THE END OF THE FIGHT

Rochester, N. Y., Oct. 31.—Today is Hearst's last day in the up-state campaign, and it is snowy and cold. The candidate's voice is worn out. He spoke in a number of towns this afternoon, and will speak three times at Buffalo tonight, and return to New York.

Oswego, N. Y., Oct. 31.—Hughes is winding up his campaign, and working gradually toward New York, holding meetings tonight at Syracuse. He claims he is winning back the interest of the factory workmen.

Unions Angered by Move of Saloonmen.
 Walla Walla, Oct. 31.—Open warfare has been declared by the Walla Walla labor unions against the saloonmen of the city over the demands made on Louis Kan, a local cigar manufacturer by F. A. Dryden, president of the Walla Walla Retail Liquor Dealers' Association, and John Kremer, a well-known saloonman, that he discharge his foreman, Fred Peister, who is president of the Walla Walla Trades and Labor Council.

The trades council a week ago endorsed J. J. Schiffler, a union man, for justice of the peace on the Democratic ticket. The saloonmen, who are openly supporting J. J. Huffman, the present incumbent, for the position, went to Kan and insisted that he discharge Peister for the trade council's action, under the penalty of boycotting him. Kan emphatically refused. The union labor men are highly incensed, and it is believed the action of the saloonmen jeopardizes a portion of the Republican ticket.

In Favor of Hearst.
 New York, Oct. 31.—Pat McCarron today received a cablegram from Croker congratulating him on the stand he had taken against Hearst.

Ten-year-old Toto was going to a party for the first time. "Here are two francs, Toto," said his father. "If it rains be sure you take a cab home." When Toto got home he was thoroughly drenched. "Why didn't you take a cab?" exclaimed his father. "I did father," replied Toto, "and I sat on the box all the way home. It was great."—Roa Vlast.

Largest Cannery in the World.
 A transaction of vast importance to the state and of the utmost importance to real estate values in the North Beach district of San Francisco has just been consummated. California Fruit Cannery's Association has purchased a block of land in North Beach, and will erect there the largest fruit cannery in the world.

Although the plans are not complete, it has been decided by the company to improve the property, and erect a four-story building, enforced concrete class A building, cover the entire block.

The output of the cannery will be 800,000 cases of fruit, and it will employ 2500 people. The new line of the belt line will permit the laying of spur tracks into the property, and, with the exceptional water facilities, the plan will be better equipped for handling freight than any other. Extensive pumping apparatus ordered from the East will enable the concern to obtain an abundance of water for fire protection and cleansing purposes.

The price paid for the property has not been disclosed, but it is understood to be in the neighborhood of \$200,000. The contemplated improvements will require an outlay of an equal amount.

The new owners have commenced the demolition of the old buildings, make room for the new structures, which are to be rushed with all possible speed.—Journal of Progress.
