SALAM, OREGON, SATURDAY, DECEMBER 22, 1906. VOL. XVI. NO. 304.

## TO SELL EVERYTHING BUT HIS SOUL PENDLETON TOUCHED BY OLD-TIME FLOOD

### NEGRO SHOOTS OFFICER

#### Stands By Discharged Troops and Tries to Assassinate the Captain

Washington, Dec. 22.—The war department will investigate the shooting by a masked negro of Captain Macklin at Fort Reno last night. General Macklin, the captain's father, has been notified that the wound is not dangerous. It is said Macklin was the only officer of the dismissed troops who believed the negroes really guilty. It is said the guilty discharged men wished to get him out of the way before the congressional inquiry.

#### Seventeen Orphans.

Breeze, Ill., Dec. 22.—Six were killed in the mine disaster at the Breeze-Trenton Coal company's mine this morning. The cage the men were going to work in ran away and fell 400 feet. All the victims were married, and seventeen children are left fatherless.

#### Survived the Bubble.

El Paso, Texas, Dec. 22.—Master Mechanic Kipp, of the American Smelter and Refining company, and wife were found unconscious this morning in the midst of the wreck of their automobile, beside the railroad.

#### Jordan Water for America.

New York, Dec. 21.—A number of barrels of water from the river in the Holy Land arrived here today on the Campania. The water will be distributed throughout the states for baptismal use in churches. Extraordinary precautions were taken to insure absolute purity and cleanliness by boiling the water before it was put in the casks on the very spot where St. John is said to have baptized Christ. Col. Clifford Naud, who headed the expedition, encountered great difficulty in bringing the water, as there were no casks to be had in Palestine, so he had to have them made in Asia Minor. Then he had to make his own wagons and devise his own methods of purification in the wilderness. The water will be drunk as well as used for baptismal purposes, and if American churches support the enterprise other consignments will be made.

#### Pilgrim Mothers Dine.

New York, Dec. 22.—The annual dinner of the Pilgrim Mothers will be held in the Walford-Astoria tonight. It will be the fiftieth reunion. Addresses will be delivered by Dr. Jennie De la M. Lozier, Mrs. Agnes McClelland Daulton, Miss Mary Garrett Hay and Miss Janet E. Richards. Friends from all over the states have been invited.

#### A Regular Skinner.

Coshocton, Ohio, Dec. 22.—An unknown man having skinned the carcasses of horses is wanted here on a charge of "skinning farmers." State Humane Officer Jackson says the man impersonated him and ordered the farmers to kill old horses. He returned at night and got the hides.

### HICK'S KEEPS NERVE

#### Stays Under Car Just Like He Thought His Wages Were Running

Bakersfield, Cal., Dec. 22.—Shortly after 3 o'clock this morning a telephone message from the Edison mines states there are no hopes of getting the buried miner, Hicks, out until late today. The workers have struck new obstacles which retard their progress. Big boulders are in the way of the tunnel and it is feared will cause a cave-in which would smother Hicks. Rats are reported eating the bodies of the dead miners near Hicks.

#### Bakersfield, Cal., Dec. 22.—

Shortly after noon word was received to the effect that rescuers were working over the car which shut in Hicks. The debris is now cleared away to such an extent that men can see Hicks and he can see them. He now gets light from the shaft, and feels his rescue to all intents, has been accomplished. He is in the best of humor and in good physical condition. The actual removal of Hicks, however, will not take place for several hours. Orders have been issued that Hicks shall not be taken out until the place where he lies can be thoroughly roofed and timbered over so there can be no possibility of a final cave in which would be fatal to him and the rescuers. Night may fall before Hicks is taken to the hospital.

### WANTED TO SELL IT ALL

#### Willing to Trade Anything He Had to Pay His Debts and Get Even

Washington, Dec. 22.—Thomas Morris was arrested in Loeb's office today. He came to Washington to try to sell his body to the government for Dr. Wiley, chief chemist, to use in experimenting on while alive. Wiley refused to list. Then he appealed to Loeb to see the President. The other day he tried to sell his blood, bones and brain to a New York paper. He says he owes \$800 to folks who cannot afford to lose it and must pay his debts.

