

DAILY CAPITAL JOURNAL.

MRS. IDA M'KINLEY IS DYING

Battle Between Capital and Labor Is Imminent

WIM TO HAVE FOUND SIMPKINS

BE A WITNESS FOR DEFENSE

Dispute Orchards Statements As He Knew All His Movements

Idaho, May 23.—Jack Simpkins, the missing member of the Western Federation of Miners, is in Washington, and it is expected will surrender to the Idaho authorities in order that he can be made the chief witness for the defense. He alone can dispute the statements of Orchard's movements. It is said that detectives have been working for months on the theory that Steunenberg was murdered by Simpkins, at the request of men who wanted to get him out of the way, and Simpkins knew too much about the stealing of the timber land. The defense admits that Simpkins will try to have Borah's indictment by the federal grand jury on timber land frauds injected into the case.

GOULD'S PRIVATE WASHING

BEING DONE AT PUBLIC LAUNDRY

More of the Rottenness of High Toned Society to Be Disclosed

New York, May 23.—Captain McLaughlin, former head of the detective bureau, declared when his defense was made on the charge of using the bureau to further the aims of Howard Gould, in the attempted blackening of his wife's character, will result in more startling developments. Delancey Nicoll, Gould's attorney, it is reported, said that when Gould's side of the case was presented it would result in more sensations than the wife's separation suit. The case arouses great interest.

Wants Recount Bill.
Albany, N. Y., May 23.—Hughes sent an emergency message to the senate today, asking the passage of the mayorality recount bill, and recommending the legislature to postpone adjournment until the bill was made a law.

UNABLE TO VISIT THE TOMB

MRS. M'KINLEY DANGEROUSLY ILL

Has Severe Attack of Bronchitis and Doctors Say She Cannot Live

Canton, O., May 23.—Mrs. Ida McKinley, who has suffered from an attack of grippe, which later developed into bronchitis, has been unable to visit her husband's tomb for some time. Dr. Portman, her physician, says she cannot live.

Canton, O., May 23.—Mrs. McKinley, widow of President McKinley, sustained a stroke of paralysis today, and is unconscious. Dr. Rixey has been telegraphed for from Washington. It is said she cannot survive.

HARGIS JURY ACQUITS

Lexington, Ky., May 23.—Judge James Hargis was acquitted, the jury being out one hour. The charge was conspiracy to cause the death of Marshal James Cockrill, who was shot down in the streets of Jackson. A former jury disagreed. Curt Jett and Tom White, convicted of slaying Cockrill, and John Smith, another conspirator, confessed on the witness stand, stating the murder was inspired by Judge Hargis, Elbert Hargis and Sheriff Ed. Callahan. All were indicted. Smith was also implicated with the Hargises in the plot to kill two enemies of the Hargis clan. Jett and White were convicted of murdering J. B. Marcus, and are serving life sentences.

A RATHER TOUGH FAMILY

Chicago, May 23.—Mrs. Lucy Magnew was re-indicted today on the charge of causing the death by an illegal operation of Lola Maddison, of Salt Lake, a sister of Mrs. Anna Bradley, who is now in jail in Washington awaiting trial for the alleged shooting of ex-senator Brown.

Switched the Current.
San Francisco, May 23.—All of the United Railway trolley lines north of Market street were put out of commission Tuesday night by miscreants who managed by means of a wire or chain to connect a high-power transmission wire with the trolley wire on Church street, between Fifteenth and Sixteenth streets. The instant effect of diverting 13,200 volts of electric current to the trolley wires was a frightful explosion in the Turk and Fillmore sub-station.

The switchboard, which is connected with all the trolley lines operated by the company north of Market street, burned out, and the attending electrical display struck consternation and fear to the hearts of hundreds of people in the neighborhood. It is remarkable that the trouble was not attended by loss of life. Repairs were effected before the first car started this morning.

Arrested in England.
London, May 23.—J. T. Thompson, wanted in Oregon on a charge of the larceny of \$750 was remanded for extradition today.

SECURING JURY FOR SCHMITZ

DEFENSE ASKS POSTPONEMENT

Car Situation is Improving and Acts of Violence Ceasing

San Francisco, May 23.—When the Schmitz trial was resumed today the defense made the first attempt to delay proceedings, by asking for an adjournment until Saturday on the plea that one of their attorneys, whose presence was needed, was in Sacramento. The motion was denied. The examination of witnesses was immediately resumed. At noon one was temporarily passed.

More Cars Running.
San Francisco, May 23.—Nine additional lines were opened by the United Railroad this morning. Violence continued to decrease.

CONTRACT MARRIAGE VALID.

Colorado Courts Grant Divorce from Oregon Woman.

Denver, Colo., May 23.—That a divorce in a common law contract marriage is not a superfluity was the opinion of the district court when William Lynch applied for a separation from Rose Lynch, to whom he was bound by such a contract. The couple entered into the contract at Oakland, California, in 1893, and shortly afterwards Mrs. Lynch broke it by returning to her parents in Oregon.

It was decided that a divorce might save Lynch the embarrassment in some future time in being made a defendant in a suit filed by his wife, and a separation was granted.

STANDARD OIL HAS A BIG STICK

Washington, May 23.—President W. H. Fehzenfeld, of the Red C. Oil Company, of Baltimore, startled the interstate commerce commission this morning by stating that the Standard Oil Co. had a big stick in the form of coercion, and that it used it successfully to drive out the independents. He said the Southern roads, except the Seaboard, had increased the oil rates on South Carolina shipments. This was not admitted as evidence.

Presbyterian Assembly.

