Little Indian Maidens

Take Evening Walk.

Four little moon-faced aboriginal beauties, who are attending the Salem Indian Training School, at Chemawa, took an evening walk, without a chaperone, and without permission, shortly after supper Monday night, causing a wave of excitement to flow over the placid course of Chemawa events. One of the four little girls had been punished by a matron for naughtiness, and the four decided to make a get-away from the institution. When they left the dining hall, instead of going to their dormitory, they walked off down the railroad track. They were overtaken within a half mile and brought back. Their ages range from 8 to 11 years.

Piles Cured Quickly at Home

Without Pain, Cutting or Surgery—Instant Relief.

We Prove It—Sample Package—Free.

Seven people out of ten are said to have piles. Not one man in a million need have them, and we are proving it every day at our own expense. We send a sample package of the wonderful Pyramid Pile Cure to any person, absolutely free.

We don't do this as a matter of amusement or philanthropy, but because it is to our interest to do so. We know that the sufferer from piles, tormented and driven almost crazy by this wretched trouble, will find such immediate relief that he will go at once to his druggist and get well.

We know that we have got the greatest remedy in the world for piles, and we are ready and willing to stand or fall by the verdict of those who make the trial. We have been doing this for some years now, and we never yet have had occasion to regret it.

And the remedy at the drug store is exactly the same as the sample we send out. As, for instance, here is a man who got such immediate relief from the sample that he at once bought a box. Was it just the same? Undoubtedly, since it cured him after all sorts and kinds of things had failed.

Here is a sample of the kind of letters we get every day, and we don't have to ask for them:

"Received your sample of Pile Cure and have given it a fair trial, and it has proved the best I have ever tried and effected a complete cure. I can recommend you highly in this vicinity. Have used your sample and one box and it has been a complete cure. It has been worth \$100 to me.

"Thanking you for the sample and the cure, I will recommend you to everybody. Yours respectfully, Julius Mayer, dealer in feathers, ginseng and hides, Bedford, Ind."

Pyramid Pile Cure is for sale at every druggist's at 50 cents a box, or, if you would like to try a sample first, you will receive one by return mail by sending your name and address to The Pyramid Drug Company, 59 Pyramid Building, Marshall, Mich.

Make Their Own Selections.

The street committee of the Salem city council has adopted a new plan in regard to petitions for street improvements. The situation is such that there are but two companies in Oregon who put down first-class pavements, the bitulithic and the asphalt corporations. If the property owners will investigate and get prices from both and then ask specifically for what they want, great pressure will be taken of the council, and the property owners virtually make their own bargain, the city council only acting as the official agent of the municipality. That will be the rule followed in future permanent improvements ordered.

FEEBLE MINDED INSTITUTE

Sites to Be Gone Over Waldo and West

At a meeting of the Board of Public Building Commissioners yesterday a new turn was given to the question of the site for the institution for the feeble minded, provided for by the last legislature. The governor proposed naming a new commission, that are to go over all the property offered the state, and make selection. He named Hon. Wm. Waldo and Os West, of the State Board of Road Commission. This action was ratified by Treasurer Steel and Acting Secretary of State Benson, and Waldo and West will enter upon their duties at once. Mr. West was seen by a reporter today, and said they would consider all the property the state had secured options upon and would take up the points of greatest importance, sanitary conditions, wood and water supply, and transportation facilities. The former tracts recommended by the old state board would be considered but they were not confined to any piece of property, and would be made in a few weeks to submit their recommendations to the state board to assist in its final determination.
