

IN THE SPORTING WORLD.

There will be plenty of high class wrestling in and about New York city this year. The Metropolitan association will hold its championships some time in March, and in all probability the National Amateur Athletic union championships, open to all registered amateurs of the United States, will be held in Newark.

The famous hackney show mare Hildred, which Eben Jordan has shown at the leading horse shows for the past four years with such notable success has been purchased by E. T. Bedford, of Brooklyn, for his daughter, Miss Emily H. Bedford. The purchase price is stated to be \$25,000.

Eben Byers, of Pittsburg, national amateur golf champion, has sailed for England to play in the British amateur championship tournament at St. Andrews course in Scotland.

London sports are worked up over the coming championship battle between "Gunner" Moir and "Tiger" Smith which is stated to take place before the National Sporting club on February 25.

Peter Maher is the most unlucky fighter in the ring. He knocked out his mother-in-law in one punch and had to go to jail for it.

The international dory race will take place in Nova Scotia on July 15. It will be held under the auspices of the Shelbourne Yacht club of Nova Scotia.

Bill Squires, the champion heavyweight of Australia, has sailed from Melbourne for San Francisco. He has issued a challenge to all American heavyweights.

N. Dymont, a well known Canadian turfman, is dead. He was 74 years old and had amassed millions in the lumber business. As a breeder of thoroughbreds he was known both in the Dominion and the United States. His horses twice won the kings plate. He owned Fort Hunter, Kingley Dale, and other good racers and last year purchased the two-year-old colt Tourene by Odafellow for \$10,000. He kept up his large stable with no object to gain but solely for the sake of sport.

Herreshoff, of Bristol, the builder of the Reliance, Constitution, Columbia and Defender, is building a defender for the Canada cup.

The Harvard and Columbia crews on the Charles river on May 11. Harvard will not row Cornell on Lake Cayuga on Memorial day unless the Cornell authorities give their assurance that no steamers will follow the two crews over the course.

Midshipman Samuel L. Henderson, of Imboden, Ark., has been appointed manager of the naval academy boat crew to succeed Midshipman Claudius R. Hyatt, of Jonesville, Va., who has graduated. C. E. Dreutzer, one of the best oarsmen ever produced at the academy, is now rowing in the crew of the University of Wisconsin.

Witney Langdon, the plunger, has gone to the wall again. During the past season he made \$55,000, but last week met a run of bad luck and dropped it all.

The fourth annual tourney of the Indoor 22-Calibre Rifle league of America will be held next in Rochester, N. Y. The date has not yet been fixed.

Hackenschmidt, the wrestler, has written a book on wrestling which will be published in a few days.

The council of the English Hackney Horse society have offered to the New York horse show society a challenge cup valued at \$500 as a mark of the friendly feeling of the English breeders.

Pedlar Palmer, who was knocked out by McGovern by a punch at Tuckahoe several years ago, wants to meet Battling Nelson in a fifteen round bout at the National Sporting club of London at 132 pounds. Nelson can hardly resist such a chance to pick up a bunch of easy money.

Tom O'Rourke has taken Jack Blackburn, another colored boxer of much skill under his wing. The Tonopah club, of Nevada, has notified O'Rourke that Blackburn can have no match with Honey Melody, Harry Lewis or Jimmy Gardner, providing that one of this trio has been apxided by many of the lightweights in the past. He is willing to fight any man in the world up to 142 pounds, ring-side.

Huga Kelly, a Chicago middle-weight, is out with a challenge to fight limited rounds bouts with Schreck, Tommy Ryan or "Philadelphia" Jack O'Brien.

The smallest dog in the world is in Chicago and is owned by Dr. A. L. De Souchet. It weighs but 11 ounces and can fit into a child's overcoat pocket without crowding. Still it is worth \$100 a pound.

It's the highest standard of quality, it's a natural tonic, cleanses and tones your system, reddens the cheeks, brightens the eyes, gives savor to all you eat; Hollister's Rocky Mountain Tea does. For sale at Dr. Stone's store.

