SALEM BOARD OF TRADE

Open Permanent Headquarters in Murphy Block

The Salem Board of Trade, formerly known as the Commercial Club, has about perfected arrangements for a permanent home, with office room, and a grand display of the rich products of this town. The executive committee received a proposition from Mr. Murphy for the vacant room at the rear of the old Murphy block, which is now being remodeled for offices and waiting rooms of the Grand General Electric Company. The room in question has over 40 square feet of floor space, and is well lighted. It will be finished off to suit the needs of the club and rented to them at a low price. This will make a permanent office for the secretary, and provide room enough for the meetings of the club. The walls are to be covered with black cloth, in order to better display the products which will be placed on them. Many exhibits of fruits in jars will be made, and these will be arranged in pyramids and otherwise on the walls. Some attractive showcases will be provided for the exhibition of the most delicate articles, and convenience is to be supplied for the best possible presentation of the board's varied resources. It is hoped that the matter will be

closed up in the near future, and arrangements for opening the same made forthwith.

Cured Lumbago.

A. B. Canman, Chicago, writes Mar. 4, 1903. "Having been troubled with Lumbago, at different times and tried one physician after another, then different ointments and liniments, gave it up altogether. So I tried once more, and got a bottle of Ballard's Snow Liniment, which gave me almost instant relief. I can cheerfully recommend it, and will add my name to your list of sufferers." Sold by D. J. Fry.

TO TAKE A JUNKET.

Business Men Talk of an Excursion to Live Northwest Towns.

A suggestion is being made by some of the wide-awake business men of the city that an excursion be taken by about 100 of our people to towns in the Northwest, with a view to learning how they do things in a public way. The towns of Pendleton, The Dalles, Walla Walla, Spokane, Moscow and other points are suggested, and the proposition is to have an itinerary covering a few days, which will enable our people to see and investigate public works, as well as to have a good visit with friends and among themselves. It is proposed that the Commercial Club take the matter up and push it to a success, and no doubt steps will be taken to do this very soon.

PLAN TO FINANCE NORMAL.

Banks Offer to Advance Money to Regents.

The maintenance of the Monmouth State Normal School has reverted to the shoulders of the board of regents. Under the provision made by them Monday, at their meeting here, a regular statement of the contingent expenses, as well as the payrolls, will be filed with the Secretary of State, as heretofore, and several banks have agreed to advance the money on them, requiring an assignment of the payrolls over to them. The members of the board will individually stand responsible for the payment of the hypothecated securities. This was practically the only course they could follow, as there are no funds available by the state, and Governor Chamberlain could not take any steps towards securing assistance, even if he were so disposed.

COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle wrappers and attest its correctness under oath, are daily growing in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investigation turned fully upon his formula, being confident that the better the composition of these medicines is known, the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-on-coughs, which, if neglected or badly treated lead up to and finally terminate in consumption. Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of lay, or non-professional, testimonials. They are not given away to be experimented with but are sold by all dealers in medicines at reasonable prices.
