## Smiles

The people are breaking all previous records in the amount of taxes they are paying.

The supreme court decides that Eugene remain dry.

Those ordinances of Alderman Gesner to raise \$200 a year city revenue out of telegraph companies and express companies are all right. But why were they not referred to the committee on ways and means, the proper committee to consider all matters for raising revenues. Why were they sent to Mr. Gesner's own committee on bridges? Is he afraid to trust the ways and means committee? Does he contemplate holding up those ordinances? Does he want the corporations' interested to come and see him? The Capital Journal hopes not. Let those ordinances not be held up or mutilated. Let the city have the revenues.

The Grange in demanding the referendum on the biennial quarter of a million appropriation is not attacking the State University. The State University push is attacking the taxpayers, "without specifications."

Eugene has organized a boating club.

Eugene is to have a city milk and meat inspector.

The reforms accomplished by the grafters you can put in your eye, and not obscure your vision a particle.

The people are not all grafters. They are a large bunch. They are the Lord's people, and they support The Capital Journal as the anti-graft paper.

Eugene, with one state institution, will raise a fund of \$10,000 for exploitation purposes this year.

Mayor Rodgers is one man who wastes no time in the city council.

When the referendum is taken to abolish the legislature, we move an amendment that T. T. Geer be included.

Please don't refer to street paving above your breath.

Who can complain of this weather, when it rains nights and Sundays, and allows us farmers to work only on week days.

Yes, we're going to have some paving, if it takes all summer.

Salem has the best telephone system in the state, and the best-natured telephone girls.

We know of no paper in Eastern Oregon that is especially "kicking" over the large appropriations.—T. T. Geer.

Well, the way Eastern Oregon puts up with some newspapers, it can stand almost anything.

Secretary of State Benson has gone to California, and taken the next superintendent of the insane asylum with him.

There is a good deal of talk in Linn county about invoking the referendum upon the appropriation for the University of Oregon. Beyond this, however, the dissatisfaction voiced by the Granges has not extended. It is a movement, if such it can be called, without leadership, and unless this quality is developed it will spend itself in vaporings.—Oregonian.

As usual the Oregonian stands in with the official graft.

It is to be hoped the Salem Woman's Club will not put off "cleaning up" day till May 1st.

### Christian Church Calendars

The souvenir calendars of the First Christian church have been completed and are being distributed among the members of the church and those who aided the work of the Endeavorers who arranged the book. The calendars are printed on excellent paper, and contain the names of all who subscribed toward getting them up. The money thus raised was turned into the building fund of the new church.
