

WHY GROWING GIRLS NEED A SAFE TONIC

Williams' Pink Pills Particularly Adapted to Their Condition, Free from Opiates or Harmful Drugs and Highly Recommended by Those Who Have Tried Them.

Growing girls who show weariness, want of strength, languor, are perhaps short of breath, and a tonic.

All tonics are suited for their use at this critical time in their life, but Dr. Williams' Pink Pills

When the girl is developing into the woman they insure, as medicine can, the full flower of womanhood, robust, strong and healthy.

Defect of the health at this time is a life of misery and is often followed by a short, dry cough, which is the forerunner of consumption.

Miss Louise Westphal, of 233 Locust street, Dubuque, Iowa, says: "A year ago I was in a very weak condition, one that is common among growing girls. I was nervous, most of the time, lost weight, had a poor complexion and no appetite. I was completely run down and had no ambition at all. For months I was under a doctor's care, but nothing helped me. My friends thought I was going into consumption, and as my father died of that disease there seemed reason for the same."

"I had been sick about a year when Dr. Williams' Pink Pills were recommended to me by a friend who knew of another girl who had been cured by them of a trouble similar to mine. After taking three boxes I obtained relief and several more boxes. The sallow complexion disappeared, I had a good appetite, grew more and am still strong and healthy in every way. I think it is proper to make this statement for the benefit of those who suffer from the same. I do not know the real name of Dr. Williams' Pink Pills.

These pills are peculiarly adapted to diseases due to impure blood and injured nerves. They are invaluable in anaemia, rheumatism, after-effects of the grip and fevers and in headaches, dizziness, nervousness and neuralgia. A valuable booklet entitled "Plain Talks to Women" will be sent free, in a sealed envelope, upon request, to any woman interested.

Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cents per box, or boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

BAND CONCERT.

Local Musicians Render Excellent Concert Last Evening.

Several hundred people who attended the band concert given in Union avenue last evening received musical treat, and showed their appreciation by liberal applause. The concert was loth to leave after the number had been given, still wanting more. The program was as follows:

There Are Few

People who know how to take care of themselves—the majority do not. The liver is a most important organ in the body. Herbine will keep it in condition. V. C. Simpkins, Albatraz, writes: "I have used Herbine for the Bilious and Fever and find it the best medicine I ever used. I would not be without it. It is as good for children as it is for grown-up people. I recommend it. It is fine for Grippe." Sold by D. J. Fry.

Odd.

Poverty is very strange, and as strange as it can be, although it lacks a cent of change always has a "V."

A FOOL WITH A FAD

A Laymen Expresses His Opinion of Another Opinion

Dr. A. F. Jonas, chief surgeon of the Union Pacific system says one cause of train wrecks is the age of the employes, and that the railroad should have no men in its employ, over 40 years of age. It seems like a waste of time to take such drive seriously, and yet the position he is holding down compels some notice to be taken of his statement. Just what age Dr. Jonas has achieved is unknown, and it is difficult to decide whether his opinion is the spontaneous outburst of adolescent ignorance, or the pessimistic drivel of mumbbling senility.

If a man above 40 years of age is too old to be trusted to manage an engine, to handle a combination of steel and iron—is he not also too old at that age to be trusted with the care of such a complicated piece of mechanism as the human body? If he is too old to see an open switch, recognize a danger signal, or remember his orders at 40—is he not too old to diagnose a case, prescribe poisons, and pass judgment on the qualifications and capabilities of his fellow man? If a man is too old to manage an engine on a road at 40, isn't he also too old to manage the road? Should not the learned disciple of Esculapius insist on President Harriman being fired? And if the doctor has passed the age at which he thinks a man is no longer of use, should he not be compelled to resign and return the money paid him since he reached that age? Has not what he has received since been obtained under false pretenses? Should not any member of the board of directors; any head of any railroad department, who has railroaded long enough to understand his business, be unceremoniously bounced?

Suppose the management of the railroads should adopt the idea of this disseminator of catnip tea, opodeldoc and arnica—how long would the railroads have any employes? What inducement would there be to any young man to learn railroad engineering? He would not have the business more than fairly learned when the time for his retirement came. And if he married, as every good citizen should, what would become of him and his wife if he was married at 25, he would have fifteen years in which to provide for his family and himself—in his older years, or be turned out without a trade or a knowledge of any other business, with his oldest child at the most, fourteen years of age.

A man's age is not measured by years, and most men are not in their prime until they have passed 40.

Let us look for a moment at a few men living, who would have been down and out if Jonas theory is correct. President Palmer of the Northwestern Mutual Life Insurance Co. is 87; John Bigelow, 89; Senator Pettus of Alabama, 85, and his fellow senator, Morgan, who died at his post a few days ago, 82; D. O. Mills, financier, 81; De Freycinet one of the most active of French statesmen is 78; and Count Tolstol and Clara Barton are of the same age; General Booth of the Salvation Army is 77; Senator Allison and Cullom, both presidential possibilities, King Oscar of Sweden and Murat Halstead are all 77; President Diaz of Mexico, a masterful ruler, is 76, and so is Senator Teller and Justin McCarty. Field Marshal Lord Roberts of the British Army, and Justice of the Supreme Court Shiras are 74; Chief Justice Fuller of the U. S. Supreme Court is 73, so is Justice Harlan, and President Elliott of Harvard, and Cardinal Gibbons are 72; Pope Pius X, Rev. Lyman Abbott, Bishop Potter, "Mark Twain," Hattie Green, Andrew Carnegie, and Secretary of Agriculture Wilson, are each 71; "Uncle Joe" Cannon who is not thought too old to run the United States government as its president, and who is now the speaker of the lower house of congress, is 70. Howells, the author; Archbishop Ireland, J. Pierpont Morgan, Justices Brewer and Peckham of the Supreme Court, Swinburne, the poet, and Admiral Dewey are 69; and to take the list down to the age of 50, would put into print the name of almost every man of prominence in the country. These and hundreds of more prominent in their chosen callings are those this professional microbe would put upon the shelf. Jonas should hunt up his fellow medicated idiot, Osier, and chloroform him, and then the fool killer should try the effect of this club on Jonas.

Better Than the Book.

Native (to tourist who had stopped for a chat)—Yes, sir; I says, 'God bless Mr. Carnegie,' sir. He it was who gave us that bootiful, free public library sir.

Tourist—"I'm glad to see you appreciate it. You don't look like a reading man, either."

Native—"No, sir, I ain't; but, better than that, my old woman gets the job of cleaning it out."—Philadelphia Enquirer.

The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipation or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of the above symptoms are Dr. Pierce's Golden Medical Discovery. This is absolutely true and will be readily proven to your satisfaction if you will but mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicine and showing what the most eminent medical men of the age say of them.
