

## GRAND JURY RESTS

### Go After Los Angeles Millionaires Next Week

San Francisco, April 13.—It is not probable there will be any indictments at this afternoon sessions of grand jury, as it will postpone its work on the Los Angeles promoters until next week. Warrants will be issued at the indicted men. The post-mortem investigation was resumed this afternoon. The prosecutors declare there is no truth in Ruef's statements that he has the affidavit employed by the prosecutors get statements from talesmen the idea of disqualifying them as jurors.

Nothing had been heard of Toledo regarding the expected arrest of Dewler.

## WOMAN WHO DE-SERVES A DIVORCE

Portland, Or., April 13.—A woman to the floor by a drunken man and a boiled potato forced her throat, he all the time calling her vile, filthy and degrading. This is one of the charges in the complaint of Catherine Becke at Edward Becke.

They were married in Clackamas county, November 26, 1890. For the past two years, the wife alleges in her complaint, he has been repeatedly almost daily intoxicated and subjected her to cruel and inhuman treatment.

They have two children, Gloriunda, 11, and Ernest aged 7. Mrs. Becke asks for divorce and custody of the two children.

## DELMAS TO DEFEND THAW

### Same Lot of Attorneys Will Manage Second Trial

New York, April 13.—Thaw says he is hopeful of being admitted to bail. Delmas visited the Tombs early this morning, being the only attorney calling on Thaw. He said he was still Thaw's counsel. He was closeted with the prisoner for three-quarters of an hour, and looked like he had had a strenuous time, but refused to talk about his possible retention. Thaw is restless; he was up early and read the papers, but refused to talk. Evelyn is almost a wreck this morning. The other women of the family have recovered from the shock. It is said Thaw's attorneys will go into another county to seek a writ of habeas corpus, ordering his release on bail. Penbody, saying he spoke with Thaw's authority, says there will be no change in the attorneys.

It is reported late this afternoon that Thaw has decided to discharge all his counsel, except Delmas. It is reported the prisoner this morning said to the Californian: "Go and make good, and get me out on bail." Thaw and all his relatives in this city declare they don't believe Blair Thaw made the statement attributed to him in a recent speech, to the effect that Thaw was insane.

## WISE OLD POLYGAMIST.

### Teddy Knows People Will Clamor for What They Can't Get

Washington, April 13.—Charles A. Towne fears not the buzz saw. He says there never was a time when Roosevelt did not hope to get as many terms as possible. Roosevelt is a good psychologist. He realizes that if the people think they cannot get him they will want him all the more.

## BOLD BAD BURGLARS.

### G. Fraser and C. Cupp Take Suit and Several Knives From Room at White House Last Night.

G. Fraser, alias George Petrie and several other noms de plume, with the aid of his partner, Charles Cupp, it is charged, took from a room at the White House restaurant last night a \$20 suit of clothes and several knives belonging to Herman Waterkamp, a German, who recently arrived from Europe.

Mr. Waterkamp had a room over the restaurant, and doubtless Fraser and Cupp thought the German an easy mark, and one who had the mazzuma. Night before last the German heard some one trying to unlock his door, and when asked what they wanted, the intruders said they thought it was their room. Last evening a suit of clothes and several knives were missing from the room of Waterkamp, and a search was begun for the property. It is probable that Fraser and his pal heard some of the remarks concerning the missing goods, for they took their departure last night for the telephone camp south of town. The suit of clothes was found in McPeck's second-hand store, where it had been pawned for \$2. The men were described, and answered to the description of the two men who were already suspected. Chief of Police Gibson and Deputy Esch left this morning for the camp, which is about eight miles south, and on arriving there soon located their men. The officers waited until the dinner hour, and, concealing themselves in a tent, had the boss of the gang call Fraser and Cupp in, and soon had their arms encircled with iron bracelets.

The two men were brought back to Salem and placed in the city jail early this afternoon. Articles were found upon the men, such as keys and written notes, that would show them to be crooks.

It is said that Fraser has a former partner in jail at Roseburg, and has been in trouble before this affair.

The penalty for their crime, if convicted, will mean from one to seven years in the penitentiary. They will probably be arraigned Monday.

## Millionaires Indicted.

## Sent to Aid Society.

Five of the children of the Smith family were today committed to the Boys' and Girls' Aid Society in Portland.

The family resided near Silverton, and has been in very poor circumstances. The testimony showed that the father was able to work, but neglected to provide. The children range in age from two years to 13 years of age, and are bright and fairly well dressed.

Those sent to the Aid Society are: Joseph aged 13, Ollie 9, August 7, Willie 4 and Bennie 2 years.

Joseph was committed with the instruction authorizing the superintendent to put him in the reform school, if necessary.

