

Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves will break down and waste away cell by cell. Kidney troubles almost always result in a derangement of the kidneys and are obtained quickest by a proper treatment of the kidneys. If you are feeling that you can make no mistake by getting the Kilmer's Swamp-Root, the kidney, liver and bladder remedy, it will give you the highest for its wonderful effects in the most distressing cases. Swamp-Root is pleasant to take and is sold in all druggists in fifty-cent and dollar size bottles. You may have a bottle of this wonderful new discovery and a book that tells all about it, sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When mentioning reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Smiles

The greatest push in the world is that of a Viennese who has landed in this country and is pushing a cart, carrying his wife and daughter, around the world on a wagon for \$10,000.

By doing just what Harriman is doing, getting control of the stock, the state has got control of all the railroads in that country.

Governor Odell of New York is called the Grocer in that state. He is behind a wholesale house at Newburg that supplies all the state institutions. Such things have never been done in Oregon.

A fashionable church in Baltimore split in pieces because the pastor preached "The Empty Stocking Club" and made off a doll to raise money for Christmas gifts for the poor.

The Mississippi experiment station has purchased the great stallion Ben Holiday for breeding purposes. The breeding of roadsters is a great industry that Oregon should make use of. Yet one can imagine what a roar would go up if the state agricultural college expended a single dollar for such purposes.

Don't kick merely for the sake of kicking.

Are the Japanese Mongolians?

Editor of the San Francisco Chronicle—Sir: The Japanese contention that they are not Mongolians can, technically speaking, be proved correct, since the only people recognized in far eastern parlance as coming under that designation are the Tartar inhabitants of Mongolia, the northwestern province of China. The Chinese proper would also resent being called Mongolians, whom they consider greatly inferior to themselves. In the Mandarin dialect of China Mongolia is called Mung-Ku, and a native of that province is Munk-Ku-ren, or Jen (man), i. e., Mongolian man, while the true Chinese are termed Han-ren, that is, Han men or sons of Han. The Japanese are in the same dialect called Tung-Yang-ren, or men of the east or eastern seas. The writer has never found out how the term Mongolian came to be applied to the whole Chinese nation, and incidentally to the yellow race, but while it would be unintelligible, as so spoken to any Asiatic, if pronounced Mong-go-ren it would be recognized, by the people of north China at least, as meaning a Tartar native of Mongolia. To call a Japanese, or a Chinese from any other than the above mentioned province, a Mongolian would to an Asiatic be as ludicrous as it would seem to us for him to insist that we are Russians. And yet, as an adopted term in our civilization, for a Chinese or Japanese to deny being a Mongolian by race may also be considered as incompatible with fact as for a Frenchman to deny being a Caucasian because he is not able to trace his genealogy to the Caucasus. From an ethnological point of view the Japanese are as much Mongolian as the Chinese, perhaps more so, since in feature as well as in fighting qualities they come closer to the Mongol and Manchu Tartars than do the typical Chinese. The writer, who has spent some fifteen years in the orient, and given considerable study to the subject, would suggest that the majority of the original inhabitants of Japan were Malays, closely related to the Filipinos, Siamese, Burmese, etc., and that upon this stock has been grafted a considerable amount of both Tartar and Chinese blood. W. K. ROBERTS. Sonoma, December 16, 1906.

Remarkable Cure.

"I was much afflicted with sciatica," writes Ed. C. Nud, Iowaville, Sedgwick Co., Kan., "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me. I used three 50c bottles. It is the greatest liniment I ever used; have recommended it to a number of persons; all express themselves as being benefitted by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c, 50c and \$1.00. Sold by D. J. Fry's drug store.

A Woman's Back

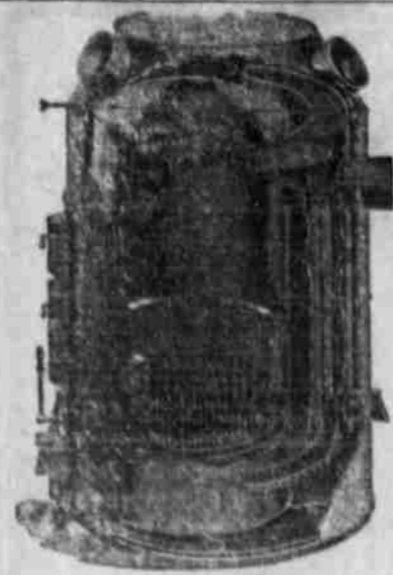

Has many aches and pains caused by weakness and falling, or other displacement, of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness. If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cure. It is the most potent invigorating tonic and strengthening medicine known in medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle-wrappers and attested under oath as correct. Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsement given to any other medicine extant for the cure of woman's ills. You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy or known composition, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for. Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over forty years ago, much imitated but never equaled. Little sugar-coated granules—easy to take as candy.

War Clouds in the East.

London, Dec. 21.—Lloyd's underwriters are insuring against an outbreak of war between Russia and Japan in 1907 at 5 guineas or 5.25 per cent. It is generally recognized that the time for the renewal of hostilities is not yet, but there are clear signs that only for the financial condition of both Russia and Japan hostilities would have been declared long ere this. Russia's naval strength in the east is being strengthened daily and Japan will soon have eight battleships of the Dreadnaught type, while the continued increase of her fighting strength ashore is remarkable. For a time Japan increased her army only by the four divisions raised during the war, but it is now announced that it will be increased by twenty divisions. The cavalry is being increased daily and the most improved machine guns are being attached to every infantry regiment. The railway troops and balloon corps are being greatly increased, as are also the fortress artillery. In the meantime Russia is improving her condition, she has 187 battalions now, while she had only 88 before the last war. Altogether in west Siberia, Trans-Baikalia and the maritime province Russia has nine divisions of rifles and one of foot, with three reserve brigades of foot. The latter are twice as strong as they were before the war. Thus Russia has fifteen field and reserve divisions, not including the force at Harbin, which must be evacuated next April, each of sixteen battalions, totaling 256 battalions, as compared with only 176 mobile battalions at the beginning of 1905. Her cavalry strength is about the same as it was before. Her field artillery has been increased from 16 to 62 batteries, each of 80 horses, forming 90 batteries of nine guns each in war. Mountain batteries have been formed and all ports in the east manned, while communication with European Russia is now shorter and less liable to interruption.

Deafness Cannot Be Cured

By local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation. Cosmetics will ruin the complexion. There's no beauty practice equal to the effects of Hollister's Rocky Mountain Tea. It keeps the entire body in perfect health. Tea or Tablets, 25 cents. For sale at Dr. Stone's store.

The above cut shows our brick-lined Turbid Zone Furnace. Guaranteed gas and dust proof. Economical and durable; for the particular inquirer at
