late division of the supreme court today affirmed the conviction of Abe Hummel, and sentenced him to a year in Sing Sing for conspiracy. He has been out on \$10,000 bail pending the appeal.

FORTY-EIGHT LOST LIVES.

Latest Reports About Wreck of the Steamer Poltou.

Marseilles, May 10.—The latest report received here concerning the loss of the French steamer Poltou, which was wrecked off the coast of Uruguay, are to the effect that 40 and eight members of the crew lost their lives.

Montevideo, May 10.—An official report from the government authorities on the spot say that all the passengers, mostly Spanish emigrants, of the French steamer Poltou, wrecked off San Jose Ignacio were rescued with the exception of 13. Seven of these are known to have been drowned and six are classed as missing.

Another report says that 22 persons perished. Some of the dead show bullet wounds, apparently received during a desperate struggle for safety.

Burned the Japs.

Tokio, Japan, May 10.—Fifty-eight lives were lost in a conflagration at Sapporo, capital of the island of Hokkaido, today.

THE STRIKE SITUATION OMINOUS

LOCAL BUSINESS IS BADLY HURT

Crowds Inflamed by Calhoun's Threat to Demand the Militia

San Francisco, May 10.—Although the street car strike is as far from settlement as ever, the general labor situation is considerably clarified by the action of the Building Trades Council adopting a resolution calling upon the 35,000 men affiliated with that body to assist in preserving order, and denying that the plumbers, structural iron workers and carpenters are preparing to strike June 1st. The action of the linemen in deferring the vote on the matter of striking in sympathy with the telephone operators has also helped the situation. Local retail trade has fallen off more than 50 per cent as a result of the strikes. Reports from other cities in the state indicate the blow is being felt there. Shipments into this city show a deplorable falling off in all lines except building material, which is being used as rapidly as it arrives, showing that in the building trades, at least, there is no diminution of energy.

San Francisco, May 10.—The usual crowds of pickets and sympathizers gathered in the vicinity of the car barns this morning but their frame of mind was not of that quiet and submissive nature that marked their conduct Wednesday and Thursday. They plainly showed that they resented Calhoun's announcement that he intended to rush the governor to call out state troops. The union men claim troops are not needed, and if they are sent it will have a tendency to inflame the hoodlums, who have no connection with the union, and whom they accuse of being responsible for the acts of violence committed. The Oak street barns are again promising to be the storm center. A crowd of several thousand gathered there as early as 9 o'clock. The usual squad of police is on hand.

Railroad officials had a conference last night, and decided to run cars into the down town burned district, but the chief of police informed them he could not give them protection in that district. The plan was thereupon abandoned. Up to noon no efforts were made to run the cars. Three hundred additional strike-breakers are expected from the East this evening.

First Steamer for Nome.

Seattle, Wash., May 10.—The steamer Corwin, owned by the L. N. Gray Steamship company, left this port today for the north mining towns. She is the first vessel to make the trip this season. Although the Corwin is the first boat to leave the season will practically open with the sailing of the steamships Ohio, Victoria, Pleiades and Senator, which depart on June 1. The Pleiades is the only steamer that does not carry passengers, and all available space on the other three steamers has already been engaged. The Corwin has the distinction of having been the first vessel into Nome every season for the last six years. The first vessel to arrive at Nome is always greeted with great enthusiasm.

Mother's Congress.

Los Angeles, May 10.—A special train bearing the main body of the delegates and officers of the National Congress of Mothers arrived here this morning. Tonight a reception will be tendered the officers and delegates. The reception will mark the opening of a four days' session of the congress.

Maybe Submarine Volcano.

L'Orient, France, May 10.—Several trawlers came in here yesterday, reporting an extraordinary phenomenon at sea, which would appear to have been a submarine volcanic eruption. The occurrence took place at a point 44 miles southwest of the island of Groix and 60 miles west of Belle Isle. The men on board the trawlers noticed bright flames and intense smoke rising from the sea. Believing that some vessel was on fire, the trawler Kernevel worked her way in that direction for the purpose of rendering assistance. She could, however, discover no ship on fire.

The fire and smoke, from no apparent cause, continued throughout the night, and became more violent toward morning, the Kernevel steamed away to insure her own safety.

To Tap Virgin Coal Fields.

