

throat coughs Ask your doctor about these throat coughs. He will tell you how deceptive they are. A tickling in the throat often means serious trouble ahead. Better explain your case carefully to your doctor, and ask him about your taking Ayer's Cherry Pectoral. Then do as he says. Get the best medicine, always. We have no secrets! We publish the formulas of all our preparations.

NEWS FROM THE NATION'S CAPITAL

SENATOR DENEEN VISITS TEDDY

Waterways Commission Is Having a Very Busy Time

Washington, May 10.—There is speculation as to the real purpose of the visit of Governor Deneen to the White House here this week. While it is not extensively that the governor's arrival here for a conference with the White House had to do with the matter of having government institute a sanitary district of Chicago to prevent the reversal of the current in the Calumet river, it is much weightier matters that are the real reason for the visit. It is intimated that Governor Deneen is here to enlist the aid of President Roosevelt in the passage of certain corporation measures. It is also unlikely that the chief purpose of the visit would be to attend a session of the legislature so small a matter as the institution of a federal suit, a question which could be taken up as well by personal appeal. In an interview, prior to his conference with administration leaders, Governor Deneen let drop a hint that he was having trouble with the state legislature with reference to reform measures. Of this matter he said: "The legislature, which is about to convene, has done little in the way of enacting reform measures, during the next few days several measures probably will be passed."

and was directed against the Southern Pacific and the Santa Fe railroads. The petition, which was 1350 words in length, and for which \$80 was paid for its transmission, set forth that the railroad companies are injuring the fruit business by the method they have adopted for supplying cars to shippers. The interstate commerce commission, not to be outdone in progressiveness, by telegraph set the case for hearing at Los Angeles on May 15. Although it cost the Los Angeles fruit men a tidy sum for telegraph tolls, the returns in the way of quick action made the investment a good one.

The inland waterways commission, the board of which Congressman Burton, of Ohio, is chairman, and which was appointed by the President recently, has spent a busy week in organizing and in making plans for future work. The first important trip of the commission will be taken next week when the members will leave here on Friday for Kansas City to board the government boat Suter for a careful investigation of the Missouri river between that city and St. Louis. Arrived at St. Louis the commission will board the government steamer Mississippi for an inspection of the Mississippi river as far south as New Orleans. The proposed trip of investigation will probably occupy 10 or eleven days and will be as thorough in character as the limited time will allow. Chairman Burton has been deluged with invitations to inspect streams tributary to the Mississippi and Missouri rivers, but he has been compelled to decline all these invitations. In the first place, the members of the commission all are in the service of the government in other capacities and cannot absent themselves from their various departments for any great length of time, and then Chairman Burton is vitally interested in the political situation in Ohio, where his presence is required. This initial trip of the commission is expected to do much toward stimulating the growing interest in the matter of water transportation. For five years the National Harbors and Rivers congress has worked to stimulate this interest and to point out to the country at large the urgent necessity for providing a system of transportation that will supplement the railroads. The organization's crusade will be greatly strengthened by the activities of the commission which will undoubtedly aid the plans of Captain J. F. Ellison, of Cincinnati, secretary of the National Rivers and Harbors congress, in building up a still greater membership.

Senator Warner, of Missouri, who by the way is a member of the inland waterways commission, announced this week that Missouri is

for Roosevelt, first last, and all the time. The senator, however, believes that Mr. Roosevelt is sincere in his declaration that he will not accept the nomination for a third term and is confident that the delegation from Missouri will be for the candidate that the president picks out as the best man to carry on his policies. Senator Warner is an ardent admirer of Mr. Roosevelt and has good cause to be. It was the President's strong personality that carried the state in 1904 and enabled Mr. Warner to pick up the toga that had fallen from the shoulders of Francis M. Cockrell. Thus it was entirely natural that the junior senator from Missouri should have become the ardent champion and defender of the administration in the Brownsville affair.

Only two western firms of architects have been specially invited to furnish plans for the new building that will house the bureau of American republics. They are Eames & Young, of St. Louis, and Thomas R. Kimball, of Omaha. The remainder are Washington and New York firms. Each of the eight firms will be paid \$1000 for the plans submitted, which are to be entered in the general competition in which 128 other firms have signified their intention to participate. The building is to cost \$600,000 and the entire furnishings \$150,000. The site on the banks of the Potomac has already been purchased at a cost of \$250,000. Of the million dollars to cover the cost of ground and building, the government appropriated \$250,000 and Andrew Carnegie furnished the remainder on the condition that the building be known as the Pan-American Palace of Peace. It is expected that the award will be made by July 1.

