

Loss of Appetite

When the blood needs purifying and enriching, for then the blood gives the digestive organs the vitality necessary for the proper performance of their functions.

Hood's Sarsaparilla is pre-eminently the medicine to take. It makes the blood pure and rich, and strengthens the digestive organs. I was all run down and had no appetite. After taking one bottle of Hood's Sarsaparilla I could eat anything I wished. Mrs. Amanda Fenwick, Ouseo, Conn.

Starts on Round World Trip.

Baltimore, Md., March 13.—Adolphus Wilson, of the Methodist Episcopal Church South, started today on his trip around the world, sailing from San Francisco for China. He will stop a few days in Honolulu. His first work in China will be to represent the Methodist Episcopal Church South at the centenary celebration of the mission of the first protestant missionary into China, at Shanghai, on the 26th. After this he will go to London to attend the first general conference of the Methodist Episcopal Church of Japan, which will be held in May. He will represent his church at this conference, which will be the union of the work of the branches of Methodists in Japan. Wilson and his wife celebrated their golden wedding in Baltimore on the evening of the 4th of March, with a very large company of friends and well-wishers.

Alice Roosevelt Wedding

Something to be recorded in the annals of history. Herbine has been acknowledged the greatest of liver regulators. A positive cure for biliousness, headaches, constipation, Chills and Fever, and all liver complaints. C. Smith, Little Rock, Ark., writes: "Herbine is the greatest liver medicine known. Have used it 10 years. It does the work." Sold by J. J. Fry.

Best Woman of Iowa May go on Stage.

Des Moines, March 13.—Miss Vernie Cash, the winner of a beauty prize given by the Daily News of Des Moines, is considering an offer from "The Man on the Box" to go on the stage. The offer is \$35 a week, and was drawn out by the beauty, which struck the manager very decidedly. She has been offered the part of Mrs. Conway, "Betty's Friend." She was very anxious to learn whether a girl could go on the stage and keep straight.

OREGON'S SENIOR SENATOR

Will Be Given a Cordial Greeting at the Capital City

The Republicans of Salem and Willamette valley cities will honor Senator Fulton on his visit here with a public reception.

An enthusiastic meeting was held last evening at the office of Senator Smith for the purpose of perfecting arrangements for a demonstration Thursday (tomorrow) evening.

Captain Chas. A. Murphy, chairman of the county central committee, presided, and after discussion the following committees were named:

Committee on banquet—Hal D. Patton, F. N. Derby and H. A. Johnson.

Committee on reception—Senators J. N. Smith, T. B. Kay and Mayor Rodgers.

Committee on program—Col. Hoffer, R. J. Hendricks, F. W. Waters.

Committee on entertainment and introduction—H. B. Thielsen, E. M. LaFore, J. J. Murphy, T. B. Jones, J. H. Scott, A. M. La Follett, D. H. Looney, of Jefferson;

Ed. Martin, Turner; J. H. Settlemier and Hurley Moore, Woodburn; M. VanValkenberg, Silverton; W. J. Clarke, Gervais; M. L. Jones, Brooks;

H. A. Snyder, Aurora; W. H. Hobson, Stayton; G. P. Terrell, Mehama; Bruce Cunningham, Liberty; L. M. Gilbert, Rosedale; L. T. Reynolds and E. L. Chalcraft, Chemawa.

Senator Fulton will arrive by the morning train from Portland, and will be driven to the Hotel Williamette. It is expected that the committee on entertainment and introduction will see that the day is made pleasant for him, and that all who desire may be given the opportunity to meet him.

An elaborate banquet in his honor in the evening at the hotel, and for this tickets have been provided at \$1.00 each. These can be had at the office of the Statesman, The Journal, Pattons' book store, Dr. J. N. Smith's office or from H. A. Johnson, Frank Davey, F. N. Derby or County Clerk Allen. There is a general invitation to Republicans of the city and surrounding country to join in this welcome to Senator Fulton, which is informal. Democrats, also, will be welcome. In fact, it is a popular movement to honor and encourage Oregon's senior senator.

