

TILLMAN AFTER TEDDY

Attempts to Investigate Bidders on Canal

Tillman Makes a Plea for the Successful Man

Washington, March 2.—Tillman presented a resolution calling on the President for all papers and information relative to the proposed construction of the canal by contract and rejection of bids.

Harriman in Washington.

H. Harriman is here today en route for the South. He said: Interstate commerce commission hardly fair. Its members produce better results if they try to co-operate with the interests of the country instead of antagonizing them. But the incentive for a man to be successful is to be on now. There is incentive for a man to be successful. But I'm sure the spirit of the law will prevail in the end. It is more to the purpose than a deal. We may have a "square deal" but unfair play. It seems to be the tendency among all successful people to attack the success-

Harriman visited the senate with his attorney, Col. Millard, escorted them. Harriman studied the diagram and pointed out senators on the diagram a young son, who sat by his side. The President has nominated a chief engineer for the canal, to be a lieutenant-colonel in the regular army. The President today nominated Alfred Markeley and Chas. to be brigadiers-general, active.

SALEM'S FASTEST GROWING STORE. KEVOY BROS. Corner of Commercial and Court Streets

Texas Independence Day.

Austin, Texas, March 2.—Today is the 71st anniversary of the declaration of independence of Texas, which was proclaimed on March 2, 1836. In honor of the day all public offices throughout the state are closed, flags are waving from all public and thousands of private buildings and the citizens of the state are generally observing the day as a holiday. Special celebrations were held in nearly all the public schools this morning and in the afternoon there will be parades and meetings of patriotic parades and meetings of patriotic prominent speakers. A special celebration has been arranged at the state university. Today is also the anniversary of the birth of Sam Houston, the great Texas patriot and special services will be held at his grave at Huntsville by the students of the Sam Houston normal school.

German Meat Famine.

Berlin, March 2.—So great is the meat famine here that its purchase by the poor is impossible, while the middle classes are content with its use once a day. The coarsest beef is selling at 40 cents a pound, and there is scarcely any mutton to be had. The whole populace in cities, with the exception of large landowners are crying for the admission of American meat and at a public meeting of the citizens here last night it was decided to petition the reichstag to remove the embargo on American meat.

Loan to Brazil Refused.

London, Mar. 2.—The Rothschilds and several other banking firms here have refused the request of the Brazilian government to issue a loan of \$25,000,000 to enable the carrying out of the coffee valorization scheme. Bankers here are convinced that the Brazilian plan for keeping coffee up to a fictitious price is doomed to failure. It is understood that the Brazilian public take a similar view, and is rather gratified with the refusal to float the loan.

WRECK HARVEST TODAY

Governor of Massachusetts Orders Conductor Arrested

Waterbury, Conn., March 2.—A special train on the New York & Hartford railroad, bearing the New-Haven Grays home from a banquet in this city, and guests of the company of the same regiment, collided with the regular train in a head-on collision about 12:35 this morning, killing four train men, members of the two engine crews. Charles F. Julian, secretary to the governor, and Captain William Spencer, commanding the troops, and other officers are among the injured.

The conductor has ordered the arrest, according to report, of George Edlon, conductor of the train.

Left Switch Open.

San Bernardino, Cal., March 2.—Conductor McLennon, of the Salt Lake freight, has confessed to the coroner that he left the switch open that caused the wreck yesterday at Colton, in which one was killed and 36 injured.

Riot Follows Strike.

Portsmouth, O., March 2.—Riots are following the importation of men to take the places of striking street railway employees. This resulted in the burning of one of the finest cars and other outrages this morning. The sheriff says he may appeal for troops.

SUBSIDY BILL IS OPPOSED

Washington, March 2.—A filibuster began in the senate this afternoon against consideration of the ship subsidy. The Democrats united to offer repeated motions to postpone consideration to certain hours. The Democrats apparently mean to kill the bill. The subsidy bill was killed in the house yesterday.

Tehuantepec Railroad Important

Vera Cruz, Mar. 2.—The new railroad just opened for traffic across the isthmus of Tehuantepec is expected to prove the great importance to the world's commerce. For the time being the new route will be directly available for the transportation of American traffic only, the first steamship connections being those provided by the American-Hawaiian Steamship company. Under a freight contract, which the steamship company signed in 1906, about 300,000 tons of sugar will be shipped annually from Honolulu via Tehuantepec to New York, Philadelphia and New Orleans. The distance from New York to Honolulu via Tehuantepec is 5699 nautical miles, while the distance via Panama is 6688 miles.

No Gold to Be Imported.

