

If You Are Sick

It is because some of the organs of the body are not doing their work well. There is a lack of that nervous energy that gives them motion. Consequently you are weak, worn-out, nervous, irritable, cannot sleep; have headache, indigestion, etc. because there is not sufficient nerve force to keep the organs active and allow them to perform their natural functions. Dr. Miles' Nervine restores health because it restores this nervous energy.

"I have been sick for a year, and did not know what was the matter with me. I tried many remedies and none of them proved of any value. I heard of Dr. Miles' Nervine. I procured a bottle, and before I had taken half of it I was better. I would have had nervous prostration if I had not got this medicine when I did. I continued to take it until I was entirely well. I have since recommended it to five of my lady friends, and they have all thanked me for doing so, for it benefited them all."

MRS. ROSE OTTO, Columbus, Ohio. Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money. Miles Medical Co., Elkhart, Ind.

CHERRIES AND ROSES IN JULY

Big Cherry Fair and Rose Carnival to Be Held Here July 10 to 12

Salem will hold its second annual Cherry fair and Flower carnival from July 10 to July 12. Such was the decision at a meeting last Saturday afternoon of the County Horticultural society which convened in the new quarters of the board on State street. It is the intention to make this year's Cherry fair and Flower show one of the most elaborate that has been seen in this section. The annual convention of the Pacific coast nurserymen will be held here at the same time as the Cherry fair which will add much of importance and interest to the occasion.

An invitation has been extended to Homer C. Atwell, of Forest Grove who is president of the State Horticultural society, to be present and to preside at this gathering which will call together hundreds of orchardists and horticulturalists from Marion and neighboring counties.

There will be no entrance fee charged for exhibitors to the Cherry show and it will not be necessary for those entering the contest to be a member of the auxiliary or state horticultural societies. It will be a free contest for all and an effort will be made to obtain the most competent judges and the most able speaker to address the meeting.

Mrs. Claud Gatch will have charge of the flower display and ample provision has been made for prizes which should interest the various flower enthusiasts of this section.

President H. B. Thielsen of the board of trade pledged the loyalty and support of that organization to the enterprise.

County Inspector Armstrong said that as far as the fruit was concerned he saw no reason why the fair should not be a huge success and that he would render all assistance possible in the gathering and in the soliciting of fruit for the display.

In a recent communication to Fruit Inspector E. C. Armstrong, President H. C. Atwell, of the State Horticultural society, stated that he had selected a committee to assist the local horticultural society in making suitable arrangements for the exhibit. This committee from the state society consists of James H. Reid, of Milwaukee; W. K. Newell, of Dilley; J. B. Nunn, of Dallas; A. C. Goodrich, of North Yamhill and L. D. Moulton.

The following committees were appointed:

Finance—M. McDonald, H. S. Gile, George Weeks, James Winstanley, L. T. Reynolds and Mrs. Claud Gatch. Rules and premiums—L. T. Reynolds, C. F. Lansing, A. F. Hofer, L. M. Gilbert and J. H. Reid, of Milwaukie.

Exhibit—E. C. Armstrong. Program—Frank Powers, H. B. Thielsen and George F. Rodgers.

The appointment of the judges for the Cherry fair will be left to President H. C. Atwell. A meeting will be held next Saturday to hear the preliminary reports of the various committees.

WHERE HOCKING VALLEY IS

One of the freight cars in the yard today was labeled Hocking Valley. Where's that?—Albany Democrat.

The horse editor takes pleasure in answering the question. Hocking Valley is in the central part of Ohio, being principally in Fairfield and Hocking counties. It is one of the garden spots of the world and is rimmed about with the "Hocking hills. It was in Hocking Valley that the scenes of "The Prairie Flower," an old time popular novel were laid, and Mt. Pleasant at Lancaster, was the scene of the famous battle between the scouts who rescued the "Prairie Flower," (the "woman in the case") from the Indians; and it was almost on the site of the same town of Lancaster that one of the largest Indian towns in America was located. The rich Hocking bottoms were used for corn fields by the Shawnees, and even when first seen by the whites the Hocking valley was the best cultivated piece of land in America. It was here that a boy some five or six years of age was found wandering along the Hocking river, by the early settlers. Nothing was known of him, nor did he know anything of himself. It was supposed he had been captured by the Indians, and perhaps was abandoned by them near the white settlements. He afterwards became the most noted lawyer in Ohio and his name, given him by those who found him "Hocking Hunter" is one of the most renowned in Ohio's early history. He was a law partner of Thos. H. Ewing, "Sledge Hammer Tom," one of Ohio's leaders politically as well as legally, a United States senator, and grandfather of Thomas H. Ewing, a brilliant lawyer, now of Los Angeles, California. General William Tecumseh Sherman was born at Lancaster on the banks of the Hocking river, and not far from the raging Hocking valley canal. His brother, "Johnny" Sherman, was also born in the same locality but not at the same time. He became famous as United States treasurer, senator and politician, and furnished political stump rangers much ammunition, by "committing the crime of the century,"—that is, knocking the value out of the silver dollar of our daddies. This also gave W. J. Bryan a great opportunity to make his famous "crown of thorns and cross of gold" simile, and incidentally gave him two races for the presidency of the United States, with entrance money in sight for the third. Besides the horse editor when he was young and innocent both of which conditions time has robbed him of, used to, with the aid of a small hook, piece of string and a worm coax the shiners from the Hocking river and inveigle the little mud-cats to come ashore and play in the grass with him. The Hocking valley is all right, but its real genuine name is the Hocking Valley—and there you are.