DAVEY'S BIRD COROLS

For the space of about a half hour yesterday afternoon the house devoted its attention to the discussion of the evils and virtues of bird-lore and Speaker Davey took the floor in defense of the feathered songsters and, at one time his eloquence soared so high that it rivaled the ascent of the skylark to a dizzy height during its warblings which he so vividly described, but the real question at issue in the debate was whether these song birds, which the house proposes to have introduced into the state from abroad to the extent of the expenditure of \$2500 are the protectors or destroyers of the luscious fruits of the valley. This, too, in the very face of the passage of a bill giving Mr. Perkins and the other horticulturalists of the Rogue river valley, the right to exterminate certain varieties of warblers which prey upon their products to a damaging degree.

Mr. Perkins then took advantage of the opportunity offered him to explain his position upon the bird question and set himself right before the public upon the impression which seems to have prevailed to the effect that had been branded a merciless of cruel would-be slayer of the feathered fruit devourers. Mr. Perkins said that certain varieties of birds would peck around the most luscious fruit upon the trees indiscriminately and would inflict serious damage on the fruit grower and that, as a matter of self protection against this annual loss, the farmers should be given the right to shoot them. He represented that over \$10,000 damage had been done the Spitzsburg crop of the Hood River valley last year and that the robins and sap-suckers had practically put the cherry growers of the Rogue River valley out of business.

To show that he was consistent in his contentions, however, Mr. Perkins said he was willing to give all of the birds enumerated in the bill, including nightingales, skylarks, linnets, etc., a fair trial and voted for the bill but he wanted to reserve the right unto himself and fellow growers to protect their interests from damage from the birds. Mr. Davey gave a very vivid description of the delightful warblings of the birds of the British isles and exclaimed that their introduction into the Willamette valley was all that was necessary to transform it into all that it now lacked of being a paradise as the Almighty certainly intended it should be. The bill passed by a large majority.

Neighbors Got Fooled. "I was literally coughing myself to death, and had become too weak to leave my bed; and neighbors predicted that I would never leave it alive; but they got fooled, for thanks be to God, I was induced to try Dr. King's New Discovery. It took just four one dollar bottles to cure the cough and restore me to good sound health," writes Mrs. Eva Uncapher, of Grovertown, Stark County, Ind. This King of cough and cold cures, and healer of throat and lungs, is guaranteed by J. C. Perry, Druggist, 50c and \$1.00. Trial bottle free.

HUMAN NEED OF SABBATH

Sermon on "the Sabbath a Human Necessity" By Rev. Mr. Leiper

"The Sabbath a Human Necessity," was the subject discussed Sunday morning in the pulpit of the Presbyterian church, by Rev. J. H. Leiper, field secretary of the Northwest Sabbath association. He took for his text, "The Sabbath was made for Man," he spoke in his introduction of the Sabbath in exchanging their world business, and by others who are mere sensuous pleasure seekers on that day, he also said that the refuge such people try to make of the act of Christ, and his disciples on their way to the synagogue on a Sabbath morning, not having breakfast, they passed through a grainfield and took of the grain and ate,—is the merest subterfuge, and a perversion of the facts for unholy ends.

He first stated that the Sabbath is a physical necessity in that, without it human life is shortened; men and women become prematurely old. In parts of France where men work seven days in the week, they play completely out before they reach their fiftieth year.

Man mentally needs a weekly Sabbath, the over worked brain frequently lands its owner into the asylum for the insane or brings on prostration often permanently and disability for business and usefulness. The brightest and most inventive people on earth are the Scotch and they are known to be the best and most intelligent Sabbath keepers among the nations of the earth. Morse, a Scotchman, gave the telegraph, Bell, a Scotchman, the telephone; McCormick stole the idea of his reaper while traveling among the farmers of Scotland, in time of harvest. These are a few samples of Sabbath-keeping Scotch braininess.

The Sabbath is indispensable to mankind morally. It is impossible for man to be his best-morally when his body and mind have been wrecked. His soul is as dependent on soul food for its life and power as is the body on that food on which it remains intact.