Washington, March 2.—There is good reason for the assertion that this country does not need gold, but that if it did need it it could be got from London. For some time past the gold importing banks and other institutions have refrained from making engagements in the open market in London in deference to the wishes of the governors of the Bank of England. Large exports of wheat, investment buying of our stocks by foreigners and sales of notes abroad by large railroad corporations of the United States have operated in favor of the import of gold to this country. It undoubtedly is in recognition of the financial strength, and the position of the United States that the managers of the Bank of England have maintained the discount rate of the latter at 5 per cent.

Committed to Asylum.

J. G. Evans was this morning, upon petition of Minnie A. Evans, examined by Drs. J. N. Smith and W. B. Morse, and adjudged insane. Evans is a laborer, aged 67, of this city, and the excessive use of alcohol caused his mental derangement.

Billion Dollars in Wages.

Chicago, March 2.—It is shown by statistics compiled by the Railroad General Manager's association that the payrolls of American transportation lines in the current fiscal year will, for the first time in their history, exceed one billion dollars. Last year's payroll, as reported by roads representing 94 per cent of the country's mileage, was \$903,800,000, a gain of \$64,000,000 compared with 1905.

Assuming that the normal increase resulting from expansion and business activity is no more than it was last year, or \$64,000,000 and that the scale advanced, due to increases in wages which have already become effective, will amount to \$40,000,000 more, we will have a total of wages to be paid in 1907 amounting to \$1,007,800,000. Inasmuch as wages average 42 per cent of the expense it is estimated on the basis of a total of one billion's pay of employees, that the railroads will have to earn two and one-half billion dollars to justify the wage increase of this year, or \$200,000,000 more than they did in the fiscal year 1905-06.

ASSAULT INTENT TO KILL

Chicago, March 2.—George U. Fitzgerald, assenting teller of the United States sub-treasury was arrested today, charged by Harry Friend with assault with intent to kill. He assaulted Friend in the federal building, because he asserted Friend had insulted his wife, while seeking news. Friend gave bond. The case will be tried Monday. It was from Fitzgerald's cage that the \$173,000 disappeared. He has been shadowed by detectives, and a number of men will watch him during all the time the investigation progresses.

SAYS WIFE WAS HIS RUIN

Salem Man Commits Suicide at a Hotel Here.

Oregonian, March 2: E. O. Omley, formerly of Salem, committed suicide by drinking carbolic acid in a room in the Rheinphalz Hotel at 5 o'clock yesterday morning, because of domestic trouble, according to a letter written by him, which he said could be published "to show what a woman can do to ruin a man and drive him to death." It was such an unintelligible epistle, however, that Acting Coroner Arthur L. Finley thinks the man must have been insane when writing it.

Acting Coroner Finley took charge of the body and the effects of the suicide, among which were a letter and postal card and a leadpencil scrawl on an envelope.

Omley seemed to have been at least very much agitated when writing the letter, and his words indicate insanity. He mentioned the name of a Charley Fox, who, he said, was responsible with Mrs. Omley for his death, inasmuch as they had committed acts sufficient to drive him frantic, he wrote. He evidently intended the newspapers to publish the letter in full, but it was so vile in places that its contents could not be printed. He made it clear, however, that he killed himself because of his wife's alleged unfaithfulness, and said she would be glad to know he was out of the way.

Steamer Corona Lost.

Eureka, Cal., March 2.—The Corona is still pinned on a rock on the north spit of Humboldt bar. All hopes of saving the Corona have been abandoned. If the present seas continue there is every prospect that she will go to pieces in a few hours. The vessel's condition remains unchanged, except that her bow is a little higher out of the water. All the passengers got ashore, but one Swedish deck hand was lost in a heavy sea.

The sea became perfectly calm this afternoon, and preparations were made for taking off the cargo. The wrecked vessel has not worked any farther up on the rocks, and there now seems hope that she can be taken off and saved, if the bottom is not too badly damaged.

MAKING A NEW ATTACK

On Founder of Christian Science Faith

Sensational Suit Brought by Her Son This Time

Concord, N. H., March 2.—Alleging that Mrs. Mary Baker Glover Eddy has become too feeble in mind and body to attend the management of so vast a property as that now in her hands, her son, George W. Glover, of Deadwood, S. D., on behalf of himself and daughter, Miss Mary Baker Glover, and George W. Baker, of Bangor, nephew and "near friend" of Mrs. Eddy, yesterday filed a bill in equity in the superior court of Merrimac county, demanding a financial accounting of Mrs. Eddy's affairs and those of the First Church of Christ, Scientist, of Boston, "the mother church."

The bill is directed against the trustees of the Christian Science Church in Boston and Calvin A. Frye, Mrs. Eddy's assistant secretary, and Herman S. Herling, first reader of the church in Concord. Besides demanding an accounting of all transactions in connection with Mrs. Eddy's affairs, the bill asks for restitution in case of any wrongdoing appearing; for an injunction during the litigation against interference with her property and business, and for a receiver.