Columbus, O., May 23.—The general assembly of Presbyterians is drawing to a close. A number of members plan attending the ball game today. Dr. J. M. Hubbert has been appointed assistant moderator by Moderator Roberts. The committee report on marriage and divorce was adopted, that ministers refuse to marry divorcees except those innocents who got divorce on scriptural ground, and then only after a year elapses.

Refuse Orders for Flour.

Seattle, Wash., May 23.—The flour mills of Puget Sound are now refusing all orders for flour. Wheat receipts are very small. Nearly every mill on Puget Sound has orders for several months ahead, and in order to fill them they will be taxed to the utmost capacity. Rather than refuse orders made months ago, the mills are filling them with wheat that costs them record high prices, and at the rate they are paying say it is impossible to realize anything out of them.

PASSED A BOGUS CHECK

SMOOTH STRANGER GETS BUSY

And Put in Circulation Bills of the Vintage of 1857

Some smooth genius is working his way northward through Oregon, and incidentally working other people along the route. Tuesday he is reported to have done some clever work at Roseburg, and yesterday he managed to do a small stroke of business here, though it did not seem to be his busy day. He first secured a room at Scott Ferguson's paying for the same with a \$10 bill, and getting the change in good coin, the bill being somewhat antiquated and of no value, being issued by the state of Georgia before the war. He also managed to get some change from one of the jewelry stores, said to amount to about \$10, but the party losing is rather modest about telling the story. Presumably the same man tried on a pair of shoes at the Irvine & Co. store, and, as they seemed to fit him, he ordered them sent to the governor's office, in the state house, claiming to be a brother of the governor. He put up a check for \$15, and an affable smile, and got \$11 change, and a come-again glance, but he never came back. His presence is really desired, but since bidding Mr. Ferguson goodnight he has not been seen in Salem.

CAR SERVICE ABOUT NORMAL.

San Franciscans Again Having Use of Their Lines.

San Francisco, May 23.—A wage scale of 25 to 33 cents an hour, according to length of service, is the new wage scale that was put into effect today on the United Railroads, according to officials of the company. This is the scale of wages which President Calhoun proposes to pay upon his street railway system in this city, which, he declares, will hereafter be operated with non-union employes.

The old scale was 31 to 33 cents an hour. Sixty-five applications for positions as conductors and motormen, under the new wage scale, were received today.

Train of Sheep.

Heppner, Or., May 23.—Stock is beginning to move in good shape from the local yards. Rea Brothers, of Montana, shipped 30 cars of sheep to Forsythe, Mont., by special train yesterday morning. This is the second train for them this spring. There are several buyers in the field, and the market is strong.

W. S. Wharton, of the Bank of Heppner, last week shipped 1200 head of steers to Montana, and will ship 1000 head to Bismarck, N. D., on a government contract. These are all beef cattle, and the demand is strong, but the price is not in proportion.

Two Burned to Death.

Utica, N. Y., May 23.—Two lives were lost in the Metropolitan hotel fire this morning. The fire was caused by a cigarette thrown in the cellar. Fifty guests slid down ropes to safety.

Daugherty Appointed.

Washington, May 23.—Harry E. Daugherty, of Pennsylvania, was today promoted to membership of the Spanish treaty claims committee, a position declined by Lieutenant-Governor L. Y. Sherman, of Illinois.

Two Die From Plague.

Washington, May 23.—A cablegram from Honolulu to the Marine Hospital service in this city reports two deaths yesterday from plague, and one new case of that disease.

BATTLE MAY STILL BE FOUGHT

GALHOUN MAKES A HARD FIGHT

Tries to Unite Merchants to Declare Great Lockout

San Francisco, May 23.—The precipitation of a fearful industrial struggle in this city in throwing down the gauntlet to trades unions by declaring a gigantic lockout of the thousands of building craftsmen engaged in the work of rehabilitation in San Francisco, for a long time hung in the balance this afternoon, at a meeting of the principal builders and contractors and representatives of the manufacturers.

Several speakers declared that the only solution of the continual industrial strife and labor troubles in San Francisco was the "open shop," and urged immediate war upon the unions, and to "fight to the finish without quarter" by the cessation of all building operations until the employes would be glad to return to work at wages that builders could pay without loss to themselves.

COREY SELLS HIS STOCK.

Resigns From Presidency of United Steel.

Pittsburg, Pa., May 23.—The report is current in local circles that W. E. Corey, president of the United States Steel corporation, is selling his United States steel securities, or at least the common stock of the company, of which he was understood to be a large holder. It is further stated that Mr. Corey's resignation as president of the steel corporation has been presented to the executive committee.

Mr. Corey's reason for selling his stock is stated to be revenge in being practically ousted from the big corporation. It can be stated as a fact that a selling order of 50,000 shares of steel common was executed in the New York market yesterday and this morning. This stock represented investment holdings, and the average price paid for it was several points above the present market quotations.

"FENCE" IN SWELL PART.

Spokane Couple Charged With Receiving Stolen Property.

Spokane, Wash., May 23.—As the result of 24 hours' hard work by five detectives, H. Peters and wife who have been living in the fashionable residence district, are booked at the police station today on a charge of receiving stolen property. With the couple a grip filled with rare silver, worth more than \$2000, was taken to the station, and is held as evidence.

It is declared by the police that the man and woman have been conducting a fence for thieves who have been operating in the city for months. Late in the afternoon Mrs. Peters was released by order of Chief Rice. Peters secured his liberty by putting up a bond of \$200.

No Clew to Wreckers.

Los Angeles, May 23.—It is now believed the Glendale wreck will claim no more fatalities, as the injured are doing well. There is no clew to the identity of the wreckers. Officers are vigorously prosecuting their search in the surrounding country.
