

Your Doctor Will Tell You

That You Need

A Natural Tonic

The majority of so-called "Spring" tonics supply a false stimulation to the body—but this is not the natural and most beneficial way of helping the system to overcome lassitude.

DR. D. JAYNE'S - TONIC VERMIFUGE

tones and builds up the body in the natural way—through the stomach. A run-down condition of health is almost invariably due to a disordered stomach and digestive organs. Jayne's Tonic Vermifuge restores the stomach and restores it to its normal healthy condition. Then the restored stomach does the building up and brings the body back to a state of perfect health. This is the natural way.

Jayne's Tonic Vermifuge is sold by all druggists. In three sizes, \$1.00, 50c, and 25c. Jayne's Expectant is the oldest and most reliable Cough Cure known.

HOW TO MAKE A PLEASING LAWN

A lawn, to be pleasing, must have a smooth, even surface. It can be perfectly level, or it can slope evenly from the house to the street. A level lawn is easiest to make, unless there happens to be a good deal of soil about the house, from the excavations of the cellar. In this case it is an easy matter to secure a slope. Unless a house stands well above ground, on a good foundation of stone, I would advise a level lawn.

Go over the ground with spade and hoe and cut down all knolls. The soil thus obtained should be used in filling hollows. But do not

undertake to fill any depression of the surface by simple dumping loose soil into it. Put in a little, work it over until mellow, and then beat it down thoroughly. Then put in some more, and repeat the beating process, and keep on doing this until the surface is even. It is very necessary that this part of the work should be carefully done. If it is not the soil will settle and your lawn will have little inequalities all over its surface and be anything but satisfactory.

After having leveled the ground the surface of it should be scarrified in some manner to prepare it for the reception of seed. Some persons go over it with the hoe, making little cuts all over the surface, following this operation with an iron rake, to pulverize the soil. This does very well where the grounds are small, but is a somewhat tedious task on large grounds. I would advise using a harrow drawn by one horse. Go over the ground thoroughly one way and then crossharrow it. Do not have the harrow teeth set to cut deeply into the soil. This is unnecessary, as all you want to do is to prepare the surface for the seed. If there are any bits of sward or clods after harrowing is completed, pulverize them with the iron rakes.

If harrowing is not feasible, the spade can be resorted to as a leveling tool. Or a garden cultivator can be used with a fair degree of success, unless the soil is grassy. Manure should be applied liberally, and can be done most effectively when the process of leveling is going on, for then it becomes thoroughly mixed with the soil. I could advise chemical fertilizers, bone dust or guano, because with these we get no weed seed.—Eben E. Rexford in *Outing*.

Baseball Players and Foot Racers!

Louis J. Kruger, ex-champion long distance foot racer of Germany and Holland, writes, Oct. 27, 1901:

"During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction.

Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises, or rheumatism." 25c, 50c and \$1.00. Sold by D. J. Fry.

Business, Pleasure

or anything that excites and exhausts the brain nerves, causes headache.

Some persons cannot even attend church, theaters, ride on cars, or on the water, or go where there is the least excitement without an attack. Dr. Miles' Anti-Pain Pills, taken as directed will stop the pain. To avoid suffering take one as soon as you feel an attack coming on. Your druggist can tell you of many who would not be without them.

"I have been troubled with severe headaches for many years. I began to use Dr. Miles' Anti-Pain Pills. It is the only remedy that has given me or my family any relief. I do not now have such spells, because when I feel one coming on I immediately take one of the tablets, never more than one is required, they are so effective, and I appreciate them so thoroughly I always have them with me. My wife and family always use them, cannot do without them."

A Modern "Liner."

Imagine a ship close on seven hundred feet in length and with a tonnage of sixteen thousand driving through the huge Atlantic waves at the rate of more than twenty-seven miles an hour? The "Auguste Victoria" displaces over forty thousand tons of water, and her length is over one hundred feet more than double the height of the dome of the capitol at Washington. She has a music room and a library, a flower shop, a string band and a brass band, a candy shop, an information bureau, a manicure parlor, electric and salt-water baths, a gymnasium, a nursery, a palm-garden, an "a la carte" restaurant and a "table d'hote" restaurant—with seats for over six hundred diners, two smoking rooms,

and an elevator to carry passengers between the six decks on which they are berthed. She has a crew of nearly six hundred men, not to speak of ladies' maids, trained nurses, gardeners and musicians. Her furniture is of rare and beautiful varieties of wood, upholstered in silks, tapestries and brocades.

Seen by a passing ship at night, her thousands of electric lights make her look like a brilliantly illuminated town on a hillside. Loitering now in the drawing room and then in the palm garden, one has to see the surging billows to be convinced that one is not in some fashionable hotel ashore. She is steered by steam, and her rudder, weighing many tons, is controlled by a wheel not more than four feet in diameter; a child could turn it easily. An electric telegraph and telephones put the captain in communication with all parts of her.

High over the bridge one can see what seems like an empty kite frame, and that is the web that catches the wireless messages from other ships on the land, and keeps us in touch with both when nothing is visible of either. They give their news to us, and we give ours to them. It all appears in the little newspaper that is published on board every afternoon.

We are not likely to see this luxuriousness and substantial comfort surpassed in our time, although further novelties, such as a swimming tank and a tailors' and dress-makers' shop for pressing and repairing clothes are to be introduced in a slightly larger ship which the Hamburg-American line is now building.—William E. Rideing in *The Youth's Companion*.

Deafness Cannot be Cured by local applications, "as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Long Live the King!

is the popular cry throughout European countries; while in America, the cry of the present day is "Long Live Dr. King's New Discovery, King of Throat and Lung Remedies!" of which Mrs. Julia Ryder Paine, Truro, Mass., says: "It never fails to give immediate relief and to quickly cure a cough or cold." Mrs. Paine's opinion is shared by a majority of the inhabitants of this country. New Discovery cures weak lungs and sore throats after all other remedies have failed; and for coughs and colds it's the only sure cure. Guaranteed by J. C. Porry, druggist. 50c and \$1.00. Trial bottle free.

Time for Thought.

"Speaking of bad falls," remarked Jones, "I fell out of a window once, and the sensation was terrible. During my transit through the air I really believe I thought of every mean act I had ever committed in my life."

"H'm!" growled Thompson, "you must have fallen an awful distance!"—Philadelphia Inquirer.