Pittsburg, Pa., May 10.—Complete disruption of the community of interests which for years has existed between the Vanderbilts, Goulds and Pennsylvania roads in relation to the coal territory south of Pittsburg is threatened. Ignoring the compact made by the late A. J. Cassatt, James McCrea, president of the

ADA COUNTY JAIL AND COURTHOUSE AT BOYLS. INDICATES WHERE REVEREND JAMES MOYER AND FETTERINGS ARE IN CUSTODY.

Pennsylvania railroad, already has started to work to build a Pennsylvania line into the forbidden territory. This line will be an extension of the Pittsburg, Chartiers & Youghiogheny railroad, and will be known as the Chartiers Southern. It will be 18 miles long, and will tap the Virgin coal lands of Washington, Fayette and Green counties.

New Phosphate Mining Company.

Mt. Pleasant, Tenn., May 10.—The new Middle Tennessee Phosphate company is making good progress towards entering upon an active business. Since it was incorporated the work of development has been put well under way. A spur track has been built to the property on the farm of H. G. Kitrell, and preparations are well under way for the installation of a rotary dryer. The tram car system will be used and it will not be long before this will be a busy portion of the mining industry of one of the largest phosphate fields in the world.

Wheat Takes a Jump.

Chicago, May 10.—In the bear panic on the board of trade today July wheat advanced from 85 1/2 to 88 1/2. The biggest investors are buying heavily, as there is a tendency for the market to soar again tomorrow.

Woman's Club Meeting.

The Salem Woman's club will hold its regular monthly meeting at the First Methodist church Saturday afternoon, May 18th, at 2:30.

Killed Self and Baby.

Pittsburg, May 10.—Despondent from ill health, Mrs. Carrie Singleton, aged 31, killed her 18-month-old child and committed suicide by shooting this morning.

SPANISH HEIR HAS ARRIVED

STORK MADE AFTERNOON VISIT

All Spain Rejoices Over the Birth of a Big Boy Baby

Madrid, May 10.—Spain is aflame with emblems of joy this afternoon.

The Prince of Asturias and heir to the throne of Spain was born shortly before 1 o'clock today. Within five minutes the announcement was flashed to every point of the kingdom where wires were strung. As the royal flag was flung to the mast-head top on the palace the guns in the fortress began to boom a salute to the new monarch, and every person in Madrid stopped at the first shot, and breathlessly waited. Would the gunner fire 15 and stop, announcing a girl, or proceed to 21, announcing a boy. At the end of the

representative of the news association "What? A son? Fine, fine, fine. I haven't received the news from any other source yet. If it is really true, it is fine, and brings much happiness to me."

Madrid, May 10.—A bulletin posted at the palace tonight says the queen and young prince are doing well.

SERVED TERM IN PRISON

Chicago, May 10.—The Journal today prints a statement that Moyer, president of the Western Federation of Miners, is an ex-convict and former hold-up man of this city. The Journal says Moyer served time in

CHARLES H. MOYER. President of the Western Federation of Miners, indicted for the alleged murder of ex-Governor Steunenberg of Idaho.

Joliet prison from February 4, 1886, to January 4, 1887, being sent up from Chicago for burglary under the name of Charles S. Moyer, alias Fred Baker. After his discharge he went West. After a short period he disappeared from public view and reappeared in Colorado as a labor leader, eventually becoming president of the miners.

Moyer was arrested by Policeman Hartnett with one John Keating against whom the same charges were made. Through Keating the police fixed a number of hold-ups and burglaries on Moyer. The principal charge was the burglary of Ingor Larson's clothing store, at Lake and Lincoln streets. Moyer and Keating broke into the place two weeks before the date of their arrest, and attempted a second burglary of the same place the night Hartnett caught them.

The Chicago Journal correspondent at Boone, Iowa, telegraphs that Frank S. Moyer, chief of police at Boone for four years, but now conductor on the Boone street car line, said: "Yes, I heard once that Charlie got into trouble, and was arrested in Chicago, but the less said about it the better. Charlie never told me about it."

Hartnett, who made the arrest, is now a police lieutenant, in command of the West Lake street station. He says the arrest was made when he saw two men running. Hartnett caught up with them. Moyer tried to draw a revolver, but was
