

Look up, not down; look out, not in; forward, not back; move ahead

DAILY CAPITAL JOURNAL.

SALEM, OREGON, THURSDAY, MARCH 21, 1907.

NO. 70.

SALEM BOARD OF TRADE

Permanently Headquartered and Assists in Open River Campaign

President Thielsen announced the permanent location of the board of John H. Albert and McCornack, who, with the president, will be members of the new charter commission.

The president announced that the committee had closed arrangements for the lease of a store on the Murphy block at \$40 per month, in which to install a permanent exhibit of Marion county products, and that should be kept open to the public.

The by-laws were changed to give authority to the change in name of the board to the Board of Trade, and the old Commercial Club is no more as a matter of record.

A resolution was adopted asking the Women's Club to inaugurate a "Spring Day," and pledging the cooperation of the Board of Trade.

The Open River Campaign. M. E. Hofer read letters from John Devers, director of the North-western National Rivers and Harbors Congress, and from Hon. J. N. McMillan, of the Portland Chamber of Commerce, asking co-operation in the matter of raising a fund of \$100,000 to assist in defraying the expenses of the national campaign for rivers and harbors.

The assessment for the city was only \$50, and Colonel Devers asked that this sum be sent at once to Director Devers.

He showed that part of the work of the National Congress in the future was to secure the opening of the locks and canal at Oregon City, for which the state had already appropriated \$300,000, and that this could be accomplished inside of two years by active work, backed by the whole state.

The passage of a bill by Senator Fulton and Congressman Hawley, assisted by the rest of the delegation, was a foregone conclusion. As a result of the Oregon delegation attending that congress in December this state had secured all appropriations asked for, and the same result would be accomplished next December.

The appropriation of \$60,000 for the upper Willamette alone would do more for the regulation of rates in Western Oregon than all other influence. The program of the National Rivers and Harbors Congress was to secure at least \$50,000,000 per annum for rivers and harbors, in- to be secured at least \$50,000,000 per annum, the average for the past 20 years.

Mayor Rodgers expressed himself strongly in favor of doing all that was possible to secure open rivers, and thought this city would get back one hundred fold what is spent for any such purpose.

Carload of Horses. Wm. Skipton and Tom Cornelius returned today with a carload of fine young work horses from Mayville country, in Wheeler and Sherman counties. They shipped from Condon Tuesday morning, and unloaded to feed at the Portland stock yards, where they sold three to Bill Fraster. They weigh from 1200 to 1600 pounds, and are for sale at the Skipton barn on South Commercial street.

PRACTICAL PRESIDENT WANTED

Grange Demands a Leader Connected With Agriculture

Portland, March 21.—Pomona Grange, Patrons of Husbandry, entertained by Russellville Grange, went on record unanimously as believing that the man selected as the next president of the Oregon Agricultural college should be a man of national reputation, and specially fitted to head an agricultural school.

Thomas Paulson, member of the state executive committee, submitted the following resolution, which was adopted without extended discussion: "Whereas, There is at present a vacancy in the office of president of the Agricultural College, and

"Whereas, The office will be filled in the near future by the regents of said college, therefore be it Resolved, That we, the members of the Pomona Grange, of Multnomah county, demand that whoever is appointed to this office shall be a man thoroughly competent by actual experience in the work of education as it pertains to agriculture and a man of national reputation, if possible."

Mrs. Clara H. Waldo, member of the board of regents, was present and said that the regents were looking for just such a man and expressed satisfaction with the indorsement. She said that the president of the Oregon Agricultural College had been receiving \$3000 a year, but expressed the opinion that a much larger salary would have to be paid in future for the right man.

Several men were under consideration, she said, one of whom is now being paid \$4500 a year. Mrs. Waldo said that next year 1200 students are expected to attend the school.

It was the opinion of several who spoke on the subject that a suitable president could not be secured for less than \$5000.

Mrs. Waldo introduced resolutions indorsing the action of the State Grange executive committee in proposing the referendum on the compulsory pass law, which failed at the last session of the legislature, and also to repeal the law appropriating \$100,000 to build eight armories in different towns in Oregon.

The American Brewery and Ice Co., of Spokane and Wilbur, Washington; stock \$75,000; incorporates with principal office at Baker City. Lee Investment and Trust Co., Portland; stock \$5000, by M. E. Lee, Geo. C. Johnson, J. H. Middleton.