At the banquet it is expected Senator Fulton will give an address, and there will probably be a few short responses at the call of the toastmaster by local Republicans. There will also be good music and a pleasant time in general.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle

by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Exhibition of Pictures for Children.
Spencerport, N. Y., March 13.—A very nice exhibition of pictures is being held for the benefit of the Spencerport high school at the Masonic temple. The money will be used for the purchase of pictures for the school here. Reproductions in large carbon photographs, engravings and photo gravures of the old and modern masterpieces in the great galleries of the old world, with some of the best works from private collections are here. Every gallery in the world would have to be visited to see the originals of the pictures shown. The exhibition is well patronized.

Last of Piscataquas Square-Riggers.

Portsmouth, N. H., March 13.—Word has been received in this city that the bark Yosemite, the last American survivor of the once-famous fleet of Piscataquas square riggers, has been sold by San Francisco owners to China interests. She was built in Portsmouth in 1868. Some of the fleet are now in commission under foreign flags, while others are ending their days as coal barges, among them being the City of Montreal, Dashing Wave, and Richard III. This line long held high rank in shipping circles, and has done a large share of the world's work upon the waves.

Albany Skaters in Town.

Thirty or forty Albany young people came down on the 2:28 train for a skating outing on the Salem rink, returning on the 2:23 train. Oley Woodworth acted as chaperone.

'FRISCO BUILDS ANEW

Great Demand for Certain Kinds of Mechanics and Laborers

(Special to the Journal.)

San Francisco, March 8.—The field of activity throughout California has been wide during the month of February, and all industries seem to have taken on greatly increased vitality. The California Promotion Committee, in its investigations of conditions in the state, has found numerous indications of a general broadening of development. This is especially noticeable in the subdivision of large tracts of land which have been heretofore held in single holdings. These lands which are the great grants, are in bodies comprising thousands of acres, and their segregation has worked against the upbuilding of the interior.

So great has become the demand for small farms, however, that the owners are now cutting up the large farms, formerly given over to grain raising and grazing, with the result that all over the state there is an influx of homeseekers who are buying small farms of ten, twenty and forty acres.

This increase in development has had the further effect of stimulating railroad building, especially of electric lines, which are now penetrating the mountain country, opening new countries to development and settlement. There has never been a time before in the history of the state when there has been so great activity in railroad circles.

Seasonal rains have been general and of such quantity as to insure an abundance of all kinds of crops. This is especially true of fruit, and as there has been no adverse circumstances, it is expected that the coming season will note the heaviest fruit crop ever raised in California.

From reports received from all parts of the East, Middle West and Europe, it is believed that the immigration into California during 1907 will exceed that of any previous year, and that fully two hundred thousand settlers will make their homes in the Golden State during the year. From Europe comes the report that there is greater interest in California this year than ever before, and hundreds of families are forming colonies for the purpose of emigrating to this state.

Construction conditions in San Francisco are most satisfactory in every way, and rehabilitation work is progressing more rapidly than even the most sanguine expectations. Real estate values have been maintained in all parts of the city, and in many localities have increased with active demand. Apartment houses, flats, and hotels are being completed in large numbers, and the housing problem is rapidly being solved. Rentals of residence properties is being reduced to normal, and the cost of living is also returning to conditions which obtained previous to the fire.

Building activity during the month of February is shown by the building permits issued, which numbered 659, at a total estimated valuation of \$7,233,010. According to the estimates of contractors and architects this amount does not represent the true figures called for by 15 per cent, as there is always a tendency to underestimate the value of a building. Adding, therefore, 15 per cent of the above amount to the total it would bring the amount called for by the permits to \$8,317,961. Since the fire the total number of permits for building that have been issued is 8,393, with a represented valuation of \$48,854,876. Applying the same rule here it would increase this amount to \$53,883,107.

During the month the customs receipts of San Francisco have shown a marked increase over those of February, 1906. The total for the previous month was \$847,739.94, against a total of \$777,736.85 for the same month a year ago. During the same time this year the postal receipts were \$142,142.

