TUMORS CONQUERED

SERIOUS OPERATIONS AVOIDED

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in Case of Mrs. Fannie D. Fox.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's enemy, Tumor. The growth of a tumor is so frequent its presence is not noted until it is far advanced.

So-called "wandering pains" come from its early stages, or presence of danger may be manifested by profuse monthly periods, accompanied by unusual pain, from the abdomen through the groin and thighs. If you have mysterious pains, if there are indications of inflammation or placement, secure a bottle of Lydia E. Pinkham's Vegetable Compound at once and begin its use.

Mrs. Pinkham, of Lynn, Mass., give you her advice if you will, whether about yourself. She is the daughter-in-law of Lydia E. Pinkham, who for twenty-five years has been advising sick women free of charge.

Dear Mrs. Pinkham:— "I take the liberty to congratulate you on the success I have had with your medicine. Eighteen months ago my pain stopped. Shortly after I felt so badly I submitted to a thorough examination by a physician and was told that I had a tumor and would have to undergo an operation. Soon after I read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After taking five bottles as directed the tumor entirely gone. I have been examined by a physician and he says I have no signs of tumor now. It has also brought my period around once more, and I am as well."—Fannie D. Fox, 7 Chestnut St. Bradford, Pa.