Mrs. Eddy's Attorney Speaks.

Concord, N. H., March 2.—Frank H. Streeter, in person, and as attorney for Mrs. Eddy, said today that the suit filed by her son will be defended on every issue involved. Street-r denies the charges that Mrs. Eddy is mentally irrational or physically enfeebled, and practically helpless. He said the woman was as strong as she ever has been in the past ten years. He refused to say she would appear in court personally. He refused to say who were her financial guides. Alfred Harlow, head of the Christian Science Publication Committee, arrived today.

ROBBERS OPPOSE POLICE

Salt Lake, March 2.—W. H. Parent, one of the gang of bunco men operating here, and implicated in a \$10,000 robbery, today told on the witness stand the story of an alleged arrangement with the police to operate. He declared that he had paid Chief Sheets \$100 a week to operate, and that Attorney Newton, as middle man, had received the money right along. He said that when McWhirter, one of his victims, returned from Los Angeles, after having been swindled out of money in Salt Lake, Captain of Detectives Raleigh rounded up the gang the same night, and told them to get out of town. Chief Sheets, Newton and Raleigh were arrested a week ago charged with conspiracy. A Denver attorney is here watching developments, regarding the Denver police, who are alleged to be implicated.

Three Days in One.

Washington, March 2.—The house today began the longest day of the session. It began work at 11 o'clock this morning, to be extended until Monday at 11 o'clock, to be adjourned permanently at noon Monday. There is still a disagreement over the Denver public buildings proposition.

Eddie Glenz Injured.

Eddie Glenz, a boy residing at the corner of Commercial and Gaines streets, was playing at the broom factory yesterday afternoon, when in some way he got his hand caught in one of the machines, and had it badly mashed. A physician was summoned and the injured member was dressed. The injury, though painful, is not serious, and the unfortunate boy will soon be well again.

GAVE A GREAT RECEPTION

Willamette Girls Entertain in Honor of McMinnville Visiting Students

Last evening the second annual intercollegiate debate between the Willamette girls and McMinnville girls occurred at the W. U. chapel. The room was filled with a large and interested crowd, and who went away well pleased with the discussion.

The question for debate was "Resolved, That municipalities own and operate their own light and water plants and street railways."

The members of the affirmative side were Misses Clara May, Helen Smith and Mabel Glover, of Willamette, and Misses Anna Andrews, Lulu Kuhn and Stella Webster, of McMinnville, who upheld the negative.

The victory was easily won by the local team, the judges being unanimous. The speeches by both showed training and sound argument. Miss Mabel Glover made the rebuttal speech, and her ability as a debater was soon in evidence.

The judges were Prof. Bradley, of the Oregon Agricultural College; District Attorney J. H. McNary, of Salem, and Judge W. T. Slater, also of this city. The chairman was Prof. Broughton, of McMinnville.

A program of several musical numbers was interspersed during the time. Mrs. Elizabeth Will and Mr. Robert Eakin rendered a piano duet most creditably. Mrs. A. Hug also gave a vocal solo in her usual pleasing manner.

At the close of the affair a reception was tendered the visitors at Lausanne Hall, which was a happy close to the evening's entertainment.

The Reception.

After the debating team had vanquished the pretty co-eds of McMinnville in a manner that would have been a credit to a Webster, the Willamette and McMinnville girls, and all who were with them, retreated to the Lausanne Hall, where they were soon joined by the members of Socrates. The hall was soon turned into a fraternal hospital, where the wounds of disappointment and defeat were dispelled like darkness fleeing before sunshine.

The rooms were prettily decorated and pennants and trophies of former battles waved majestically on all sides.

Walter Winslow, in a stirring address, made the visitors feel at home and assured them of Willamette's friendly feeling for McMinnville. The response, by Miss Lola Kuhn, was appropriate, and was delivered in a graceful manner.

Paul Bauer, the well-known baritone, appeared next on the program and soon sang himself into the hearts of his audience, especially some of the visitors. He responded coquettishly with "You're the Only Girl for Me." What might have happened had it not been for the arrival of several telegrams at this time, will probably never be known. The messages read: "McMinnville boys successful in debate at Albany." "Willamette successful at Corvallis, and Pacific loses in debate to McMinnville girls at Forest Grove."

Ten minutes of rejoicing was then spent and everybody was happy. Miss Olive Riddell then gave several readings in a charming manner and Miss Vina Wentz, the sweet singer of Willamette, rendered "Absent," and was compelled to respond to several encores.

Delicious ice cream and cake were served, and each gentleman was provided with suitable company for the supper hour. It was not necessary for those present to say they had a good time. It was evident they couldn't do otherwise.

Chicago Markets.

Chicago, March 2.—Wheat 76% @ 76, corn 47 @ 47 1/2, oats 42 1/2 @ 41 1/2.