MRS. ROSE OTTO, Columbus, Ohio. Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money. Miles Medical Co., Elkhart, Ind.

SHORT TALKS BY L. T. COOPER.

"HOW TO KEEP HEALTHY."

"I am not a believer in too much medicine. Don't take medicine all the time. Get a good tonic and take it until the old vitality returns then stop. A general tonic and system renovator should be taken in the spring and fall. For this purpose there is nothing better on earth than Cooper's New Discovery, but I advise no one to take this medicine or any other all year long. Give nature a chance. Establish regularity in movement of the bowels. Drink plenty of water but not at meal time. Chew your food very carefully and eat slowly. Sleep with the window open, don't be afraid of fresh air and do not eat a great deal of grease. Be regular at meals. Go to bed and get up at the same hour each day if possible. Take a bottle of Cooper's New Discovery twice a year and your life should be long and healthy. Here is what Cooper's New Discovery does for run-down people who need a tonic: "I have been sick for a number of years with stomach trouble and also from backaches and headaches. Sometimes I became so weak I could not stand on my feet. My food did not seem to nourish me and I could not gain strength. I felt tired to death all the time. Nothing I took helped me, and hearing so much of the Cooper medicines I decided to try them. "I have taken two bottles of Cooper's New Discovery with the most remarkable results. I now feel entirely well. My appetite is fine, I sleep well, have no more headaches and am quite strong again. I cannot express my thanks for what these medicines have done." Sallie Middleton, 1957 Central Avenue, Cincinnati, Ohio.

Relief From Rheumatic Pains.

"I suffered with rheumatism for over two years," says Mr. Roland Curry, a patrolman, of Key West, Fla. "Sometimes it settled in my knees and lamed me so I could hardly walk, at other times it would be in my feet and hands so I was incapacitated for duty. One night when I was in severe pain and lame from it my wife went to the drug store here and came back with a bottle of Chamberlain's Pain Balm. I was rubbed with it and found the pain had nearly gone during the night. I kept on using it for a little more than two weeks and found it drove the rheumatism away. I have not had any trouble from that disease for over three months." For sale by Dr. Stone's drug store.

Don't Pay Alimony

To be divorced from your appendix. There will be no occasion for it if you keep your bowels regular with Dr. King's New Life Pills. Their action is so gentle that the appendix never has cause to make the least complaint. Guaranteed by J. C. Perry, druggist. 25c. Try them.

Gold Dust Flour

Made by THE SYDNEY POWELL COMPANY, Sidney, Oregon. Made for family use. Ask your grocer for it. Bran and shorts always on hand.

SOME BRIDAL GOWNS

And Graduating Dresses—Spider Silk, Dotted Muslin and Foulards

The season for marrying and giving in marriage that was launched at Easter is still in full swing, and following the girl brides, girl graduates will be next to the fore. To Study Fashions. Nowhere is there a better opportunity to study fashionable attire than at a church wedding, which brings out every variety of new costumes, from the elaborate elegance of the bridal party to the smart new tailored suits of girl friends from out of town.

Satin and Chiffon.

Satin and chiffon have vied with one another for first place in the favor of spring brides. Early in the season satin ruled, but later gowns have more often been of chiffon and lace made up with clinging satin linings. Where the gown is of satin, skirts are quite plain or have what little trimming is used on the front breadth. The lighter materials are made with all sorts of modish garnitures customary where airy fabrics are employed.

Point Lace Veils.

Bridal veils of point lace or bridal veils of simple unhemmed tulle have had equal endorsement from fashionable sources. Veils have been of any length that suits the wearer, from those that barely reach the waist to those that fall to end of the train.

Tulle Gowns and Trimmings.

Gowns of tulle have been smartly worn both by brides and bridesmaids. No material is quite as becoming as this airy fabric, and it is quite simple in effect or the reverse according to its trimmings.

White and Silver.

White and silver was the robe worn by a bride a few days since, the

silver thread and silver beads. The veil was point lace, a long scarf shaped piece that extended from the stately dark head of the girl bride nearly to the end of her skirt. Contrary to the custom this spring this bride wore a great quantity of magnificent jewelry, including a diamond collar, a long rope of matched pearls, and a coiffure ornament in diamonds.

Spider Cloth.

It's a long way from satin at many dollars a yard to spider cloth at 50 cents, but the latter in all white would make up charmingly for a pretty unpretentious bridal gown that could be worn for any festive occasion afterward, or be equally suitable in white or in the pretty printings that come 'n all

Foulards Very Fashionable.