San Francisco's bank clearings for February amounted to \$194,294,368 against \$156,271,911 for the same month of 1906. But at that time the Oakland banks cleared through the San Francisco clearing house, and this year Oakland has its own clearing house. Adding, therefore, the Oakland bank clearings for February to the San Fran-

WOMEN WHO CHARM
Health Is the First Essential Toward Making a Woman Attractive.

MISS HULDA KUGLER MISS ELIZABETH WYNN

There is a beauty and attractiveness in health which is far greater than mere regularity of feature.

A sickly, irritable, and complaining woman always carries a cloud of depression with her; she is not only unhappy herself but is a damper to all joy and happiness when with her family and friends.

It is the bright, healthy, vivacious woman who always charms and carries sunshine wherever she goes.

If a woman finds that her energies are flagging and that everything tires her; if her feminine system fails to perform its allotted duties, there is nervousness, sleeplessness, faintness, backache, headache, bearing-down pains, and irregularities, causing constant misery and melancholia, she should remember that Lydia E. Pinkham's Vegetable Compound made from native roots and herbs will dispel all these troubles. By correcting the cause of the trouble it cures where other treatment may have failed.

Miss Elizabeth Wynn, of No. 205 8th Avenue, New York City, writes:

Dear Mrs. Pinkham:—
"For months I suffered with dreadful headaches, pain in the back and severe hemorrhages. I was weak and out of sorts all the time. Lydia E. Pinkham's Vegetable Compound helped me when all other medicine had failed. It seemed to be just what I needed and quickly restored my health."

cisco clearings, there is a total of \$210,048,012 for the two cities, or an increase of more than fifty million dollars over the same month last year.

Tennessee Wants a Juvenile Law.

Nashville, Tenn., March 13.—A movement is being started to obtain from the legislature a new juvenile law. The ladies who will have charge of the "Boys' Club" are the most earnest advocates, and are pushing it with all their energy, and they will surely get it. The ladies say that the juvenile law that

was passed two years ago was a perfect failure. The ladies will also ask the legislature for an appropriation for a new reformatory school.

A SQUARE DEAL

AND A FAIR TRIAL OF OUR FARM IMPLEMENTS AND MACHINERY OF ALL KINDS. IF YOU ARE NOT SATISFIED WITH A FAIR TRIAL YOU NEED NOT BUY.

THE BICYCLE MAN

**Horseless carriages—
Wireless telegraphy—
Now lardless cookery**

Improvement is the order of the age. There was a time when Lard was considered the only shortening. To-day, the only people who use lard for shortening and frying purposes are those who are not familiar with the virtues of *Cottolene*. It pays to be abreast of the times. *Cottolene* is not only superior to lard from a health standpoint, being a vegetable rather than an animal product, but it will make more palatable food than lard; and it is more economical than lard because, being richer, one-third less is required than of lard or cooking butter.

Lard cooked food is not digestible because lard is a hog-fat product. *Cottolene* makes food more digestible and healthful because it is essentially a product of nature and contains only that which is digestible, healthful, and a real means of sustaining life.

If your grocer is an up-to-date, progressive man, he will have *Cottolene* in stock. More than that, if he has ever used it in his own family, he will recommend it in preference to lard or cooking butter. If he does not do this, it is only because he is unfamiliar with the virtues of *Cottolene*. Prove our claims to your own satisfaction by giving the product a fair test.

Give *Cottolene* a good, fair test, use it according to directions, and note the benefit to your digestion. You'll never go back to Lard.

COTTOLENE was granted a GRAND PRIZE (highest possible award) over all other cooking fats at the recent Louisiana Purchase Exposition, and food cooked with COTTOLENE another GRAND PRIZE.

"Home Helps" a book of 300 choice recipes, edited by Mrs. Rorer, is yours for a 2 cent stamp, if you address The N. K. Fairbank Company, Chicago.

A NEW FEATURE—The patent air-tight top on this pail is for the purpose of keeping COTTOLENE clean, fresh and wholesome; it also prevents it from absorbing all disagreeable odors of the grocery, such as fish, oil, etc.

Nature's Gift from the Sunny South.
