TWO NEW CARRIERS FOR SALEM

Postoffice Department Gives Squire Farrar Two Men, a Horse and a Wheel

Postmaster Farrar received a letter from the postoffice department today, authorizing him to employ two additional letter carriers from November 1st. They are to redistrict the city, relieve the present force and extend the service to new territory, where the law has been complied with. One of these carriers is to be mounted, and is to work in the suburbs, and also help collect mail in the business part of the city.

The department authorizes the expenditure of \$250 per year for a horse and \$100 a year for a bicycle. Mr. Farrar has not selected his appointees yet. L. P. Bennett is the only present substitute, and is in line for promotion. Arthur Welch is at the head of the eligible list. He is already in the government employ, and is the present efficient janitor of the postoffice.

Mr. Farrar may take two men from the eligible list, or he may promote some of the present clerks, and fill their places from the list.

The service will be extended on State street to 25th street; thence to Asylum avenue; west to 17th and north to "B"; thence to 15th.

In North Salem the route will extend on Winter to Hood; west to Broadway; north to Norway and west to the river.

In South Salem the route will follow High to Bush; west to Liberty; south to Lincoln; west to Commercial; north to Meyers; west to Sagnaw; north to Miller and west to the slough.

Mr. Farrar is to be congratulated on securing this concession from the government. Other postmasters have been hammering away at this for years, but nothing has been done. Mr. Farrar has already secured an additional clerk and still needs others.

Kansas City, Mo., Oct. 23.—B. R. He declared the "regulars" had formed a combine to lower prices.

Kansas City, Oct. 23.—F. Shields said his firm was allowed free use of grain tanks by the Milwaukee railroad, but protested that it was of no service to him. He admitted he received notice from the road that the low rate would be abolished, and bought advantageously. He testified that when he learned the rates had been raised he went on the floor of the Chicago exchange and sold 400,000 bushels of wheat to Armour, and an hour later the notice was posted of the raise in rates.
