Catarrhal Gastritis

"For two years I was in a very bad condition. I was treated by a number of eminent physicians for chronic catarrhal gastritis and dilatation of the stomach, and obtained no relief. I grew gradually worse, my breathing was so difficult at times that I thought I would die. My heart was in very bad condition from poor circulation and pressure of the dilated stomach. I decided it was only a matter of a very short time with me. I was advised to try Dr. Miles' Nerve and Heart Cure, and before I had finished taking one bottle of the medicine I felt like a new being. I took eight bottles of the medicine, and am entirely cured, for a matter of about \$8.00 in the face of two hundreds spent in the two years before without relief."

A. D. SLACK,
 Master Mechanic of the L & G. N. R. R., San Antonio, Texas.

Dr. Miles' Nerve is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

NEWPORT NEWS AND HAMPTON ROADS

Greatest Ship Building Plant in the Country. To Be Seen by the Young Lady Who Will Be Sent East by the Capital Journal

Newport News has the greatest shipbuilding plant in the country. Here many battleships, cruisers, torpedo boat destroyers and submarines have been built. The yard has the largest dry dock in the new world. A visitor may see ships in all stages of construction. This ship yard has cost about \$15,000,000, and as a permanent exhibit annually draws thousands of visitors. In addition to its monetary cost, it has a patriotic value which cannot be expressed in figures. It was off Newport News that the men from Jamestown sighted Lord Delaware's ships when he came to Virginia in 1610 and saved the colony. Newport News lies just across from the exposition grounds where the James river empties into Hampton Roads.

Hampton.
 Hampton was the Indian village, Kecoughtan, when the English came to America. It is the oldest continuous settlement of Englishmen in the new world and is the repository of many historic treasures. One among many is St. John's church, the oldest in the state. The Pembroke farm nearby is noted for its curious ancient monuments of black marble. Hampton has the first free school established in America, the Symmes-Eaton. This beautiful city is located on Hampton Roads, just across from the exposition grounds.

Commerce and Navigation.
 The commercial features of the Tidewater cities should not be overlooked. We have here a grand jobbing center and wholesale district possessing ramifications which extend throughout the entire south. The chief coaling station of the United States navy is located here. This is the first lumber port of the south, the second coal port of the country, the fourth cotton port and one of the greatest exporting points for miscellaneous commodities. Its merchants are public spirited business men and to their enterprise and tenacity of purpose is due largely the result of bringing about the celebration of an event in which every patriotic American is heartily interested.

This trip on the part of some Marion county young lady will prove an exceptional opportunity to advertise Marion county. At all the large cities like Buffalo, Albany, New York, Washington, Pittsburg, Dayton, Chicago and St. Paul arrangements will be made that the leading papers interview our representative to ascertain the possibilities of our county. Thousands of dollars worth of publicity will be obtained in this matter and every one in Marion county can have a share in this great work by helping out their candidate in the work now under way.
