#### PROTECT BANK DEPOSITORS.

The state of Oregon should not only have a good state banking law but the United States should guarantee the deposits in national banks.

The banks themselves CAN DO THIS by adopting some plan of all going security for each other and the government should require that ALL BANKS SHOULD PAY A SMALL SUM annually into a sinking fund to protect all.

The cut rate ticket brokers belong to American Ticket Brokers association and guarantee any customer purchasing a ticket from any one of them against loss. No bank or individual receiving deposits from the public should be allowed to do business without belonging to a clearing house association.

When a bank fails, U. S. government should STEP IN AND PAY ALL DEPOSITORS, collecting the amount back from clearing house to which bank belonged, the clearing house after realizing on the assets to collect deficit pro rata from each of its members.

It should certainly be as desirable to the banks as to the cut rate ticket brokers to see their customers PROTECTED AGAINST LOSS, particularly if the government guarantee of safety brings to light and for deposit all the money now hid away in old stockings, trunks and bed quilts. Besides, it should be worth something to bankers and the whole country to have a STOP PUT TO PANICS AND BANK RUNS.

The bankers' committee have agreed that we can have a flexible, elastic currency by deposit of good collateral with the government and securing legal tender government money on same to extent of half their capital.

The time to begin saving money is when you begin to earn it.

No matter how small your income, you can save a little of it. This alone, if regularly done, will make you independent.

We receive deposits of one dollar or more, and pay you interest at the rate of three per cent compounded semi-annually.

Savings Department  
Capital National Bank

This is all right and at 2 per cent per annum (which rate the government itself has to pay), the government's indebtedness could be paid off in a hurry if this interest from the bankers is devoted to PAYING OFF OUR NATIONAL DEBT.

Take care of Uncle Sam, boys, as you go along, and maybe after you get his debts paid off you can make something more out of him. Every dollar of bonds paid off means ANOTHER DOLLAR IN CIRCULATION and that much interest stopped.

#### FOR WHOSE CONVENIENCE IS THE UNITED STATES BEING ALLOWED TO REMAIN IN DEBT?

Can it be possible that international bankers, able to corner the world's supply of gold and hide it away, have been juggling the little visible gold supply (in sight) to and fro across the waters to confuse the nations and rob them? We hope not.

#### THE PEOPLE'S LOBBY.

That is what the Success Magazine editor, University building, New York City, proposes to organize and keep tab on congress.

He has a governing board composed of such men as Francis J. Heney, Lincoln J. Steffens, and others at the head of the movement.

The People's Lobby is to TURN ON THE LIME LIGHT. It will watch all committee and legislative work and publish the record of every member.

The honest official who has no grafts to promote and no "friends" to protect, will have nothing to fear from the People's Lobby.

The same principle should be applied RIGHT HERE IN OREGON and even in the coming Salem city election.

Let the good citizen who would have a word to say in the choice of men and in holding them to public accountability, register for the Direct Primary, and then he will be in a position to help make the ticket right.

The Journal pledges itself to expose the record of any unfit man, and will open its columns without restriction for such exposure.

There is no reason why any grafter should get the NOMINATION OR THE ELECTION TO ANY CITY OFFICE. Let us have the People's Lobby.

Let us have it right here at home where we all live and know the men who work political grafts and are in politics for the money there is in it. The People's Forum idea is a popular one and it is growing in the minds of the people.

#### ONLY A TAFFY MAN.

Yet, he gives a great deal of pleasure of an innocent, harmless kind, by distribution of taffy.

Taffy that tastes good in the mouth, THAT CHEWS WELL, and is clean, is an important thing in this world.

Salem has a taffy man who has devoted his life to sweetening the mouths of many generations.

A little rubber stamp tells us his name is D. S. Schenck, a distant relative we trust of General Schenck of Ohio, once American ambassador to England.

This artist in taffy, and we do not admire the art of TAFFYING THE PUBLIC, is a native of Ohio, and helped organize militia companies when the civil war broke out.

