## HAMMOCK ROLLED A DRUNK

### Picked Man's Pocket of \$28 and Landed in City Jail

Charged with picking the pockets of his drunken friend, Emil Bauer, and extracting \$28, Sol Hammock, a farmer living a few miles below town, was arrested this morning by Marshal Gibson and placed in the city jail. The alleged robbery took place in the alley leading from Ferry to State street, and was witnessed by Ben and Harvey Warrington, two boys, and two more witnesses. Emil Bauer, the victim, is a Swedish laborer, and was in a drunken stupor. Hammock was also under the influence of liquor when he rifled the Swede's pockets.

Bauer had been on a spree and Hammock was running with him, and was thought by the saloon men to be taking care of him. He is said to have taken the Swede's money yesterday, and returned it to him, and it is thought that he may have had some such intention this time. However, when the marshal arrested him he asked the question: "Did you take his money to keep for him?" Hammock denied having a cent of the man's money, and when searched it was discovered that he had a \$20 gold piece, a \$5 gold piece and about \$3 in silver. He could give no satisfactory explanation of what he was doing with the money. Hammock will probably be given preliminary hearing this afternoon.

### "ROSE MAIDEN."

Beautiful Cantata Given Under the Direction of Prof. Heritage With Great Success.

The Salem Choral Club, the choir of the First Methodist church and some of the best vocalists in Salem, gave a very successful rendition last evening at the Methodist church of Dr. Cowen's beautiful cantata, "Rose Maiden." The production was under the direction of Dr. R. A. Heritage and Professor Arthur von Jessen was the pianist. These facts and the additional ones that the soloists were Dr. Heritage, bass; J. Frank Hughes, tenor; Mrs. W. Carlton Smith and Mrs. W. P. Babcock, contraltos, and Mrs. Mearle A. Hug, soprano, will cause all Salem people to know that the production could not have been other than a success.

Miss Bessie Cornelius was booked for the leading alto parts, and those who heard her in rehearsal say that her work in this cantata would have been a revelation to the music lovers of Salem. At the last moment Mrs. Smith and Mrs. Babcock were substituted for these parts, and those who are familiar with their beautiful voices can understand how well they sang their roles.

Mrs. Hug, whose lovely voice has been heard by only a few Salem people, appeared for the first time before the Salem general public. She is a young woman who came down from east of the Cascades in a whirlwind of melody. She is a pupil of the College of Music, and great things are expected of her. Frank Hughes won new laurels and much applause. Mrs. Smith is such a favorite in Salem that it is unnecessary to say anything, except that her voice was at its best. The same may be said of Mrs. Babcock, and the only disappointing thing about her singing was there was not enough of it.

The production owes much of its success to the splendid piano playing of Mr. von Jessen, and it may be said the work of the director was almost perfect. This cantata is very beautiful, and has never been sung in Salem before.

### New Lands Offered.

At the meeting of the Capital Building Commission this week it is understood the selection of a site for the feeble minded institution was reopened for the purpose of allowing E. M. Croisan to offer the Croisan lands, south of the city on the river bottom. Mr. Croisan was present, and, on invitation of State Treasurer Steele, made a statement of the property he wished to sell the state. It was then decided to put the matter in the hands of a board composed of Oswald West, former state land agent, and now railroad commissioner, and William Waldo, of this city, to make a selection from all the tracts offered and any new one that was put up. The Croisan tract had not been put up before this meeting.

### Poor Outlook for Maize Crop.

Buenos Ayres, March 28.—The outlook for the maize crop is a very bad one at present. Nearly a month of drought has done tremendous damage to the maize plantations, and it is estimated that already fifty per cent of the total crop has been lost. If rain does not fall soon the damage will be even greater and the surplus for export will be very small indeed, as added to the want of rain, the grass hoppers have also done some damage to the young corn.

From the districts of Chivilony, Carlos Cesares, etc., advices are to hand that the crop is completely lost. The general opinion is, that even if rain were to come now our export surplus would not be much more than 1,500,000 to 2,000,000 tons.

Live stock interests are also suffering severely from the same cause, as the pasture lands are all shriveled up, and unless the drought comes to an end soon large numbers of cattle and sheep will be dying by starvation.

The province of Entre Rios has suffered exceptionally in this respect and farmers there have been slaughtering large numbers of their sheep in order to leave sufficient pasture for the rest.

Hon. T. B. Kay has returned from a business trip to Eugene.
