An Inspiring Sight—

To go up on Twelfth street these days and witness the activity about the Mutual cannery is indeed an inspiring sight for any person interested in the prosperity and growth of Salem. Nearly 200 people are employed in the building, and hundreds of fruit growers dispose of their products daily. It is no uncommon thing to see vehicles loaded with berries and cherries lined up awaiting their turn, reaching from the cannery up to State street, while a dozen active young men are busy hustling in the fruit and weighing it up. Good prices are being paid for fruit, and the employees get good wages, all of which places coin in circulation, and assists in building up our city. Two years ago, when the Salem Commercial Club took up the matter of a cannery the market here was very poor. By a little hustling stock subscriptions were secured sufficient to guarantee the project. The first season was a success, and every dollar put into it has proven a good investment, for those who wished it were enabled to sell their stock, and all received a neat dividend on the same. That is the way to build up a city, and Salem is missing no opportunity to push ahead.

Salem Housekeepers—

Remember the Yokohama Tea store is giving away a German china sugar bowl and creamer, worth 50 cents, with every \$1.00 purchase. It is a great offer, and the articles must be seen to be appreciated.

Will Branch Out—

C. C. White, who has been employed in the Fashion stables for several years past, is about to go to Falls City to open a livery stable of his own, and many Salem friends wish him success in his new enterprise.

Attention—

All Socialists and sympathizers are requested to be present tonight at Commercial hall, corner Center and Commercial streets, at 8 o'clock sharp. Business important.

COMMITTEE.

MINORS IN HIS SALOON.

Bill Anderson Says He Can't Keep Them Out.

Bill Anderson is in trouble again. This time on account of allowing minors in his saloon. One would think Bill was old enough, and had had experience enough not to violate the law in that manner, but the fact is the older he gets the worse he is. He was taken to task about it this morning, and sets up in his defense that he has tried every way to keep the youngsters out of his place, but they sneak in in spite of him. Their folks are to blame for not giving them a spanking and keeping them at home. It is only recently they have begun bothering him. There are three of the young fellows, and Johnny Baker is the worst of the bunch. What makes it more annoying to Anderson is that they all claim to be of age. The Baker boy will look Bill right in the eye and stick it to him. He has been accustomed to taking a drink whenever he felt like it ever since 1829, when he packed water and applejack to the harvest hands back East. John Minto is another of those whom Bill is accused of allowing to enter his place and Benny Hayden completes the trio. The combined age of the gang is 267 years. The Baker boy is 91, and a sort of leader. The Minto boy is only 89, and it is thought would be easily managed if kept away from the Baker boy's influence. Benny Hayden is a bright little fellow, only 87, but he gives promise of making a good citizen, if his youthful feet can be steered in the right paths. Bill says he is trying to give them good advice, but they want something stronger.

ALVA SMITH INJURED.

Stayton Man Meets With Peculiar Accident.

Injuries which it is feared will result fatally, were received by Alva Smith, a prominent shoe dealer of Stayton, Wednesday afternoon, while he was engaged in unloading a wagon of baled hay. Mr. Smith endeavored to pull the hooks out of a bale which had been unloaded from the wagon, and in some way the heavy iron hooks slipped suddenly, and flying back with great force were driven into his body. The hooks entered Mr. Smith's back just above the kidneys and penetrated through to the lungs. The wounds inflicted were very large and of such a nature that the injured man lost much blood before medical aid was secured.

Dr. Brewer, of Stayton, was summoned, and rendered what help he could in alleviating the man's suffering.

There Are Few

People who know how to take care of themselves—the majority do not. The liver is a most important organ in the body. Herbine will keep it in condition. V. C. Simpkins, Albu, Texas, writes: "I have used Herbine for Shilla and Fever and find it the best medicine I ever used. I would not be without it. It is as good for children as it is for grown-up people and I recommend it. It is fine for La Grippe." Sold by D. J. Fry.

EUGENE WANTS RAILROAD.

And Takes Steps Toward Its Construction.

The Eugene business men's committee, which has been quietly soliciting stock during the past few weeks for the proposed railroad from Eugene to Siuslaw, in order to connect with the Pacific ocean, has reached that point where the members say the project seems almost assured. Up to this time it has been thought best to keep the matter out of the papers, but now that the committee has secured what it went after, a big mass meeting will be called here for July 3, at 2 o'clock, when the farmers and citizens from outside of Eugene will have a chance to show their interest.

Already \$40,000 has been subscribed, and many Eugene people have not yet been seen. It is proposed to raise a like sum at this meeting, in which case the work of construction will begin at once.

Stephen Carver, who built the road from Vale to Ontario, is at the head of the enterprise in co-operation with the business men of Eugene. He proposes to take stock equal to the amount subscribed by the citizens of Lane county. The majority of stock is to be held by local people, and the road is never to be sold to the Southern Pacific Company. The right of way has been secured for several miles.

The plan is to enter Eugene from the west and build to the head of Tidewater, or possibly on to Florence. The timber belt that would be tapped is as fine as can be found anywhere in the world.

And Brought Their Families.

The gentlemen who constitute the active members of the Hickory Bark Remedy Company have arrived in the city with their families, and a carload of their supplies and plant have also arrived. They are Sam A. Garber, accompanied by Mrs. Garber and her sister, Mrs. Lane; Mr. and Mrs. O. W. Haar, and Mr. Ferdinand Haar. Also W. W. Thorne, whose family will follow in several weeks. These people are busy engaged today in having their freight hauled from the depot to their new quarters in the Schreiber building, and also looking up places of residence for their future homes. This new enterprise and these new families will be made welcome to the capital city of Oregon.
