enterprises, not limit our opportunity. It is common sense to tell our young men, on whom the future depends, they can hope for no other reward

for carrying the commercial flag forward than frenzied attacks at home, and all the handicaps. Handicaps their own government can put upon them? He said of all the charges made against him, the one that hurt the most was that he tried to dictate the course of study at the institutions he endowed. He says he 'never made suggestions.'"

MONROE MAKES DENIAL

Chicago, Oct. 4.—J. A. Monroe, traffic manager of the Union Pacific, was before the interstate commission today. He denied the road grants elevator owners rebates. Previous witnesses had said the road granted rebates thus fostering monopoly.

FOUGHT GAME COCKS

Havana, Oct. 4.—An American ex-Rough Rider named Harvey was among the disarmed insurgents camped at Pinar del Rio. He says most of the combats were between game cocks, as ten per cent of the rebels carried roosters tied to their saddles, which they would fight at every halt. There was little warfare, and the disarmed rebels cheered the American commission.

REBELS DISARM GLADLY

Havana, Oct. 4.—Funston this morning received messages from members of the disarmament commission, saying the grounding of arms was progressing rapidly in various parts of the island. Funston has arranged to visit Asbert's camp this afternoon. The Santa Clara commissioners report the recovery of a quantity of dynamite, taken from an American iron company.

SPOKE IN DRIVING STORM

Harrisburg, Oct. 4.—The President arrived at 11 o'clock. He was met by the governor and escorted in the rain to the capitol. He sat through the downpour, wiping the water from his face during the preliminary exercises. He spoke in a heavy rain, rivulets running over his face and into his shirt bosom.

NEW YORK'S STRENUOUS SENATOR

New York, Oct. 4.—Platt's wife came to New York today. She refused to say whether she was trying to see the senator. It is reported that Hedges has left Tioga Lodge to go to Washington. It is understood Platt will go to the capitol.

New York, Oct. 4.—Senator Thomas C. Platt, in a state of collapse, was borne out of the Hotel Gotham yesterday and carried off to his suite of private offices in the United States Express Company's building an hour before the time of the expected arrival of his wife from the Platt estate, near Highland Mills, with the avowed intention of taking her place at the side of her aged husband.

Mrs. Platt's Wrath Finds Vent.

But he might as well have stayed in bed, for Mrs. Platt, abandoning her announced intention of yesterday, did not come to town. She was still at Tioga Lodge this afternoon, boiling mad, although she had been able to take off some of the edge of her temper by smashing the camera and punching the nose of a photographer, who tried to snap-shot her in the main street of Highland Mills.

THREE KILLED IN MINE

Bluefields, W. Va., Oct. 4.—It appears certain that at least 60 are dead in the Pocahontas mine, in which the explosion occurred yesterday. All the coffins in town have been ordered to the mine. Fire makes the rescue of any possible survivors practically impossible. Wm. Ferguson and Charles McHenry, members of the rescue party, were killed.

Bluefields, Oct. 4.—The explosion reports are greatly exaggerated. Almost the entire force escaped. It is known that three are dead. The number of injured is not yet learned.

LIPTON'S HAPPY THOUGHT

NO CLUE TO BANK ROBBERS

San Francisco, Oct. 4.—A Sasaki, cashier of the Japanese bank, who was struck down by robbers yesterday, is still unconscious in the hospital, with small hopes of his recovery. The only clue to the robbers, who got away with nearly \$4000, is the broken utterance of Sasaki: "Two Americans." Unless Sasaki recovers and describes his assailants there is little hope of effecting their capture.

Smiles

The Journal heartily endorses the main ideas of Editor Davey's leading editorials on the kind of men to put in city offices. We can't have men of too high an order of character in the city offices, but the argument that, because the city gave 500 majority for Congressman Hawley, therefore only Republicans should be elected is not good. This city is more interested in good business administration and policies of public improvement than in hard-and-fast partisanship. If this city had gone 500 the other way would Mr. Davey insist on a full Democratic ticket being elected?
