THE COMING CITY ELECTION.

It is the mandate of the law that all citizens go to the city hall and register if they would vote at the city primaries in November, and the city election in December.

It is the DUTY OF ALL GOOD CITIZENS to take a full hand in city government. The nomination and election of city officials is far more important to the moral and commercial welfare of the community than the election of state and national officials.

An alderman, though he got NO COMPENSATION BUT KICKS AND CURSES can discharge the duties of that office from as high a standpoint of civic duty and public patriotism as any president that ever lived.

In the coming city election, three points should be kept in view:

First. There should be no lowering of the moral standards of the community. SALEM HAS PASSED THE POINT where it can ever again be run as a wide open town.

Second. There must be no let up in the PROGRAM OF PUBLIC IMPROVEMENTS, no relapse into indifference about street paving, better bridges, etc.

Third. The high financial standard of the city must be maintained. All good citizens will agree to the importance of these propositions.

IN THE INTEREST OF PROGRESS

Aldermen Downing and Steusloff of the Salem city council, are to be commended for straining a point in order to permit the North Commercial Improvement TO BE COMPLETED.

The construction of that concrete viaduct is an important step in the development of the city. That street has remained closed at that point LONG ENOUGH. To have defeated it now might have meant its permanent defeat. That would have DELECTED BUSINESS FROM ITS NATURAL CHANNELS to the benefit of the other streets.

The people of Commercial street and all North Salem owe the two business members of the committee on bridges a vote of thanks.

PANICS.

Nothing is gained by cultivating the idea of commercial panics.

On the other hand, if all made preparations to meet panic conditions there'd be none. They would be rendered impossible by THE RISING TIDE OF CREDIT AND CONFIDENCE.

Overflowing material prosperity almost approximating a boom is said to always precede a depression.

Of course, there have been minor panics, like the Lawson panic, the millionaire's panic, and the Northern Pacific panic, all confined to Wall street. After a while there will be more scientific study of these money colles.

Broadly speaking, there has been A TWENTY-YEAR PERIODICAL PANIC in this country and in England, but not in the same years.

Our record panic years were 1837, 1857, 1873, 1893. In England black

THERE IS A TIDE

In the affairs of men, which taken at the flood leads on to fortune. The tide is at the flood for you right now, if you will begin saving regularly a part of your wages and continue doing so, depositing your savings each week or month in our Savings Department, where they will earn interest.

It will surely lead on to fortune.

THE TRUTH ABOUT ROADS.

The editorial writer of the Statesman, supposed at present to be Mr. Davey, tries to minimize the credit due Governor Chamberlain for having built some miles of first class highway with convict labor.

The truth will hurt no one, and following are the facts, as we understand them:

Under the Lord administration about a quarter of a mile of turnpike was constructed at the penitentiary with convict labor.

Under the Geer administration we do not recall now that any more highway was constructed with convict labor.

The first mile of highway out of this city towards Turner was constructed by the late W. G. Westcott with subscriptions from the city to the Westcott farm.

Governor Chamberlain did put up five miles of permanent highway with convict labor at almost no expense to this county, and says he is willing to put up more if the county will take care of what has been put up.

Besides Governor Chamberlain has furnished the county court gangs of convicts to work on several other roads in this county. Give the Democrat his due.

The system of employing the convicts to build roads should be extended.

Marion county has spent about \$100,000 the past six years on good roads, and IF ONE-FOURTH THIS SUM had been set aside to be expended in co-operation with the state great results would have been gained.

The state should make an appropriation of about \$200 per mile to enable any county to have convict built roads constructed.

As the Eugene Register intimates, the work should not be confined to Marion county. It should be broadened to the whole state.

Men of sense and intelligence will take broad and impersonal views of this matter of road building.

The roads belong to all the people, and good roads whether built by Democratic Chamberlain or Republican Scott belong equally to all the people.

A WORD FOR THE SOUTH.

It was with a great deal of pleasure that the writer who was born of Union parents and is politically speaking a son of the north, heard several old grand army men, at the post meeting, say some KIND WORDS FOR THE SOUTH. It is almost impossible for a northern man to intelligently put himself in the place of a southern man, when considering the war of 1860-65, and its immediate results. The armies of the north came home victorious and triumphant to a region that had maintained increasing prosperity. The armies of the south returned to a desolated country with its agriculture ruined and its industries destroyed.

In the south, HOMES, SCHOOLS AND CHURCHES were more or less broken up and social conditions disturbed as the result of the war. Again the northern states were practically buoyant and aggressive when reconstruction policies more bitter even than defeat on the field of battle were forced upon the south.

Following the impoverishment of

the war at least TWO GENERATIONS OF YOUNG MEN AND YOUNG WOMEN could not be given the advantages of higher education they would have enjoyed but for the war.

How plainly we can all realize the truth of this when time has allayed prejudices and enables us to set ourselves in our southern brother's place.

X-RAYS

At last the Smith family has distinguished itself. J. P. Smith has been arrested for robbing an insurance company. He should be welcomed in his home town in Kentucky with a brass band—the only man on earth that got up before the company.

The registration laws should be changed so a man can earn car fare on the few days he is not trying to prepare for voting time.

The registration laws are made on the old 16 to 1 plan—register 16 times to vote once.

Mae Wood, claiming to be Senator Platt's wife, says the old sinner is "reaping the whirlwind." In this case Mrs. Wood represented the wind he sowed and Miss Janeway the whirlwind, who is doing the "ripping."

W. S. U'Ren, of Oregon City, says he "does not say 'pshaw' in reply to the suggesting of his being made U. S. senator." Mr. U'Ren does not have to use that unfonetek expression. The balance of Oregon's citizens say it for him.

President Smith, head of the Church of Latter Day Saints of Jesus Christ, commonly known as Mormons, has been arrested charged with living with five wives. There is also a criminal charge against

It Takes Nerve

Everything depends upon your nerves. It is nerve force that causes the brain to direct the motion of your body; it is nerve force that causes your heart to pulsate, and send the blood through your veins; it is nerve force that causes your stomach to digest food, your kidneys to filter the blood, and the liver to secrete bile.

In fact, nerve force is the power that runs your body, so if you feel worn-out, irritable, nervous, cannot sleep, or cat well, have pain or misery anywhere, your nerves are weak, and your system run-down. To restore this vitality take Dr. Miles' Nerve which will strengthen and build up the nerves. You cannot be healthy without strong nerves.

"For eighteen years Dr. Miles' Nerve and Anti-Pain Pills have been my close companions. Early in married life, while raising children, my nerves became all worn-out—could not sleep; had no appetite; indigestion very bad, and had such awful dizzy spells. Then I began using Dr. Miles' Nerve, and at once I began to improve, and soon found myself in perfect health."

Tuesday Seattle, desiring to raise \$500,000, opened its subscription books at noon and by night had \$650,000 secured. The same day Portland, by hard rustling, much advertising and persistent begging, raised \$1981. The Evening Telegram says the collectors are enthusiastic—but somehow the subscribers are not built that way.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two 50 cent bottles cured me sound and well.

It is a wonderful medicine and I recommend it to suffering humanity. Sold by D. J. Fry's drug store.