Rogers, Hart & Gibson Co., Portland; \$4500; insurance brokers. Scio Stock and Agricultural Fair, by A. G. Prill, M. C. Gaines, Lee Bilyeu, J. A. Bilyeu, John Wesley, Carl Middlestadt, A. E. Randall.

GRAND JURY MEETS

A Struggle With Dominant Powers of Graft at Frisco

San Francisco, March 21.—Prepared for almost anything as a result of the graft developments the past three days, San Francisco was compelled to gasp with astonishment when it had laid before it this morning the tabulated dishonesty of its supervisors, as revealed by the indictments reported against Ruef and Theodore Halsey.

It was given added stock when in the list of impeachment of lawmakers was found the name of the president of the board of works, Duffey, who, since he has left the supervisors, has become a public idol, because of the great energy displayed by him in bringing the city out of a state of chaos.

Langdon's statement that men of the highest business and social standing, pillars of the church and of society had been caught in the net and would be prosecuted without mercy, created a sensation almost as great as the announcement of the supervisors' confession.

If all Langdon says is true, and there is every reason to believe it is, in the light of what Langdon and Heney have already done, then a condition in the municipal affairs of San Francisco since Ruef became the dominant power exceeds the rottenness and combined knavery of the Tweed gang, the Chicago "gray wolves" and the gang of looters unearthed and sent to prison by Folk.

Reports that the rescue of Ruef by his friends has more or less color, nevertheless every precaution is exercised by the clerk and deputies. One report had it all well defined that the plan was to forcibly release Ruef from custody.

This reached the ears of Biggy, and the latter immediately issued an order to his deputies to shoot and kill the prisoner if an attempt was made to aid him in escaping. This is emphatically denied. Long before the hour set for reconvening the grand jury, the Native Sons' hall, in which the inquisitorial body meets, was surrounded by a tremendous crowd.

In the crowd were many of the henchmen of Ruef and the administration, and they joined in the general denunciation of the supervisors and the condemnation of the proposition to permit them to continue in office.

Sentiment in this regard is crystallizing in the ranks of the foe as well as friends. Schmitz's absence from home last night caused the circulation of more rumors of his flight, but the mayor was so closely watched that it would have been impossible.

He returned home soon after midnight. Where he had been neither he nor those who shadowed him would divulge. Coincidental with the mayor's long absence came the authoritative announcement that Heney had promised him immunity if he would tell all he knows.

This announcement went so far as to say the proposition had already been laid before the mayor. The jury convened promptly at 10 o'clock for an all-day session. It is not likely that more indictments will be returned until late this afternoon, and possibly not until tomorrow.

STOCKTON BECOMES DRIER

Floods in California Have Done Immense Damage

Stockton, March 21.—The city is dry today, but further floods are feared. A number of reclaimed islands and tracks are submerged. The loss will be heavy. The damage here is about \$200,000. The conditions at Oroville are back to normal.

THAW SANITY TRIAL

It is Going On With Delmas Left Out

New York, March 21.—It is reported that Thaw is preparing a story of the case, as it appeared to him, for submission to Fitzgerald, as showing that he understood all the proceedings, and is able to advise the counsel. The attorneys decided not to allow the statement to leave Thaw's hands.

MILLION DOLLAR FIRE

Many Faithful Flame Fighters Injured by Oil

Philadelphia, March 21.—A million dollars' worth of property of the American refining works at Point Breeze was destroyed by fire this morning, explosions following each other in rapid succession during the conflagration, throwing burning oil over the firemen and employes, and injuring many.

THE OLD TIME CIRCUS IS HERE.

New York, March 21.—This is spring, according to the almanac, nobody has believed it until the circus came, and that happened today when the largest ever, Barnum & Bailey's opened this afternoon at Madison Square Garden. The circus took possession of the huge garden today and after the animals were stored away in the basement the arena was given over to the hundreds of performers.

There are a great many new features, but the old features dear to the heart of the old-time circus goer, are not forgotten or laid aside. This circus will not do much in the big thriller, but has a full program of the best of feats, and elegance of the performers is of a remarkable degree in every act.

The managers believe the public has been satisfied by the extraordinary performances and that a circus along the old lines will now appeal to the public taste, and has kept this thought uppermost in mind in preparing the program for this season. There is not an entire absence of big features but those to be submitted will not be of an unpleasantly gruesome character. The "Dip of Death" will be given, and another thriller will be announced later, but it is promised that it will be along new and original lines, without a suggestion of repulsiveness that has marked thrillers that have gone before.