J. Tenschler, traveling agent for the society took charge of the children this afternoon, and as the family is scattered the children will be put in Catholic institutions.

## HOWARD NESBITT RELENTS

### Now Turns to Thaw With a Pathetic Appeal for Cash

New York, April 13.—In a letter that it is said that Thaw received yesterday from Howard Nesbitt, made public today, it asks a loan of \$100, and promises faithful allegiance in future. The writer wrote at great length to explain how his "childish" gratitude had been aroused to favor the memory of White; how he lied in "childish thoughtlessness" to Jerome, but now had, from the moment Evelyn told her story on the stand, been her "adoring, appreciative brother," and much more of the same kind. He finally approached the climax in a "pathetic" appeal for cash.

## HARRIMAN IN POLICE COURT

New York, April 13.—E. H. Harriman appeared in the police court this morning and testified against Stenographer Hill, accused of stealing the Harriman-Webster letter and selling it to the newspapers. Harriman was on the stand for half an hour. He refused to answer the questions of Hill's lawyers. The court ordered him to answer. The magistrate sharply replied that he did not propose to answer. The attorney for the state came to Harriman's relief with an objection, which the court sustained. Harriman refused to tell the name of the friend to whom he had read the letter a month before it was written. He identified the letter that caused the sensation, and was excused on account of an important engagement.

## Eugene Street Car Line to Be Built.

Eugene Register, April 12: A. Welch, head manager of the Willamette Valley Company's Oregon plants, is in Eugene from Portland on business connected with the local plant and the street car system.

When seen yesterday by a Register reporter Mr. Welch stated that his company had signed up with the Warren Construction Company for their part of the Willamette street paving contract. The steel rails for the Eugene electric system are en route, and are due to arrive today, according to advices from the eastern firm that shipped them, but, owing to general paralysis of traffic westward bound, they may not reach here for some time yet. However, the company have arrangements with a Portland company whereby they can get sufficient amount of rails to lay Willamette street as the rails must go down as the paving is laid.

Another matter of interest was selection of rock to be used in laying foundation for street paving. Mr. Welch examined the formation on the north side of the butte on the company property, and found plenty of stone suitable for the purpose, and arrangements will be made with the Warren Construction Company to furnish all the crushed rock necessary for their paving contract in this city. A crusher will be put to work, and be operated by an electric motor.

Other matters of equal importance were looked into that have important bearing on electric railroad construction in and around Eugene, but which are not ready for publication.

Mr. Welch said work is being rushed on the Salem-Portland line, which will be completed in time for the state fair. The next step will be to build from Salem to Eugene.

J. W. Baker has returned from a short visit in Portland.

## HONORS JUDGE BOISE

### Salem Grange Adopts Resolutions of Respect to His Memory

Salem Grange today adopted the following resolutions in memory of the late Judge R. P. Boise. At the forenoon session a special committee was appointed, and, upon their reporting, several members made it the occasion of paying high tributes of respect to the memory of the departed, who stood very high in the councils of the order.

## Report of Committee.

Whereas, On Wednesday, April 10, 1907, death removed from among us our revered brother and fellow Patron of Husbandry Judge R. P. Boise, and

Whereas, This order has sustained an irreparable loss of one who was a member of Salem Grange, No. 17, since its organization in 1873, therefore, be it

Resolved, By Salem Grange, Patrons of Husbandry, that we spread upon our records this tribute of our appreciation of the character and eminent services of our late brother, and that copies be furnished the family of deceased and to the press of the state, as follows:

Judge Boise was a member of the order who had held all the positions from the humblest offices to the highest positions in the State Grange throughout its jurisdiction. He was five times chosen state master, and by his faithful attendance upon the sessions of the order at home and abroad reflected the highest credit upon the organization. In his attendance upon the National Grange he ranked with the ablest members in the deliberations of that body.

Brother Boise also served the commonwealth with ability and distinction in the various capacities of lawyer, prosecutor, member of the constitutional convention of Oregon, and as a Judge, serving longer than any other occupant of the bench, filling all these stations in life with honor and distinction, and never compromising the highest ideals for which he ever stood before the world.

In his political vision Judge Boise was a far-sighted counselor of the people at all times, standing for those conservative policies that strengthen the masses of the people and protect the rights of the producing classes.

In private life, as in public, he was a model of good citizenship, faithful in all his relations to his family and his friends, and your committee is but feebly voicing the appreciation of this order and of the entire community when it places upon record this estimate of our revered member, our true friend, a wise counsellor and fearless leader.

Resolved, That our tender regard and sympathy be extended to the bereaved wife and family. In the fullness of time and a harvest of rich deeds he has passed into that peace which passeth understanding, and where there awaits the true and the tried soul of the departed that perfect rest which he has so well earned.

E. HOFER,
