

# Women Who Wear Well.

It is astonishing how great a change in a few years of married life often makes in the appearance and disposition of women. The freshness, the brilliancy, the smile, the bloom, the glow, a faint echo of the charming girl. Few young women appreciate the shock of the system through the change which comes with marriage and motherhood. Many neglect to deal with unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the system of its freshness and the form of its fairness.

As surely as the general health suffers there is demergerment of the health of the delicate womanly organs, so surely these organs are established in with the face and form at once witness the fact in renewed comeliness. More than a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. It is made wholly of those pure, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken-down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and make its advent easy and almost painless, there is no medicine so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a potent invigorating tonic and opens the system, nicely adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

**Bad Symptoms.** The woman who has periodic headaches, backache, floating imaginary dirt spots or specks before her eyes, has growing distress or heavy full feeling in stomach, faint spells, dragging-down feeling in lower abdominal or pelvic region, easily started or excited, irregular or painful periods, or without pelvic catarrh, suffering from weaknesses and derangements that should have early attention. At all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated and such cases often run into maladies which demand the surgeon's knife if they do not result fatally. No medicine extant has such a long and unspurious record of cures in such cases as Dr. Pierce's Favorite Prescription. No medicine has such a strong professional endorsement of each of its ingredients—worth more than any number of ordinary non-professional testimonials. The very best independent known to medical science for the cure of woman's peculiar ailments.

harmful, or habit-forming drug is to be found in the list of its ingredients printed on each bottle-wrapper and attested under oath as complete and correct.

In any condition of the female system Dr. Pierce's Favorite Prescription can do only good—never harm. Its whole effect is to strengthen, invigorate and regulate the whole female system and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetic ally deranged, the nerves are weakened, and a long list of bad, unpleasant symptoms follow. Too much must not be expected of the "Favorite Prescription." It will not perform miracles; will not cure tumors—no medicine will. It will often prevent them, if taken in time, and thus the operating table and the surgeon's knife may be avoided.

**Doctor's All Agree.** The most eminent writers on *Materia Medica*, whose works are consulted as authorities by physicians of all the different schools of practice, extol, in the most positive terms, the curative virtues of each and every ingredient entering into Dr. Pierce's Golden Medical Discovery. In fact it is the only medicine, put up for sale through druggists for the cure of all diseases of the mucous surfaces, as nasal catarrh, throat, laryngeal, and bronchial affections attended by lingering or hang-on-coughs that has any such professional endorsement—worth more than any amount of lay or non-professional testimonials.

Do not expect too much from the use of Dr. Pierce's Golden Medical Discovery. It will not cure consumption in its advanced stages. No medicine will. Nor is the "Discovery" so good for a sudden attack of acute cough, but for the lingering, obstinate, hang-on-coughs, accompanying catarrh, throat, laryngeal and bronchial affections. It is a most efficacious remedy. In cases accompanied with wasting of flesh, night-sweats, weak stomach and poor digestion with faulty assimilation, and which, if neglected or badly treated, are apt to lead to consumption, the "Discovery" has proven wonderfully successful in effecting cures.

The formula is printed on every wrapper of "Golden Medical Discovery," attended as to correctness under oath, and you can't afford to accept any substitute of unknown composition for this well-known remedy no matter what selfish interests may prompt the dealer to urge such upon you. In fact it is an *invaluable* to your intelligence for him to do so. You know what you want and it is his place to supply that want.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over 40 years ago. Much imitated, but never equaled. They cleanse, invigorate and regulate stomach, liver and bowels, curing biliousness and constipation. Little sugar-coated granules—easy to take as candy. Dr. Pierce may be consulted by letter free of charge. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (1000 pages) is sent free on receipt of 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address

snake, and the motto, "Don't Tread on the 'S,'" the flag of Commodore Matthew C. Perry, in the '50's, with its 29 stars, and the present state flag and national emblem. There is also photographs of the old Gaspee commission, and other historic articles taken from the state house, where they have been kept for many years as a part of the history of the state.

There is sent from the Frankford arsenal, Philadelphia, a most interesting exhibit of all the machinery and materials needed for the manufacture of cartridges. A specially interesting feature of the exhibit is the new "S" bullet, recently adopted by the government. It is an improvement on the type of the pointed bullet used by the French army. The penetration and velocity of this bullet are much greater than in the case of the Krag-Jorgenson or other models. Besides the number of machines that will be in operation, samples of each step of the processes will be displayed in such a manner as to show distinctly each working necessary to produce the finished article from the raw material. A series of the styles of machinery used to produce the ammunition forms an interesting feature of the exhibit. The machinery makes cartridges at the show. The automatic measuring machine is probably calculated to attract as much attention as any exhibit in the exposition. To avoid any danger of an explosion, raw flax seed, which is nearest in weight to the grain of the powder, is used in demonstrating the working of the machine. The working force at the arsenal is 800 men, and 600 are employed in the various departments of cartridge manufacture.

