MR. DAVEY'S FINE HAND.

It is absolutely impossible for the Capital Journal to be fair and manly in a discussion or to state a question honestly when its purpose can be served by misrepresentation. If the Journal thinks it can hoodwink its constituency and can take pleasure in the fact, it is welcome to the consolation. It might not be so pleasing to the editor of the Journal if we should adopt the personal style which he is assuming and wade into this discussion along that line. It is not our desire to do so, but we are not averse to a free lance play if pushed to it.—Statesman.

The above from the pen of the sweet-scented editor of the Statesman, Mr. Davey, is a fair sample of what a man will do when he is trying to covertly direct and steer the political destinies of the community which tolerates him. He is busy every day bringing out new candidates for city offices, anonymously and other wise, and recently when this paper said in plain uncompromising terms that the Republican machine was busy scheming and setting up matters to defeat the real interests of the people, this manipulator immediately accuses the Journal of announcing that itself and friends were busy selecting candidates. Perhaps he thinks people will believe his statement, but anyone who reads his paper can't help but see and read every day that Editor Davey is doing his best to help his friends and punish his enemies by putting them up or down in the political column as suits his purpose. He has brought out more candidates for mayor and aldermen than this community will need for a generation, and takes pains to mention people for places that are wholly unavailable except such as are part of his political push. He even tries to make capital by naming the editors of the Journal as candidates for aldermen in their respective wards.

Recently this paper made an effort to encourage Governor Chamberlain to extend the Reform School road to Turner, when he immediately shouted that this paper was knocking the true interests of Marion county, probably because Governor Chamberlain is a Democrat. In the meantime the county court has fallen in with the plan and the convict-built road will be extended as proposed.

A Tired Stomach
Does not get much good for you out of what you eat, for it does not digest much—it is wasteful. It feels sore and lame and is easily distressed and often upset by food. The best treatment is a course of **Hood's Sarsaparilla** which is positively unequalled for all stomach troubles.

For testimonials of remarkable cures send for Book on Dyspepsia, No. 5, C. I. Hood Co., Lowell, Mass.

to Turner and beyond, and this notwithstanding Davey's bitter opposition. Next he roasts this paper because it upholds Senator Hedges for returning a railroad pass, and calls it all demagogery. Now he insists that the Journal is too personal, and threatens in the above item that he will become personal too, if he is driven to it. He is a candidate for speaker of the house, and this paper wishes him well in his ambition, but if he fails to be any more fair and upright in his campaign than he is in some of the smaller home matters he must not be surprised if he fails to reach the high goal.

SEND THE CHILDREN TO SCHOOL.

Let all teachers and parents unite in the effort to have as many children in school as possible.

The public and private schools of this city are **THE BEST IN THE STATE** and should have a large attendance.

The young people who attend the Salem high school are a very bright lot of boys and girls, and are growing brighter.

What a Godsend to send a boy or girl in the formative period of their lives to receive education under such **FAVORABLE CONDITIONS.**

Look around your neighborhood and see what boys and girls are not going to school, and kindly inquire into the facts.

The demands of competition in business and capitalism in manufactures are forcing more and more children into the laboring class.

There are, at a low estimate, 200 boys and girls, **WHO SHOULD BE IN SCHOOL**, employed as wage earners in this city. In the country it is just as bad.

Let all true friends of humanity unite to give the children education.

PRINCIPLES TO CONTENT FOR.

The people are interested in two principles in the management of the public schools:

1. Teachers and employes shall not be made **MADE POLITICAL TRADING STOCK** of by any director.

2. Contracts and the use of money that is needed to run the schools **SHOULD NOT GO BY FAVOR.**

Those who would use the schools for these purposes are enemies of good government.

Men who will not serve on the school board, unless they can reward favorites, have no business there.

There are a few institutions that should be free from **THE BLIGHT OF PALTRY GRAFTING** enterprises.

The public schools are one of them, and the people, without regard to party, should demand clean methods.

THE MALCOLM APPOINTMENT.

P. S. Malcolm is to be collector of customs at Portland. The Portland Republican organ representing the administration says so.

Prominent men **WHO HAD WELL ESTABLISHED CLAIMS** on the party were set aside for a man who has almost no record as a party worker.

There is nothing personal in this criticism. Aside from L. L. Patterson, there are no federal officials who concern themselves about Republicanism.

