Gold Mine in His Yard.  
Banker W. D. Woolwine, owner of one of the finest homes in Los Angeles, formerly the residence of Baron De Rognaet, celebrated for his wine cellars and pictures, has "struck it rich" in his back yard. In carrying out his plans of beautifying the place, which is in East Los Angeles, Woolwine was grading down a hill and found a large quantity of free-milling gold ore, similar to that of Goldfield. It carries high values and is of such quantity that the prospect is to be at once developed. It is but a few hundred feet from the house. Old-timers agree there is gold in all the hills of that vicinity, but heretofore only very low-grade ore has been found.

## TEXT BOOK COMMISSION STILL BUSY

Will Conclude Its Labors and Adjourn at the Latest Thursday

The State Textbook Commission is still in session in the state capitol, and will probably not be able to finish its deliberations before the latter part of the week. Bids have been received on all the books which will probably be required, and the members of the commission are today busy considering the elementary texts. Possibly some of these selections will be made late today, when announcements will be made. Then will follow the grammar and high school publications.

## X-RAYS

The best way to make a dollar go a long way is to send it to a mail order house in the East. It will, in all probability, never get back.

Lou F. Vernon, in a pretty little poem, in the East Oregonian, says: "The boy is always happy Who whistles all the while."

This is probably true, but think of the older persons who have to listen to it, and then weep.

"Go ask papa," the maiden said. He knew that her papa was dead. He also knew the life he'd led And understood her when she said, "Go ask papa."

A Medford preacher recently discoursed on the subject, "The Falsehood of the Calvinistic Conception of Hell." It strikes the horse editor that Calvin might possibly have known as much about that somewhat arid country, as well, as anyone else who had never been there.

The picture of Mrs. Leslie Carter, as it appeared in the Capital Journal, is a feminine copy of Col. C. E. S. Wood. This is emphatically so about the eyes. Now then, Mrs. Carter; now then, Col. Wood, you are each indebted to the horse editor for the very nicest things that could be said of you.

## Two Story Brick.

A deal has been closed by which Chris Paulus became the owner of the lot on the north side of Court street, just east of the alley, between Commercial and Liberty streets, and it is reported that he will erect a modern two-story brick building on the property at once.

## CHERRY AND ROSE EXHIBIT

Will Be the Finest Ever Held in the Willamette Valley

The proposed Cherry and Rose show, which is to be held in Salem July 12th and 13th is certain to be a success, judging from the activity of the committee appointed for that purpose. The gentlemen delegated to secure the cups for prizes have finished their work, and more trophies are offered than are really needed. There are to be 15 \$10 cups, five \$5 cups and one special \$20 cup, and they have been provided for by the following subscriptions:

M. McDonald, special	20.00

Mr. McDonald, chairman of the committee on arrangements, is obliged to be absent from the city the greater part of the time until the show date, but he has pushed his work ahead, and his assistants will take up many of the details in his absence. Frank W. Powers, of the nursery company, who is president of the Coast Nurserymen's Association, is busy working for a big meeting here on the date of the cherry show, and is also looking after some of the details concerning the latter. The present weather conditions would seem to justify the prediction that the cherry crop will be a bumper, and that conditions for the show will be favorable.