Man is a religious being, and in the chief element of his being he must have the Sabbath for spiritual enlargement and preparation for an eternal destiny of happiness, but the only religion that affords that preparation is the Christian religion, the soul of which is the undeniable fact of Christ's resurrection from the grave, this occurred on that day of the week which we observe as Sabbath which is its memorial. The two most profound events that have ever transpired on the planet were the death and resurrection of the son of man, of the former the Lord's supper and of the latter the Lord's day are the memorials. Blot out either of these memorials and you enshroud in impenetrable darkness all human hopes of eternal life, and happiness because with them will soon sink into oblivion the mighty facts which they keep in the human mind.

"Socially the Sabbath is a necessity," said the minister, "I was once prevented by the conductor from boarding a railroad coach filled with Italian miners, 'because,' said the conductor, 'your life would not be safe in that coach.'" What made the difference between the occupants of that car, and the ladies and gentlemen in the one? I answer the Christian influence in America, and they include the Sabbath. God sent them to learn the truth. Satan is trying to destroy our Sabbath opportunities so that newcomers may foregoize Christian America.

The state needs the Sabbath. If ever the politics of this country are freed from the power of the saloon and other demoralizing agencies the teachings of Jesus will have it to do. That means the protection of the church and her handmaids while they promulgate Christ's teachings, and that means the protection of the Sabbath against its enemies. These are legion, but among them are the Sunday saloon, and the Sunday theater. The civil government that fails or refuses to do this cuts its own throat and lets out its life blood.

A Valuable Lesson. "Six years ago I learned a valuable lesson," writes John Pleasant, of Magnolia, Ind. "I then began taking Dr. King's New Life Pills, and the longer I take them the better I find them." They please everybody. Guaranteed at J. C. Perry's, druggist 34c

SAYS THIS RELIEVES BACKACHE

A well known authority says that Backache is often Nature's danger signal which notifies the sufferer that the kidneys are sick.

The following simple home-made mixture is said to relieve backache and cleanse and build up the kidneys, if taken before the stage of Bright's disease: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle and take in teaspoonful doses after meals and at bedtime.

A well known local druggist is authority that these ingredients are mainly of vegetable extraction and harmless to use, and can be obtained at small cost from any good prescription pharmacy. Those who think they have kidney trouble or suffer with lame back or weak bladder, should give this prescription a trial, as no harm can possibly follow its use, and it is said to do wonders for some people.

FREEMAN WAS NOT GUILTY

When the resolutions committee of the house presented its report upon the investigation of the Freeman amendment of the land code, which created such a furor in the house last week terminated by the introduction of a resolution by Mr. Freeman to have one of the newspaper reporters excluded from the floor of the house, submitted a typewritten report exonerating Mr. Freeman from all intention to commit wrong in the matter and the report was unanimously adopted by the house. The full text of the report follows:

"In the matter of the introduction of the amendments offered by Mr. Freeman to house bill No. 324, the committee, after having made a careful investigation, finds that the amendment offered by Mr. Freeman was read by the clerk and stated by the chairman in putting it to vote of the house and was exactly the same as appeared in the engrossing committee and that no change whatever had been made in the amendment from the time it left Mr. Freeman's hands at his desk until after the bill had been recalled to the house.

"We further report that after a full and fair investigation we find that Mr. Freeman's actions were honorable and free from any wrongful motive or intent in all matters connected with the said bill and that any statements to the contrary have no basis in fact."

Ballard's Snow Liniment is praised for the good it does. A sure cure for rheumatism and all pains. Wright W. Loving, Grand Junction, Colo., writes: "I used Ballard's Snow Liniment, last winter, for rheumatism and can recommend it as the best Liniment on the market. I thought, at the time I was taken down with this trouble that it would be a week before I could get about, but on applying your Liniment several times during the night, I was about in 48 hours and well in three days."

Those Woolen Blankets

The heavy ones that every woman uses during the cool months for her clothing, are awkward things to handle at home. Why not send them to the laundry when they need washing?

You'll not only save yourself a lot of hard work, but you will have them returned to you in a better condition than if you tried to wash them at home.

We make them cleaner, sweeter, fluffier, and do not shrink them. The truth of the matter is, that any man who will compare a laundry blanket from The Salem Steam Laundry, and a home washed one, could not help but notice the difference. The home washed one will be dingy, streaked, feel sticky, look lumpy and smell badly, while the one sent to the laundry will be perfectly clean, sweet and fluffy. Yours for superior work.