But the Palace of Peace is not the only artistic addition promised that is to make of Washington the architectural wonder of the world. The George Washington university authorities are redoubling their efforts in the local campaign to raise by subscription a fund sufficient to purchase a suitable site for the buildings for the new national university that is to be built up around the present organization. So satisfactory have been the returns, the trustees of the university believe it will be possible to announce at the commencement exercises on June 3rd that the \$200,000 fund has been completed and the purchase of a new site arranged for. This educational institution will not be local in any sense of the word but will be international in character. It is intended to attract students from all over the United States and graduate students from foreign countries, especially from the Latin-American republics. As a means for the advancement of political and commercial relations with other nations the project has the hearty endorsement of John Barrett, director of the bureau of American republics, and of President Roosevelt and member of his cabinet. The plans of the university trustees include a general appeal to patriotic citizens of the United States for subscriptions to an endowment fund that will permit the university to realize its full ambitions in this direction. This appeal is already being made in a small way, and it will become more general once the fund is completed and the site is ready for the proposed new building.

Reports have reached here that the silent senator from the state of Washington, Levi Ankeny, has a serious fight on his hands for reelection. Senator Ankeny's term expires in 1909 and it is reported that the fight for his toga is already on in full blast. His chief opponent is said to be Robert L. McCormick, of Tacoma, for many years the chief legal adviser of Frederick Weyerhaeuser the lumber king, whose wealth is said to be greater than that of Rockefeller. It was not until he came to the capital that it was known that Senator Ankeny probably cultivates wheat on a larger scale than any other single individual in the United States. It is said he has approximately 20,000 acres of land in the states of Oregon and Washington and that the aggregate yield of his crops for a season is 450,000 bushels.

The dead letter office established a new record during the month of April. According to the report of the postoffice department the number of letters and packages returned to senders during the month was 459,409. The total number of pieces of undelivered mail matter received during the period was 1,991,107, as compared with 938,553 in April of last year. Still another record was established during the month when in the course of one day 20,368 letters were returned to senders because of inadequate or illegible addresses. The largest number here-

SHORT TALKS BY L. T. COOPER. MEDICINE.

It's curious what some people believe a medicine will do. They seem to think because I advertise my preparations I claim they will cure anything and everything. Well, I don't. The other day I got a letter from a woman who said her husband had been in bed eighteen years with paralysis. She had bought seven bottles of the Cooper medicine and her husband was still in bed.

She stated that I was a scoundrel, a robber and various other pleasant things. Now the only thing I claim for Cooper's New Discovery is that it will put the stomach in working order. I know that if this is done, rheumatism, constipation, kidney and liver troubles, nervousness, and the general tired out, despondent feeling will disappear in ninety-nine cases out of a hundred. I know this medicine to be a fine tonic which used twice a year will throw off impurities and add flesh, strength and tone to the entire system. But it will not do the impossible. No medicine on earth will do more than help nature. Certain diseases are beyond all medicine, although God in his wisdom may some day give us frail humans a knowledge of how to cure them. At present I know Cooper's New Discovery to be as thoroughly efficient a medicine as was ever on the market, and people who will take it for the common ills to which flesh is heir will be more than satisfied. Here is a letter from one who has tried: "For a long time I have suffered from severe headaches, weakness, and pains in my back and sides." "Nothing I tried gave me relief, and a friend advised me to try your medicine. I improved from the first week. My backache and headache left me and I felt myself growing stronger. My appetite increased and I felt greatly improved in every way. I am indeed thankful for the benefit I have received." Miss Jennie Isaacson, No. 18 15th Avenue, West, Duluth, Minn.

We have sold and are selling great quantities of these famous medicines.

before returned in a single day was 14,488 on March 28 last.

The battle between the Sanitago, Cuba, police and seamen from the cruiser Tacoma was brought up at a cabinet meeting this week but action on the question was deferred until the official investigations now under way are completed. An informal report from Governor Magoon declared he believes the clash to have been purely individual and in no sense the result of a general ill-feeling against Americans.

REACHING THE SPOT.

It Can Be Done, so Scores of Salem Citizens Say.

To cure an aching back. The pains of rheumatism, The tired-out feelings. You must reach the spot—get at the cause. In most cases 'tis the kidneys. Doan's Kidney Pills are for the kidneys. F. A. Sutton, of 1125 Waller St., Salem, Or., says: "For ten or twelve years rheumatism and kidney trouble was the scourge of my life and two or three times I was down on my back on account of the pain being so severe. I could hardly move owing to the lameness and had to leave my farm and come into the city to doctor for the trouble but nothing seemed to bring me more than temporary relief. I was in bad shape just before I went to Dr. Stone's drug store and procured Doan's Kidney Pills. My limbs would scarcely support me and I could only get around at times with the greatest difficulty. Doan's Kidney Pills benefited me at once and when I had used three boxes I was absolutely free from every symptom of my old trouble and my health was better than it had been for fourteen years. I can conscientiously say that Doan's Kidney Pills are the best remedy of the kind I ever used or knew of."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Goes to Weiser. Miss Elizabeth Will, of the 1905 class in the piano department of the Willamette university, has accepted a position in the Jason Lee academy at Weiser, Idaho. She will leave this evening for her new home. Miss Bertha Andrewartha, who has been in the school at Weiser as teacher for the past year has recently resigned her position owing to sickness. She, as well as Miss Will, is well known here being a graduate of the piano department of the Willamette university and her many friends wish her a speedy recovery.