#### Mines as Coal Users.

Pittsburg, Pa., Dec. 21.—According to the latest reports of the Pennsylvania department of mines, anthracite coal producers of the state are shown to be amongst the largest producers of coal. At some of the mines where a vast quantity of water has to be pumped, 25 per cent of the coal produced is used for steam and heat. Steam with which to operate shaft engines has to be forced through more than 100 miles of steam pipe; and, in order to operate the machinery required in anthracite mining, 460,218 horsepower had to be produced by steam in 1905. For all these purposes the anthracite companies of Pennsylvania used last year 6,359,280 tons of coal and paid coal bills amounting to several hundred thousand dollars.

#### Women to Grade Tobacco.

Hartford, Conn., Dec. 21.—Warehouse owners in this state are now experimenting with women tobacco sorters. Sorters now receive up to \$2.25 a day, as compared with \$1.50 a few years ago, but the advanced price has not served to attract competent help. Women and girls have been employed in the warehouses for several years to size the leaf, but have not hitherto been trusted with the responsibility of grading or sorting the leaf. Warehouse owners are confident that the women will learn as rapidly as men and that their judgment will prove as good. The introduction of women into the business is not for the purpose of cheapening labor but to solve the labor shortage.

### SOUP DROWNED THE FLIES

New York, Dec. 22.—Caught in a tight money squeeze Arnold Leo & Company announced his failure on the stock exchange today. It is an old firm, with branches in Baltimore and Philadelphia. The liabilities are not yet known. It is understood the house is heavily long on Reading carried by the Philadelphia branch. A slump followed the news of the suspension with a semi-panic in stocks of the Northwestern roads. Northern Pacific and Great Northern showed large losses, the former losing over six points. Later slumping off to seven and rallying feebly. St. Paul declined three, and Reading dropped over five. The dealers were surprised because they thought the firm strong financially.

#### Annual Meeting of Scientists.

Columbia University, Dec. 22.—Five hundred of the leading scientists of America will assemble here from December 27 to January 2 under the auspices of the American Association for the Advancement of Science. A large number of societies dealing with special scientific subjects are sending representatives and the meeting promises to be the most important of its kind ever held.

### DAMP YET STILL HAPPY

#### Pendleton Does Not Care for a Modern "Tenas" High Water

Pendleton, Dec. 22.—Floods are subsiding and the weather cooler. No damage was done in this city. Several bridges in the county were damaged and tracks washed out. Traffic was interrupted and the city in darkness.

#### Mormons Revere a Prophet.

Salt Lake City, Utah, Dec. 22.—Wherever there are Mormons there will be celebrations tomorrow and the festivities will entirely take the place of the celebration three days hence by Christendom. There will be no trees or gifts but at the exercises in the meeting-houses the children will be told the story of Smith's birth in 1805, in a small farmhouse in Sharon, Windsor county, Vermont, and of his alleged discovery of the sacred plates, his subsequent revelations, his founding of the Mormon religion and his tragic death in Illinois.

### ROBBERS ROBBED ROBBERS

Reno, Dec. 22.—Detectives have so far failed to discover a clue to the robbers who got away with \$30,000 from the Wells-Fargo box. They say, however, they believe the robbers will be captured although the money might not be recovered. It is hinted the city electric light wires were cut by accomplices to enable the thieves to get away in the darkness, also that the box was placed in a handy place by the employes.

### FORGOT FUEL FAMINE

Tonopah, Nev., Dec. 22.—Jack Welch, of San Francisco, has been chosen referee and both Gans and Herman accept.

#### Great New Harbor for Brazil.

Portland, Me., Dec. 22.—A company has been incorporated under the laws of this state with an authorized issue of \$18,000,000 for the purpose of constructing and operating an extensive harbor and docks at Para, at the mouth of the Amazon river, for facilitating the shipment of freight to and from the interior of Brazil. Sir William Van Horne is president of the company, which is composed mostly of New York financiers. The federal government of Brazil has given the company a concession for their operations on the Para river at Para, opposite the island of Marajo. Para is one of the principal commercial centers in north Brazil and has a population of 150,000 persons. The syndicate has been granted the exclusive right to impose port dues on all vessels entering the harbor.

