A Collection of Important Paragraphs for Your Consideration

Wanted—

We still have a number of places for bright, energetic ladies. We want you to make a thorough house to house canvass. This is not as difficult as one might think. We offer you many advantages. We don't ask you to work on commission, but pay you a good salary and expenses. We don't require you to be experienced; it is an advantage, perhaps, but if you have assurance and a little energy it will more than make up for your lack of experience. We are not asking you to work for some cheap concern. Remember you are working for one of the best houses in the country, and selling a product that is used by every housewife. We will further add that all our canvassers are in charge of a lady, and that their physical and moral welfare is safeguarded in every possible way. We believe that when you have had this matter thoroughly explained you will only be willing to become one of our canvassers. Please call for an interview, J. B. Brown, Willamette Hotel, or Miss E. M. Cobb, Cottage Hotel.

MINERS' JURY IS DOUBTFUL

Boise, May 15.—It is now reported that the state is not confident of winning the Moyer-Haywood-Pettibone case, as it has been purported in the past. Those closest to the prosecution, after discussing the matter among themselves, have changed their attitude on all sides, since one year ago. Governor Gooding no longer openly proclaims it to be his belief that the prisoners will never leave the state alive. Counsel for the prosecution is likewise no longer openly declaring that it is sure to win the case, but Deckres, when questioned today, bluntly put it thus: "It is mighty hard sometimes to convince 12 men, where the punishment is death." It became evident early in today's proceedings that the defense wanted to dislodge Juror Samuel Wingate, for implied bias, without having to exercise a peremptory challenge.

Ten Jurors Passed Tuesday.

It was another business session of the court, unmarked by important incident not connected with the examination of talesmen. Counsel bristled occasionally in a manner that indicated the spirit of the battle that is to come, but they continued in harmony, and were generally courteous and graceful to one another. The court room is filled at times, but the crowd is a changing one and could not be held unless the baiting of jurors was worth while. More women were present than on any other day, but at that the number scarcely exceeded a dozen. Haywood participated to a greater extent today in the proceedings than on any day previously. During the examination of Talesman Orrice Cole, who was not in good health, Mr. Wilson stated that the trial would occupy several weeks, and possibly several months.

The ten men so far passed are: A. L. Ewing, a carpenter; William Vandersdale, a grocer; Samuel D. Gilman, Walter Shaw and Allen Pride, farmers; D. W. Henry, a carpenter; Geo. H. McIntyre, a farmer; W. N. Rudge a farmer; Orrice Cole, a mining man and W. W. Bisby, a real estate dealer and insurance agent.

State Case Is Weak.

A decided sensation followed the circulation, after court reconvened, of the report to the effect that attorneys for the state had discovered a serious flaw in the case, which might have an evil effect on it. According to this story three witnesses, two of whom were former members of the Western Federation of miners, and one an ex-member of the executive board, who had made declarations to agents for the state, which it was held would tend to strengthen the credibility as a witness of Harry Orchard, flatly declined to come to Idaho to testify. Two of these men are now in Colorado, and one is in the Goldfield district. They had been enemies of Moyer and Haywood for years.

The twelfth juror was passed by the defense at recess, but reserved the right to ask a few questions after recess. The jurors now in the box are subject to peremptory challenge.
