

"MERODE" (Hand Finished) UNDERWEAR

Dependable Underwear

We have lifted ourselves out of the ordinary class as sellers of women's and children's undergarments. Said a lady patron the other day: "When a woman wants the latest and best in the garment line, she thinks only of your store. She does not consider for a moment the competition howls of 'cheap—cheap' because experience has taught her that on the ordinary and often the undesirable goods, for which she has no use, do these prices exist."

ROOT A SMOOTH TALKER

Washington, Oct. 25.—Aoki, the Japanese ambassador, had a long conference with Root today. Root deprecated the manifestations toward Japanese on the Pacific coast, and said it was the work of agitators, and in no way represents the general feeling of Americans. He explained the exclusion from the schools as the result of unforseen conditions arising on account of the earthquake and fire. Aoki immediately prepared a message to Tokio, giving assurances of the friendly feeling of the government. He said the anti-American feeling in Japan was only among the unthinking. The governments will remain friendly.

Washington, Oct. 25.—It is learned Aoki intimated that Tokio might regard the exclusion of Japanese from the San Francisco schools as a breach of the treaty of 1894, the first article of which provides that the citizens of either country shall be accorded all the privileges of natives of the other country. It is admitted the state department of the government may have difficulty in persuading Tokio there has been no violation of the national obligation, unless San Francisco authorities throw new light on the subject.

WRITES HIMSELF A FOOL

Washington, Oct. 25.—Advertising cannot be exchanged for transportation any more than potatoes for calico, is the opinion expressed by Chairman Knapp of the commerce commission, in a letter to the secretary of the Massachusetts Press Association, who inquired as to the application of the new rate bill to advertising contracts. Knapp writes as follows: "All tariffs filed in compliance with law names the rates in dollars and cents, and in no case provides that transportation can be paid for with property."

Indian Chief's Autobiography. Lawton, Okla., Oct. 25.—The old Indian chief, Geronimo, has written his autobiography, and, in spite of some objection on the part of the war department, President Roosevelt has given permission to publish it. The book, which appeared today, is dedicated to the President, because he is "Chief of a great people."

Smothered in a Mine. New Philadelphia, O., Oct. 25.—Three men failed to return to the surface in the Mullin mine at quitting time last night. After an hour's search was made the bodies were found. They had apparently made a shot, and returned too soon, and were suffocated.

Outbids Uncle Sam. Washington, Oct. 25.—The United States will probably lose its own contract to furnish postage stamps, which it has held for 12 years. The bids of the American Bank Note Co., of New York, are much lower for all stamps. If awarded to the New York concern it means the loss of employment to hundreds in the government service. It is said the private concern can get much cheaper labor than the scale paid by the government.