#### Cotton Men's Christmas Tree.

Augusta, Ga., Dec. 22.—Instead of the usual Christmas tree, which was always a source of merriment and enjoyment to the members of the Augusta Cotton Exchange and Board of Trade, there was a sumptuous banquet in the Bon Air hotel last night, when there was a full attendance of members. The banquet marks the closing of the old calendar year in the cotton world in this state and from the trend of the addresses delivered it appears that while receipts and business have not been so great this season as in some years past, still the record was one to be proud of and keep this state well up to the front in the markets of the world.

#### Fifty Years of His Sentence.

Washington, Dec. 22.—Justice and Mrs. Harlan celebrated their golden wedding anniversary this afternoon. Present were three bridesmaids of fifty years ago; the justice's three noted sons, Rev. Dr. Harlan, president of the Lake Forest university; James, a member of the interstate commission, and John M., a Chicago lawyer and Dunne's opponent for mayor of Chicago.

#### Great Distention in Poland.

Warsaw, Dec. 22.—It is now estimated that by the closing down of the factories at Lody 42,000 persons are on the verge of starvation. A large deputation waited on the governor to seek relief and he announced that in a short time the factories would be reopened, but in the meantime provisional relief would be granted.

### Dr. J. F. COOK

MOVED TO 340 LIBERTY STREET,  
WHERE HE WILL MEET ALL OLD  
AND NEW PATIENTS. FOR ANY  
DISEASE CALL ON DR. COOK.  
CONSULTATION FREE.

## CHICAGO STORE PEOPLES BARGAIN HOUSE

SALAM'S FASTEST GROWING STORE.  
**McEVOY BROS.** Corner of Commercial and Court Streets

### HENRY ANKENY DEAD

Portland, Or., Dec. 22.—Henry Ankeny, aged 62, brother of Senator Levi P. Ankeny, of Washington, died this morning of Bright's disease. He came to Oregon in 1850, and for many years was prominent in politics.

How much and how little can be said in a few words. To those who knew Henry Ankeny, the above statement tells it all; to those who knew him not, pages would not suffice. Henry Ankeny was a typical pioneer, a genuine western miner, whose bacon and who money; whose sentiment and whose salt; whose six-shooter and Salaratus soda would come to the front at any time; anywhere; for a friend. In southern Oregon. Oh! what's the use! Henry Ankeny lived in southern Oregon.

### TYPHOID JOLTS SCRANTON

Scranton, Pa., Dec. 22.—Forty-five new cases of typhoid fever have developed in this city in the past 24 hours, making a total of 482 cases for the month. Dr. Wainwright special physician to assist the city declared the water supply is responsible.

#### Oregon Wheat for the Orient.

Portland, Dec. 22.—Wheat and flour are now being largely shipped from here to China and Japan. Orders are being daily received and the new trade promises to assume immense proportions. Owing to the failure of the Black sea crop in southern Russia, grain is also being shipped from here to England. The Iverna left today with 2,500 tons of wheat for Liverpool.

## NOW OR NEVER

WHILE YOU ARE READING THIS AD YOU ARE ALSO WISHING YOU OWNED THAT BEAUTIFUL DIAMOND RING WORTH \$125. BUT IF YOU DON'T HAVE COUPONS YOU CAN'T GET IT. THE RING GOES TO ONE OF MY PATRONS.

### On January 1st.

SO IF YOU HAVEN'T ALREADY PLENTY OF COUPONS, YOU MUST HURRY. WHY DELAY, IF YOUR TEETH NEED ATTENTION? MY PRICES ARE MOST REASONABLE, MY METHODS ARE PAINLESS, MY WORK GUARANTEED, AND I GIVE THE RING TO INDUCE STRANGERS TO GIVE MY WORK A TRIAL. COME EARLY.

**Dr. B. E. Wright, The Painless Dentist**