Some of these federal officials have even fought part of the state ticket and **HELPED DEFRAY JAS. WITHEYCOMBE FOR GOVERNOR.**

The party is to be represented by emasculated partisanship.

Fulton is alone in the appointing power. And Malcolm or nobody was the terms he had to face. Republicanism in Oregon is a **ONE-MAN PROPOSITION** at present with the people determined to turn down that one man whenever it appears that he wants a candidate to win.

FINISH SOUTH COMMERCIAL STREET.

The contractors are under agreement to put a heavy roller on that South Commercial street improvement for ten days.

Now that the rains have come that work should be completed **ACCORDING TO CONTRACT**, and the street put in the best possible shape.

The property owners can do a great deal to improve the street by keeping it clean, and looking after it a little more where it wears.

That street will have the heaviest traffic of any street in the city, and is well-constructed of good material.

Smiles

The Williamson-Gesner-Blegs case is being argued before the circuit court of appeals at San Francisco.

Judge Hamilton is revoking saloon licenses in Douglas county.

The State University has registered 52 seniors this year. Largest class in its history.

Umqua Valley News: The Woodburn Independent very properly offers some advice to those Southern Oregon newspaper critics who presume to offer advice regarding how the Willamette Valley Development League should conduct its affairs, and Editor Gilstrap thus sizes up the situation: "If Southern Oregon wishes to organize a development league of its own it can more successfully do so by not adversely criticizing other development leagues. The enthusiasm of Southern Oregon people can be better aroused by pointing to the success attained by other leagues."

Push the Mehama-Salem electric road.

Out of the four proposed railroads into Tillamook, which will reach the county first? asks the Tillamook Headlight. Some say Hammond, others say Lytle, some have confidence in the electric line from Forest Grove, while the backers on the coast road have lost their wind.

When The Journal objects to having men run the city affairs who cannot run their own affairs, Mr. Davey gets up and howls. Yet Lon Gesner is in Eastern Oregon surveying.

There is nothing rank enough for one of the gang to perpetrate to merit one word of condemnation from Frank Davey. Such is "manhood."

Some of the papers seemed bound to make Col. Hofer a candidate for collector of customs, but he wasn't so far as he knew, though he certainly had as much right to be as some other people.—Albany Democrat.

The Journal editor couldn't get Scott's endorsement. He did not support the right man for senator when it came to the final contest between Fulton and Scott.

X-RAYS

The dispatches say the Cubans turned out at Havana and gave Taft and Bacon "A hearty farewell." Now what do you think of that?

The girl students at Ann Arbor, Mich., according to a recent dispatch, are inexpressibly shocked at the photo of Henry Schulte posing in the nude as "Sisphus." The horse editor fails to see the difference between the photo of a nude man, and the photo of a statue of a nude man.

Attorney Heney scores the San Francisco judges. Let us see wasn't it Heney who made statements about political bribery and how he had knowledge that would imprison everybody in San Francisco, who didn't agree with him, and who when he was invited before the grand jury "took it all back."

Salem has a fellow feeling for Klamath Falls. That enterprising little city has been advertised as having an epidemic of typhoid fever—and there is nothing in it. Three years ago the Oregonian devoted considerable space and much of the genius of its cartoonists to advertise Salem as the home of the typhoid germ, when it was all Oregonian gas.

The horse editor has never surrounded a China pheasant and knows not the flavor thereof. Innate modesty prevents his suggesting that some hunter with more birds and heart than the average leave a bird at this office with the horse editors name thereon. No, pride steps in and says he will go pheasantless forever, rather than do such a thing.

The court docket at Roseburg shows Iva Fiddler has brought suit for divorce against Joseph Fiddler. Probably they could not agree as to which should play second fiddle.

Here is a newspaper squib perpetrated some years ago by one whose name is not yet on the roll of fame. The writer was singing the praises of a young lady named Annie Bread, and he warbled thus:
"Let silly beles their graces spread,
And fops around them flutter,
I'll be content with Annie Bread,
And won't have any but her."

Clarence C. Eaton to Lecture at Salem.

The annual complimentary lecture on "Christian Science," to be given under the auspices of the Christian Scientists of this city next Thursday evening by Clarence C. Eaton, C. S. B., member of the board of lecturership of the First Christian Church of Christ, Scientist, of Boston, will be another opportunity for those interested to gain authentic information upon this subject.

