

TACKLE LOCKAGE CHARGE AND RAILROADS

Albany Convention Endorses State Ownership at Oregon City

Declares For Reciprocal Demurrage and Abolition of Railroad Land Monopoly

Besides taking steps to form an Open River association creating an executive committee important action was taken at Albany towards free locks and canal at Oregon City, and abolition of the transportation and hand problems.

For an Open River. The following is the full text of the resolutions adopted by the Shippers' and Producers' convention, which were prepared by the committee on resolutions consisting of C. E. Sax, T. E. Campbell, F. J. Miller, Geo. M. Cornwall and J. G. Graham.

Whereas, the operation of the locks at Oregon City by corporate interests imposes a tax of fifty cents per ton on all freight passing that point:

And whereas, the Shippers' and Producers' convention unanimously favor the condemnation and purchase of said locks, either through national or state legislation;

Therefore, be it resolved that we respectfully request the incoming legislature to take such steps as will lead to an early abolition of this unnecessary and unjust tax.

The Car Shortage. Whereas the transportation facilities of the state of Oregon have been proven to be entirely inadequate to handle the commerce of the state, and the railroads have utterly failed to keep pace with the progress of the state, and

Whereas, the lack of transportation facilities has not only retarded the development of the state as a whole, but in many instances has caused irreparable injury to the producers and shippers of the state, and more particularly to those in Western Oregon; be it

Resolved, that the Shippers' and Producers' convention are in favor of the enactment of a law providing for a railroad commission with rate making power, and also providing for demurrage and reciprocal demurrage

Regular Sunday service at 10:30 a. m. in the German Lutheran St. John's church, corner Center and

HE WILL PROTECT TREASURY

Senator Kay Has Only Two Pet Measures to Put Through

"So far as I am concerned," said Senator T. B. Kay, "I will have only two measures to present to the legislature at this session. I had a good many in contemplation and process of formulation, but since I have found that there will be such a multitude of bills of all kinds presented for consideration, the majority of which will call for appropriations, I have come to the conclusion to leave the matter of bill drafting and presentation to the other members of the legislature, and devote my best efforts to keeping down the appropriations within the means of the commonwealth.

"Bills aggregating a total of over two and a half millions were foisted upon the last legislative assembly. It is safe to estimate that the aggregate amount that will be asked for this session will be four or five million, and it behooves some one to keep the appropriations down to within reason, and, not being handicapped with a number of bills to pilot through the uncertain course of legislation, I feel that I will be in a better position to look after these important things."

One of the bills which he has had prepared pertains to the issuance of notarial commissions. His idea is, as his bill provides, to increase the fee to \$10 for each commission issued, the life of which shall be limited to two years. In inaugurating this system Senator Kay believes that two important points will be gained, one of which is that the number of commissions issued will be cut down materially and that scores of irresponsible holders of these licenses will be barred out. The other is that it will operate to bring in a handsome revenue to the state, and the entire public will benefit thereby.

Under the present system any one who can secure the recommendations of two bona fide citizens, and can pay the nominal fee of \$2 can take out a commission, which runs for three years. Heretofore, although the applicant was not legally bound to pay this fee, the money was paid to the secretary of state, who kept it, but, under the flat salary law, which went into effect January 1st, all of this money goes into the general fund of the treasury. Many law and business firms took out commissions heretofore, as a matter of convenience and accommodation, but the great majority of these, even if the price is increased to \$5, will disperse with the luxury.

The other bill which Senator Kay has in contemplation is a similar one, in effect, to two separate measures he presented to the last legislature, one of which was defeated by the governor's veto, and the other was put to the test of the courts and held invalid. He proposes to make the officials and employees of the different state institutions and departments subject to garnishment, and will make another heroic effort to succeed. His new bill is being prepared by Attorney-General Crawford, who says it will "hold water" this time.

How to Cure Chills. "To enjoy freedom from chills," writes John Kemp, East Otisfield, Me., "I apply Bucklen's Arnica Salve. Have also used it for salt rheum with excellent results." Guaranteed to cure fever sores, indolent ulcers, piles, burns, wounds, frost bites and skin diseases; 25c at J. C. Peery's drug store

Will Play Corvallis. Co-eds of Old Willamette Will Meet Fair Ladies of O. A. C. Tonight in Basketball Contest.

The ladies' basketball team of the Willamette University left this morning for Corvallis where they will represent their alma mater in a game of basketball against the fair five of the Oregon Agricultural college tonight. Both teams are in good condition and are confident of success and those who are fortunate enough to attend the game will probably not be disappointed in seeing a good contest.

The university here will be represented by Misses Ridell, center; Belknap and Coryell, forwards; Solomon and Magness, guards.

CASTORIA. The Kind You Have Always Bought Bears the Signature of J. C. Peery's drug store; 50c and \$1.00. Trial bottle free.

COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering upon the bottle wrappers and attest its correctness under oath, are daily growing in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the searchlight of investigation turned fully upon his formula, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-on-coughs, which, if neglected or badly treated lead up to and finally terminate in consumption. Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of lay, or non-professional, testimonials. They are not given away to be experimented with but are sold by all dealers in medicines at reasonable prices.
