## \$24,000-----\$44,000 ? Which Do You Prefer ?

The average man earns about \$1,100 a year. He works 40 years and earns a total of \$44,000 in a life time. The average day laborer gets \$2.00 a day or \$600 for a year of 300 days. He earns \$24,000 in a life time. The difference between \$44,000 and \$24,000 is \$20,000. This is the minimum value of a practical education in dollars and cents. The increased self-respect cannot be measured in money. Why not stop plugging away at a small salary when the International Correspondence Schools, of Scranton, Pa., can give you an education that will make a high-salaried man of you? No matter what line of work you care to follow, this great educational institution can prepare you in your spare time and at a small cost to secure a good paying position. Our local representative will show you how you can triple your earning capacity. Look him up today. He is

## To Argue Referendum.

Eugene special: Regarding the report current here yesterday that Attorney General Crawford had ruled adversely to the referendum petitions filed against the University of Oregon appropriation, it appeared that Mr. Crawford did give out a verbal statement to that effect. Before he had officially rendered his decision, however, Timon Ford, attorney for the petitions, requested that he postpone

his final decision for a week, giving both sides an opportunity to file briefs. This the attorney general consented to do, and a decision may be expected next Friday. Ex-Governor Lord will prepare the brief for the university and Ford for Linn county.

## Chartier Shorthand

This is a new system of shorthand writing that is being adopted by many of the leading business colleges of the country.

It is claimed that it is the most wonderful educational discovery of modern times. In fact, the claims for it seem almost incredible. However, the

## Capital Business College

believes in giving its pupils the best of everything to be had in its line of work, and in order that all in this vicinity who are in any way interested in shorthand may have an opportunity to investigate the merits of this new system, free classes will be conducted this week (beginning at 1:30 p. m. Tuesday).

These classes will be in charge of Prof. L. C. Spencer of New Orleans, La., one of the authors of the system. They are for the purpose of demonstrating the possibilities of the system. If it has the merits claimed for it, its adoption will follow by the Capital Business College.

These lessons are absolutely free, and everybody is welcome—stenographers as well as beginners. No one will be under any obligation to remain after the trial week. Tell your friends of this opportunity, and don't forget the time—Tuesday, May 28, 1:30 p. m. Place, Capital Business College.

The writer saw this system demonstrated in Portland last week, where it has been adopted by two of the three leading business colleges, and he is frank to say that the results that seem to be obtained from it appear to be astonishing.

W. L. STALEY, Principal.