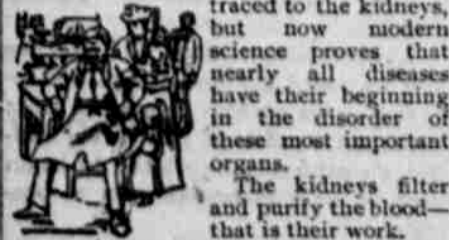

The lecture will be given in the Grand Opera House Friday evening, October 19th, at 8 o'clock. It will be free, and everybody is welcome.

Fish Running Fine.

Mr. and Mrs. W. C. Tweedale Saturday returned from Newport, where they spent nine weeks this year at their cottage. They caught a salmon apiece. Mr. Tweedale reported the salmon running in fine shape yesterday, the bay being full of them. Owen Graves yesterday in two hours caught 23, by trolling, and others had big catches.—Albany Democrat.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle

Home of Swamp-Root, by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

56,400 Meals Did Him No Good

How One Man Wasted Fifty Years of His Life—Thousands Like Him.

"What's the use of eatin', anyhow?" said the scrawny dyspeptic to his rotund, prosperous-looking friend. "Here I've been eatin' three times a day, and sometimes twice a day, for 60 years and look at me. I'm rawboned and skinny, still at the bottom of the ladder, sour on the world, and a pessimist. I know it, and I can't help it. If I had it to do over again, though, I would take care of my stomach, for I don't believe I ever really relished a meal in my life, not even mother's Christmas dinners, and I firmly believe that my way of eating or whatever it was, brought along with it darkness and impossibility of success."

"You're right," nodded his companion. "Of course, that isn't always the case. But in this age we must not only 'Trust in the Lord and keep our powder dry,' but we must swallow sunshine with our food. Cheerfulness, especially while eating, which is the most essential act of man, is as necessary to him as sunshine is to the flowers. Nothing normal can be produced in darkness."

"But this is what you haven't been doing, Mr. Dyspeptic. Your brain and your stomach, remember, are twins, and you have to treat them accordingly. Why not start now and repair the damage you've done it is never too late, you know?"

You mean at my age? And suppose you can't always get the sunshine?"

"Absolutely, yes. Science has made it possible to get the sunshine, the health and the strength that your stomach needs, all put up together in little tablets. They call them Stuart's Dyspepsia Tablets, the most effective tablets in the world for this very thing. One ingredient in these tablets digests 3000 grains of food without the help of the stomach. Two tablets after each meal can do more work, in digesting than the stomach can itself. The stomach need not work at all. Stuart's Dyspepsia Tablets does all the work, and gives your jaded stomach a rest, the rest it needs. Meanwhile you cure yourself of brash, irritation, burning sensation, heartburn, sour stomach, acidity, fermentation, bloating and the worst cases of dyspepsia and indigestion. You get rid of these for all time. An then, besides, you can eat all you want, and you will also relish mother's Christmas dinners if you will take Stuart's Dyspepsia Tablets after eating. That's the sunshine I was talking about. Then your face will reflect the internal change going on, you'll be more energetic, your mind will be clearer, you'll be happier, and you'll be yourself again."

"Your heart will change and you'll feel rosy. You'll enjoy your meals—and live. Let's walk down to a drug store and let me introduce you to one little package of these Stuart's Dyspepsia Tablets. You can get them at any drug store in the world for only 50c a package. It is worth it, Mr. Dyspeptic."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in its stages, and that is Catarrh. Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Saved His Life.

J. W. Davenport, Wingo, Ky writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two 50 cent bottles cured me sound and well."

It is a wonderful medicine and recommend it to suffering humanity. Sold by D. J. Fry's drug store.

Workingmen and Their Friends Should Remember

If you would help the laboring men and women of America to own their homes, to abolish child-labor and the sweat-shop, to educate their children and to have the common necessities of life, to raise the man who works above the level of slaves, remember, when buying literature that the following publications are the output of non-union labor, and should not be found in the home of a laboring man:

Woman's Home Companion
Saturday Evening Post
Farm and Fireside
Delicater
All Butterick's Publications
Butterick Patterns
McClure's Magazines
Ladies' Home Journal

The Century Bookman
Smart Set
St. Nicholas
World's Work
Black Cat
Housekeeper
Lippincott's

Take This List With You When Buying