Foulards are once more very fashionable, and no gown a woman can possess lasts better or is suitable for so many different uses. Lord and Taylor is making a great showing of especially exclusive patterns in foulards. Coin spots of various sizes, some larger than dimes, some in clusters or line effects constitute some of the most attractive of these patterns.

Bordered Goods.

Goods with printed or woven borders are in great demand by fashionable dressmakers who are making them up in many odd ways, utilizing the borders for lengthwise trimmings quite as often as for regulation hem effects.

New Silk Gloves.

Very attractive is the showing of new silk gloves of the long wristed sort, made especially pretty by all sorts of charming designs of embroideries on the arms.

New Parasols.

The latest thing in parasols displayed in the Fifth avenue window of a well known but exclusive shop, is a line of coaching parasols in all the modish single colors, from mauve to monochrome, the handles straight and umbrella like but made of ivory carved and set with gold and semi-precious stones.

FAIR PLAY.

The American People are Noted for Their Love of Fair Play. In This, That It May Be Said To Be a National Trait of Character.

The man who strikes another a foul blow, or maliciously tries to injure him in his business, or in his social standing is detested and abhorred. The American people are not generally slow to manifest their disapproval of such treatment when an opportunity is afforded.

Illustrative of this disposition is the fact that although base, false and malicious attacks upon Dr. Pierce, of Buffalo, and his widely celebrated "Golden Medical Discovery" have sometimes injured the sale of these meritorious remedies for a time, yet when such unjust assaults have been met and their falsehoods completely refuted, a natural reaction has followed and their sale has been restored again.

In the case of the Ladies' Home Journal, of Philadelphia, which has published a most malicious, false, slanderous and untrue article, which has injured the sale of Dr. Pierce's "Favorite Prescription"—the well known cure for all peculiar weaknesses and distressing ailments—Dr. Pierce brought an action in the Supreme Court of the State of New York against the publishers of the Journal, and a verdict was given the Doctor, the judgment being for a sum of \$10,000.00 yet not for enough to properly recompense Dr. Pierce for the great injury and injustice done him. While he and his "Favorite Prescription" were completely vindicated and the latter remedy was shown to contain no alcohol and none of the dangerous and injurious ingredients which the above mentioned paper had alleged it contained, yet the Journal, through its attorneys, moved for a new trial, claiming that they had finally been accorded a more just and adequate compensation for the wrong which he was made to suffer by reason of the base falsehoods published concerning him and his business.

There are hundreds of thousands of people all over this blessed country of ours who have been cured of chronic diseases through the use of Dr. Pierce's Medicines and it is only natural that such people should rise up and speak their sentiments pretty freely when Dr. Pierce and his medicines are so unjustly attacked.

These grateful patients of Dr. Pierce are to be found in almost every hamlet and country village, and in the farmhouse and mechanics' cottages in every nook and corner of this great country. Common gratitude prompts such people to stand up and defend Dr. Pierce and his medicines against unjust and malicious attacks.

Dr. Pierce's Medicines have been on sale in drug stores all over this country and in many foreign lands for more than forty years and yet their sale continues to grow in a substantial and most gratifying way. This could not be the case if they were not remedies of more than ordinary merit.

WHAT DO THEY CURE?

Dr. Pierce's Favorite Prescription is not advertised as a "Cure-All," but admirably fulfills a singleness of purpose, being a superior and most positive remedy for one class of diseases only—those easily recognized weaknesses, derangements, irregularities and painful disorders peculiar to women. It is a powerful, yet gently acting, invigorating, tonic and strengthening nerve. For weak, worn-out, over-worked women—no matter what has caused the break-down,—whether it be from too frequent bearing of children or from much worry, care, or over exertion of any kind, "Favorite Prescription" will be found most efficient in building up the strength, regulating all the womanly functions, banishing pain and bringing about a regular and healthy, vigorous condition of the whole female system. Thus it corrects prolapsus, or falling of womb, retroversion, anteversion and other displacements of the female pelvic organs, due to weakness or over exertion, lifting or fatiguing over-work. In short, it makes weak women strong and sick women well.

As to Dr. Pierce's Golden Medical Discovery it has a very large range of application, yet it is by no means recommended as a "Cure-All." It possesses marvelous alternative, or blood cleansing, properties and is at the same time a most invigorating tonic, or strength giver. It exerts a specific, cleansing, soothing and healing effect upon all the lining mucous membranes of the system; hence, its great curative value in all catarrhal affections, no matter where located.

"APPETITE CREATORS"

That is the name often applied to the joints that leave our establishments. Properly cooked, they are attractive enough to tempt the most jaded appetite. There is a sweet odor and a "come-and-try-me" invitation in looks that cannot fail to draw close attention from the epicure. All our meats have this peculiarity, because all our meats are selected with a view to please the eye and the palate. Beef, Pork, Mutton, Veal and Lamb Chops, Steaks, Cutlets, and fresh-killed Chickens.