### Jamestown Stamps.

Jamestown, Va., April 26.—With the opening of the exposition came the new postage stamps made expressly to commemorate the exposition, which will be in denominations of one and two cents. The stamps are in regular form, the one cent being green in color, and the two cents carmine. The one cent will bear a vignette of Captain John Smith, and the date of his death, 1580 and 1631. In the upper left hand corner is a profile of Pocohontas, and in the upper right hand corner a profile of Powhatan. The two-cent stamp bears a fine engraving of the landing of the first settlers at Jamestown. The stamps are placed on sale at postoffices throughout the United States today, the day of the opening of the exposition.

### Fencing for Title of Champion.

New York, April 26.—Tonight representatives of the New York Athletic club, the Turn Verin, the Brooklyn Fencers' Club, and the Fencers' club, will strive for the championship of the National Fencing club, at the Athletic club. Fencers are entering upon their busy season. Like a great many other American sports, fencing, no matter how old its history may be abroad, is of quite recent origin and growth in this part of the country it was almost unknown, 50 years ago, except by army officers. Now there are a number of flourishing clubs in New York, not to speak of smaller salles des armes, and the sport finds equal favor with the ladies as well as the men. It is even said that the Colony club, the new woman's social organization is thinking of taking up fencing.

### The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

# \$100 REWARD!

It has come to our notice that unscrupulous dealers have been hoodwinking the public by offering cheap and inferior compounds as "Cottolene" or "something as good as Cottolene."

We will give \$100 reward for evidence sufficient to convict a retail dealer of fraudulently substituting another product when

# COTTOLENE

The Perfect Shortening

is asked for.

There is only one

Cottolene—

That is Fairbank's

Cottolene—

With this trade-mark on the pail; never sold in bulk.

There are many compounds and imitations of Cottolene; Avoid them!

Do not be deceived by either dealer or manufacturer, or induced to accept a substitute for Cottolene.

Remember, no substitute is as good as the original.

No other shortening and frying medium is as good as Cottolene.

When you ask for Be sure you get **COTTOLENE**

### Maine Central Leases Somerset.

Portland, Me., April 26.—On the call of Clerk Cleaves, of the Maine Central Railroad, the stockholders met today and ratified the agreement made by the directors to lease the Portland & Rumford Falls Railroad, the new corporation, of which much has been said of late, and also ratified the leasing of the Somerset Railroad. The Maine Central is the trunk line of Maine. It has in the past been a splendidly effective factor in the building up of the business of the state. Step by step it has gone on making possible the development

### of the unrivalled water power of the

state in the new sections of the state adding to the summer resorts, in short, in all things serving the state. It has become a great institution, and it must look to the state for business. The step was taken to facilitate the entrance of the Canada Pacific Railroad into the state, instead of blocking that purpose, as some have charged. It can build, if it chooses, by the Portland & Rumford Railroad and its branches a line to Megantic, and from that point to Portland, and the haul will be, it is said, 450 miles nearer than Halifax,

### and 130 miles nearer than St. Johns.

### EUREKA!

Yes, I Have Found It at Last. Found what? Why that Chamberlain's Salve cures eczema and all manner of itching of the skin. I have been afflicted for many years with skin diseases. I had to get up three or four times every night and wash with cold water to allay the terrible itching, but since using this salve in December, 1905, the itching has stopped and has not troubled me.—Elder John T. Ongley, Rootville, Pa. For sale at Dr. Stone's drug store.

position. The building is a central part of the grounds, overlooking the waters of Hampton Roads, is a permanent brick and concrete construction, and is considered one of the most attractive structures on the grounds. In an official statement the exposition officers say: "Owing to the fact that the government is considering the advisability of holding official speed and endurance tests for motor cars at the exposition in connection with the war department and the postoffice department services, great interest was manifested in every part of the country by manufacturers of such vehicles, and a very complete exhibit was brought out.

The Jamestown ter-centennial commission of Rhode Island had made for the Rhode Island exhibit at the exposition duplicates of several colonial flags, and also of the state flag of historic note, in silk, which are on exhibit, with portraits of General Greene, Commodore Perry, Admiral Hopkins and other celebrated Rhode Islanders. These flags include the red cross flag of England under the regime of Sir Edward Andros, the blue flag of Commodore Oliver Hazard Perry, used in the battle of Lake Erie with the motto, "Don't Give Up the Ship," the flag of the Revolution with the white field and gold stars, the famous flag of Admiral Hopkins, with the rattle-
