### CHANGE OF

ble Advice to Women from Ars. Henry Lee, Mrs. Fred Certia and Mrs. Pinkham.

MRS HENRY LEE

MRS. FRED CERTIA are passing through Change of Life. For several months I suffered from hot flashes, extreme nervousness, beadache and sleeplessness. I had no appetite and could not sleep. I had made up my mind there was no help for me until I began to use Lydia E. Pinkham's Vegetable Compound, my bad symptoms ceased, and it brought me safely through the danger period, built up my system and I am in excellent health. I consider Lydia E. Pinkham's Vegetable Compound unsurpassed for women during this trying period of life."

Mrs. Henry Lee, 60 Winter Street,

Dear Mrs. Pinkham;—

"After suffering untold misery for three years during Change of Life I heard of Lydia E. Pinkham's Vegetable Compound. I wrote you of my condition, and began to take Lydia E. Pinkham's Vegetable Compound and followed your advice and today.

### ROOSEVELT TO EXPLORE

Illinois Surpassed By West Virginia in Coal Production

Washington, May 29 .- President Roosevelt is to make a trip down the Mississippi River. He has accepted provisionally an invitation from the, governors of sixteen states to make ing the river and harbor work in progress on that stream. The journey probably will be taken early in October, for Mr. Roosevelt goes to Canton, O., September 30th to speak at the dedication of the McKinley moa-St. Louis or some other point on the ion of the President has brought joy will make the most of their opportunity in impressing upon the Presithis great ship canal. The Prestdent's interest in the question of waterways development is well known and he is a hearty admirer of the National Rivers & Harbors Congress, which, composed of business seeking to have congress appropriate not less than \$50,000,000 a year for the prosecution of this form of Internal development. The journey-of give a strong stimulus to the work of this organization which now is endeavoring to increase still further its membership to the end that the American people may express unitedly to congress their desire that this development be continued.

Illinois gave way to West Virginia last year in the matter of coal production. According to statistics compiled by the geological survey, West Virginia supplanted the Sucker state and took position as the second coal producing state of the Union. During 1966 it had a total output of 45,276,485 short tons, while the production of Illinois was 41,-470,435 short tons. The loss of place by Illinois was due to the almost complete suspension of mining operations in that state in April and a portion of May because of labor troubles. According to the figures the total production of coal in the United States last year was 414,-039,581 short tons of 2,000 pounds, valued at \$512,610,744. Compared with 1905 these figures show an increase of 5.4 per cent in quantity and of 7.5 in value.

Former Senator Cockrell once more has resumed his duties as a member of the Interstate Commerce commission. The distinguished Missourian has been in very poor health and for two or three months has been in the hands of his physicians, spending most of the time in Forlda. General Cockrell is a glutton for work. It was really to keep him from working himself to death that he was ordered peremptorily by his physicians to leave Washington. During his five consecutive terms in the senate he was credited with working more hours a day than any other mem-

Alfred E. Bent, treasurer of the state of Colorado, is in Washington ested in the public and timber lands of the western states, which will be held in the near future. He says that a number of these people are not in sympathy with the policy of the Administration with regard to the public domain, but brands as nonsense the statement that this feeling has crystalized into anything like an anti-Roosevelt movement. In fact, Mr. Bent says that if the President will accept the nomination in 1908 Colorado will be for him unanimously. He says, also, that Secretary Taft's boom is being re-

Chicago, Ill., May 29 .- At least thirty-two states are represented today at the conference in this city which has met to discuss trusts and combinations. The conference is held under the auspices of the National Civic Federation. The general idea is to bring about a better interstate understanding as to corporations. The delegates embrace some of the brightest and most prominent men in the several states, and are al activey enlisted in the work of the conference. This conference will discuss governmental power over corporations engaged in interstate commerce; the division of power under the constitution between the nathe voyage, for the purpose of see- tion and the state; power concurrent in nation and state, and similar subjects. How should the corporation be constructed, should there b national corporations as well a state; the basis of capitalization of corporations: their internal conument. Army Relief Garden Party. New York, May 29 .- The Army Relief society, which endeavors to care for the widows and orphans of soldiers of the regular army, is in way. The entire garrison has been turned out in honor of the affair and there is no end of fine uniforms from Major Generals and Admirals to noncommissioned officers. The military features were arranged by General Grant. The soldiers escorted the colors, went through the manual of arms with a musical drill and bayonet exercise. Then as a finale they will attack and capture the fortress on the island with the most modern military tactics. Gen. and Mrs. Fred Grant held a reception for the society and for all its guests at their home on the island. There was a concert by the Twentieth Infantry band and a dancing party at the officers' club in the evening. The trustees of the fund are Levi P. Morton, Cornelius Vanderbilt and Cornellus N. Bliss. A great number of ladies of the highest rank in society have been working like beavers for the success of the affair.

Is assured you when you buy one of Dr. Pierce's Family Medicinesfor all the ingredients entering into them are printed on the bottlewrappers and their formula are attested under oath as being complete! and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native, medicinal roots found growing in our American forests. While potent to cure they are perfectly harmless even to the most delicate women and children.

Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles. used in them, viz.-pure triple-refined glycerine of proper strength. This agent possesses intrinsic medicinal properties of its own, being a most valuable anti-septic and anti-ferment, nutritive and soothing demulcent.

Olycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, "heartburn," foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery " for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sages Catarrh Remedy. This thorough course of treatment generally cures even in the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on-coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages-no medicine will do that-but for all the obstinate hang-on, or chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

If the sweet taste of the "Discovery," caused by the glycerine, is. disliked, a few drops of lemon juice, orange or lime juice, added to each dose will make it agreeable and pleasant and will not in the slightest interfere with its benefical effects.

It's an insult to your intelligence for a dealer to endeavor topalm off upon you some nostrum of unknown composition in place of Dr. Pierce's world-famed medicines which are OF KNOWN COMPOSITION. Most dealers recommend Dr. Pierce's medicines because they know what they are made of and that the ingredients employed are among the most valuable that a medicine for like purposes can be made of. The same is true of leading physicians who do not hesitate to recommend them, since they know exactly what they contain and that their ingrediencs are the very best known to medical science for the cure of the several diseases for which these medicines are recommended,

With tricky dealers it is different.

Something else that pays them a little greater profit will be urged upon you as "just as good," or even better. You can hardly afford to. accept a substitute of unknown composition and without any particular full command on Governor's Island record of cures in place of Dr. Pierce's medicines which are OF KNOWN today, a garden party being under COMPOSITION and have a record of forty years of cures behind them, way. The entire garrison has been You know what you want and it is the dealer's business to supply that want. Insist upon it.