Like many other veterans of those days he has led a wandering life, settling in Colorado, thence to California, thence to old Oregon.

He has sold taffy in more towns than this article can enumerate and

is now an old man. HE HAS DONE NO HARM IN THE WORLD, and these lines are written just to break the custom of newspapers giving prominence only to Generals, Colonels, public officials and great men and parasites generally.

#### DRUG POISONING.

According to the figures given out in Chicago a short time ago, 2048 persons were killed or injured during a single year by accidents resulting from sheer carelessness in handling poisons, drugs and medicines. Of these 2048 cases, 892, were fatal in a single year as the result of only one form of carelessness.

The figures referred to above have to do only with accidents resulting from the misuse of medicines, drugs and poisons, and serve a useful purpose in calling attention to a needless waste of human life that can, and ought to be, completely avoided. It is almost criminal carelessness to leave within the reach of children any medicine, or poison, or any article whatever which, if swallowed by a child would cause injury. It is particularly important that medicines and poisons be kept in a cupboard, under lock and key if possible, and that before medicine is taken it be ascertained with absolute certainty that the right bottle has been secured, and that the proper dose is taken. Medicine should never be taken in the dark, and never without an inspection of the label and a positive assurance that no mistake is being made.

It seems almost impossible that there can be so much fool carelessness as is shown by the fact that 2048 persons were injured in a single year from the causes explained. It certainly is time that, in every household, a fresh determination be reached to keep all medicines and poisons in a closed closet, far away from the reach of children. If this is done in every home there will be no more statistics to show that 892 lives have been sacrificed in this manner in a single year.

Few medicines which will produce the result for which medicine is intended can be taken with impunity, for the drugs from which the medicinal effect is secured are not intended to be taken except in small quantities. The directions for taking should always be given on the bottle.

#### X-RAYS

Naturally that story from Chema-wa is rather "highly colored."

The baseball fans got their money's worth in Chicago yesterday. Besides the game they had sleet, snow, wind and freezing temperatures.

A man named Smith writes from Oklahoma that he is "compiling a little book on the Smith family." He is evidently going to deal with some very small branches of the Smith family, else his little book will swell into a regular Carnegie library.

## Hood's

Sarsaparilla enjoys the distinction of being the greatest curative and preventive medicine the world has ever known. It is an all-round medicine, producing its unequalled effects by purifying, vitalizing and enriching the blood on which the health and strength of every organ, bone and tissue depend. Accept no substitute for Hood's, but insist on having Hood's, AND ONLY HOOD'S.

#### Smiles

This paper has no space for paper railroads.

Marshfield Times: Josephine county ought to look good to people of African descent, when the best watermelons sell for ten cents each.

The biggest and best crop this year is the weather. Oregon has weather to burn.

The Business Men's League has an idea that a first-class, successful young business man, who is full of life and vigor, and discounts his bills, would make an excellent mayor. They even intimate that Geo. F. Rogers or E. T. Barnes would do the office credit, and seem to proceed on the theory that such a man who makes a success of his own affairs would be more apt to inject business principles into city affairs than some unemployed professional ward politician. We fear the young men mentioned would not do. They are at heart in favor of paving, and paving is about twenty years ahead of some of our people. Let us have a young man for mayor who will veto wild-catting propositions, and who will help stop all wild schemes to lay cement sidewalks somewhere near to the grade lines.

"Pap" Walker, the old hayseed leader of the Citizens' council, would not make a bad mayor himself, so long as a young man is wanted.

It must be gratifying to a man of T. T. Geer's disposition to be able to have something to say every day.

