

THROUGH CENTRAL OREGON

Frank F. Toevs Visits the Buuch Grass Country Across the Range

Frank F. Toevs, formerly city editor of The Journal, and for the past few years in a similar position on the Albany Herald, is in Salem for a short business stay. He has quit the newspaper business and is now on the road for the Hazelwood Cream Co., of Portland, selling the products of that company's creamery and cheese factories. He returned Monday from a 30 days' trip through central Oregon and along the Columbia river, after a successful business tour of that section of the state.

"In some portions of Eastern Oregon—in the wheat sections—things are in a bad way," he said this morning, in speaking of his trip. "Notably in Sherman county and in some of the sections on the Heppner branch where the people depend entirely on the wheat crop, times are not as good as in former years, owing to the partial failure of the crops. In some of the Sherman county towns, business men take a gloomy view of the future, for many of the farmers did not produce sufficient grain to enable them to make their annual settlements, and in consequence times are hard. At Grass Valley and in some of the towns near there, many of the grain farmers are selling their horses in order to carry them through, expecting to be able to secure teams in the spring to enable them to harvest their crops next year, and as a result, carload after carload of fine farm teams are taken out of that section by contractors for railroad work in other sections of the state. Three carloads of good draft horses left Grass Valley the day I was there for the new Tillamook railroad and for the work on the Drain line.

"In other sections of central Oregon—in the Prineville country, around Fossil, at Heppner and other places where the stock interests are large, times are good, and business is booming. Prineville is a good town, new business blocks are in course of construction and the city wears an air of prosperity that is gratifying. Condon is building up nicely. A two story brick bank building is nearing completion, and a two story cement building has just been erected for the new National bank.

"At Condon I met several old Salem boys. Jay Bowerman is practicing law and is getting rich. T. E. Parker, formerly in the attorney general's office, has a fine law practice. Ellis Pervine is bookkeeper and chief factotum with a large grain firm.

"At Ione I met Dr. Walter Bruce, a Salem boy, who has worked up a fine medical practice and is prosperous. At Arlington John Chase is managing the largest general store in the place for Lord & Co., of The Dalles. Two former Philomath men, Henkle & Castle, are running the largest store at Irrigon, and Henry Workman, formerly farmer at the insane asylum farm here, is in business at Goldendale, Wash., and is making money so fast he can scarcely take care of it. Here I also met Editor Will Byars, son of General Byars, of this city. Mr. Byars publishes the Goldendale Sentinel and is doing well. He is one of the prominent men of the town and his paper exerts a wide influence.

Salem State Bank

L. K. PAGE, President
E. W. HAZARD, Cashier

"In The Dalles I met several Salem men. Archie E. Crosby has the leading drug store and is doing well, and Prof. Amos Long is in the United States land office.

"I visited several towns along the North Bank railroad along the Columbia. The work on the road is being pushed with vigor, and it will be one of the best constructed roads in the northwest. The road, according to the contractors' statements, will be completed in time to handle the 1907 crops. New towns are springing up all along the line of the new road, and things there are booming."

Mr. Toevs will be in Salem for a couple of days this week, renewing acquaintances with oldtime friends. He has a warm spot in his heart for Salem where his most active years were spent in the newspaper field.

The Cause of Many

Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney trouble. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

56,400 Meals Did Him No Good

How One Man Wasted Fifty Years of His Life—Thousands Like Him.

"What's the use of eatin', anyhow?" said the scrawny dyspeptic to his rotund, prosperous-looking friend. "Here I've been eatin' three times a day, and sometimes twice a day, for 50 years and look at me. I'm rawboned and skinny, still at the bottom of the ladder, sour on the world, and a pessimist. I know it, and I can't help it. If I had it to do over again, though, I would take care of my stomach, for I don't believe I ever really relished a meal in my life, not even mother's Christmas dinners, and I firmly believe that my way of eating or whatever it was, brought along with it darkness and impossibility of success."

"You're right," nodded his companion. "Of course, that isn't always the case. But in this age we must not only 'Trust in the Lord and keep our powder dry,' but we must swallow sunshine with our food. Cheerfulness, especially while eating, which is the most essential act of man, is as necessary to him as sunshine is to the flowers. Nothing normal can be produced in darkness."

"But this is what you haven't been doing, Mr. Dyspeptic. Your brain and your stomach, remember, are twins, and you have to treat them accordingly. Why not start now and repair the damage you've done it is never too late, you know."

You mean at my age? And suppose you can't always get the sunshine?"

"Absolutely, yes. Science has made it possible to get the sunshine, the health and the strength that your stomach needs, all put up together in little tablets. They call them Stuart's Dyspepsia Tablets, the most effective tablets in the world for this very thing. One ingredient in these tablets digests 3000 grains of food without the help of the stomach. Two tablets after each meal can do more work, in digesting than the stomach can itself. The stomach need not work at all. Stuart's Dyspepsia Tablets does all the work, and gives your jaded stomach a rest, the rest it needs. Meanwhile you cure yourself of brash, irritation, burning sensation, heartburn, sour stomach, acidity, fermentation, bloating and the worst cases of dyspepsia and indigestion. You get rid of these for all time. An then, besides, you can eat all you want, and you will also relish mother's Christmas dinners if you will take Stuart's Dyspepsia Tablets after eating. That's the sunshine I was talking about. Then your face will reflect the internal change going on, you'll be more energetic, your mind will be clearer, you'll be happier, and you'll be yourself again."

"Your heart will change and you'll feel rosy. You'll enjoy your meals—and live. Let's walk down to a drug store and let me introduce you to one little package of these Stuart's Dyspepsia Tablets. You can get them at any drug store in the world for only 50c a package. It is worth it. Mr. Dyspeptic."

Women's Pains

"I was a total wreck," writes Mrs. Beulah Rowley, of Champoege, Oregon, "from pains I had suffered, for 4 years, every month. Sometimes I would be unconscious for 12 hours at a stretch. It does this by regulating the functions and toning up all the internal female organs to health. It is a pure, specific, reliable, female remedy, with a record of 70 years of success. It has benefited a million others. Why not you? Try it.
