going without

Take two bottles of Cooper's New Discovery. It will get the stomach in shape. See if energy and ambition don't come back before the two bottles are gone. This letter is from a man who tried it:

"After suffering for some time from stomach trouble, loss of appetite, headaches and a kind of 'all tuckered out' feeling I decided to try Cooper's New Discovery." "I used to get up in the morning

with my tongue coated and sick at my stomach. I would feel as though it was almost impossible to drag myself to work. Lots of times I had dizzy spells and backaches. After I used several bottles all these symptoms began to disappear and soon I began to feel like my old self again. Now I feel like a new man. It is a pleasure to work, for I always feel like it. I eat have no further trouble with my stomach." A. G. Latubys, 167 Porter St., Detroit, Mich.

It is estimated that nearly half a million bottles of the famous Cooper medicines were sold during Mr. Cooper's recent demonstration in Chicago. We are agents.

## The June Magazines.

McClure's contains more important and entertaining reading than one could expect to find in three numbers of any magazine. Ellen Terry contributes her charming and fascinating "Memoirs of My Childhood" that give stories of her wonderful girlhood, and her debut, and pictures of the actors and the English stage of fifty years ago.

The illustrations vie with the text in excellence. Ellen 'Terry's Memoirs has several rare and beautiful photographs. F. Walter Taylor did the best single illustration of the month-for "The Profile." J. Montgomery Flagg drew several clever pictures for "The Wilderness of Mr.

Bynner, Walter A. Frost, Frances Bert Dillingham, Cale Young Rice, and Walter Prichard Eaton.

"The Interpreter" talks about socialism.

# The Importance of Regular Habits'

The welfare of the body depends upon how regularly the stomach, liver, kidneys and bowels perform their respective duties. Carelessness or delay in attending to Nature's demands, brings on disorders which, sooner or later, have a bad effect on the general health.

Sluggish bowels, inactive liver, retarded digestion are important matters calling for immediate attention.

are a proven remedy. They possess corrective properties which act favorably upon the several organs and induce free and regular movements, so very essential to the bodily health. Do not fail to give instant attention to the calls of Nature, Neglect invites disease. Beecham's Pills are the old and reliable safeguard of health and can always be depended upon to

A series of five paintings by N. C. Wyeth are entitled "The Indian in his Solitude," and are powerful in their picturing of the loneliness of primitive man. The first installment of a serial that promises to "The Way of a Man," by Emerson Hough. The author of "The Mississippi Bubble" has grown in breadth of vision and in power of narration since he wrote that work and he appears in his matured strength in this story. A masterpiece of humor is written by Ralph D. Paine and is entitled "The Tales of a Collector of Whiskers," wherein the human whisker is discovered to possess musical qualities that make possible an orchestra of weird composition.

## The American Magazine.

Any one of the four things in the American would have made the number a good one: Edwin Leferve's character sketch of Harriman, Ellis Parker Butler's story of "Wetter New York in 1913," Ray Stanard Baker's account of "The Negro in Southern City Life," or Ida M. Tarbell's story of Grover Cleveland's great fight of 1887.

In the same number the author of 'Eurmy Lou" tells another Letitia story. Elizabeth Irwin tells of the most famous artists' model in the world. F. Martin Crawford goes on with his serial, and David Grayson writes of "The Tramp" in his "Adventures in Contentment" series.

Other contributors of stories and ooms are: M. J. Reynolds, Witter Words for Chamberlain's Cough Remedy.

## Yaquina the Port.

If the business interests of Albany, Eugene, Salem, Independence, and San Francisco freight through this

harbor and have their merchandise come via the port of Yaquina they would reduce transportation to the minimum charge.

Thanks to the Interstate commerce laws and state railroad commissions common carriers can be made to receive and carry freight and their charges can be regulated.

Putting In Modern R

CAPITAL BAKERL

C. TLICK DE

This is a new system of shorthand writing that is being adopted by many of the leading business colleges of the country.

It is claimed that it is the most wonderful educational discovery of modern times .. In fact, the claims for it seem almost increditable. However, the

# **Capital Business College**

believes in giving its pupils the best of everything to be had in its line of work, and in order that all in this vicinity who are in any way interested in shorthand may have an opportunity to investigate the merits of this new system, free classes will be conducted this week ( beginning at 1:30 p. m. Tuesday.

These classes will be in charge of Prof. L. C. Spencer of New Orleans, La., one of the authors of the system. They are for the purpose of demonstrating the possibilities of the system. If it has the merits claimed for it, its adoption will follow by the Capital **Business** College.

These lessons are absolutely free, and everybody is welcomestenographers as well as beginners. No one will be under any obligation to remain after the trial week. Tell your friends of this opportunity, and dont forget the time-Tuesday, May 28, 1:30 p. m. Place, Capital Business College,

The writer saw this system demonstrated in Portland last week, where it has been adopted by two of the three leading business colleges, and he is frank to say that the results that seem to be obtained from it appear to be astonishing.