There is much fun in the way the Statesman this morning plays up Senator Tom Kay for president of the senate. Editor Davey copies a piece from T. T. Geer's paper, which is to the effect that Tom Kay IS NOT A CANDIDATE for the presidency of the senate, and heads it "IS TO BE A CANDIDATE." A second headline is also funny: "SENATOR KAY IS SEEN A LITTLE MORE ACCURATELY." Now, all know that, being a candidate for speaker, Editor Davey meant his first headline to read "IS NOT TO BE A CANDIDATE," as Senator Kay and Representative Davey cannot both well get there from the same county. There is a touch of fun in these two editors holding Tom Kay up as shining in the oratorical field, when he does not pose as being able to compete with such walking phonographs as Davey and Geer in their own peculiar talents. But away back Kay is of Hibernian descent, and can hold his own even with so valuable a man as Davey in a talking match. But Kay is a solid business man, and knows better than to jump into the ring as a candidate so early in the game. The fact is Kay would make a fine president of the senate, and may become a candidate. If the program was to do something to put the Republican party on its feet in Oregon, the party might do worse than have Tom Kay for president of the senate.

What did we tell you? Taft has the revolutionists eating out of his hand. Weight for age isn't always a handicap.

#### Danger from the Plague.

There's grave danger from the plague of Coughs and Colds that are so prevalent, unless you take Dr. King's New Discovery for Consumption, Coughs and Colds. Mrs. Wallis of Forest City writes: "It's a God-send to people living in climates where coughs and colds prevail. I fine it quickly ends them. It prevents pneumonia, cures lagrippe, gives wonderful relief in asthma and hay fever, and makes weak lungs strong enough to ward off consumption, coughs and colds. 50c and \$1.00. Guaranteed by J. C. Perry's drug store. Trial bottle free.

# No Operation

Mrs. Malinda Akers, of Basham, Va., writes: "I had what doctors call 'prolapse,' and couldn't stand straight. I had pain in my back and shoulders, and was very irregular and profuse. Doctors said an operation was needed, but I couldn't bear the thought of the knife. After taking three bottles of Wine of Cardui, I could walk around. Can now do my housework and am in splendid health."

Cardui is a pure, vegetable, medicinal essence, especially adapted to cure women's diseases. It relieves excessive periodical pains, regulates irregularities, and is a safe, pleasant and reliable remedy for all sick women. In successful use for over 70 years. Try it.

At Every Drug Store in \$1.00 Bottles.

## WINE OF CARDUI

#### FREE ADVICE

Write us a letter describing all your symptoms, and we will send you Free Advice, in plain sealed envelope. Address: Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn.

#### Gone to Irrigation Meeting.

State Engineer Lewis left last night for Hood River to attend the irrigation meeting to be held at that place October 11.

#### WANTED

Second-hand buggies, wagons and carriages; pay cash for same. We also have room to store about 100 buggies for the winter.

### Pohle & Bishop

Corner of Liberty and Ferry streets, Salem, Or. 10-3-1m

#### Notice to Land Owners.

Sealed proposals for the sale of land to the State of Oregon for a site for a School for Feeble Minded and Epileptic Children will be received from owners by the State Board of Public Building Commissioners of the State of Oregon, until 1 o'clock p. m., October 22, 1906. The land wanted must be within ten miles of the City of Salem, in a healthy locality, have a good water supply and good drainage, and convenient to transportation facilities. It must be in a body and contain from 800 to 1000 acres, one-half of which should be under cultivation. The soil should be variable, and suited to gardening, dairying and farming. Persons not owning the acreage wanted may submit bids jointly with adjoining owners.

Bids must be enclosed in sealed envelopes directed to the Board, care of the Secretary of State, Salem, Oregon, and plainly marked "Proposals for the Sale of Lands."

Bids must be on blank forms which will be furnished, together with any other information that may be desired, upon application to the Secretary of State.

The State of Oregon to have an option for four months to purchase, and the right to reject any and all bids.

GEO. E. CHAMBERLAIN, Governor.

F. I. DUNBAR, Secretary of State.

CHAS. S. MOORE, State Treasurer.

State Board of Public Building Commissioners. wed-sat
