

# Governor of Wyoming endorses Pe-ru-na. As a Catarrh Remedy. As An Excellent Tonic.

"I have such confidence in prominent personal friends who have used and endorsed Peruna that I feel justified in assuming that it is a valuable remedy for catarrh and an excellent general tonic." — John W. Hoyt. Victoria Flats, Washington, D. C.

The Magnificent State Capitol Building of Wyoming.

**Responsible People.**  
People occupying positions of high responsibility and trust are always busy people. They have little or no time to devote to themselves. Therefore very rare that such people are willing to write testimonials for a medicine.

Again there is a natural difficulty in giving public endorsement to a commercial enterprise on the part of people who are much before the public.

**Rare Endorsements.**  
That it is very rare that public officials, like governors, congressmen, senators, etc., give public endorsement to a proprietary medicine is therefore a great triumph that has the unqualified endorsement of so many men in official positions of public officials of national reputation have enthusiastically declared in favor of Peruna in public and over and over again.

**A Startling Fact.**  
There is no way to account for such a fact as this except that Peruna is an extraordinary unusual merit. For all people high and low, are cured very much alike.

**Natural Enthusiasm.**  
When a person has been really helped in getting rid of some chronic malady, after other things have failed, it is quite natural for enthusiasm to lead people to make a statement of the fact. For great services, gratitude is natural. This is the only way that it can possibly be explained why it is that so many persons prominent in public, diplomatic and social life give testimony for Peruna.

**Actual Benefit.**  
Peruna promptly relieves. This is the explanation. Catarrh is a disease difficult to relieve. A great many of the doctors fail to relieve it.

**Gratitude Results.**  
A few bottles of Peruna cure a chronic malady of many years standing and it is almost impossible to repress the natural feelings of gratitude which spring up.

**Catarrh of Head and Throat.**  
Mr. Joseph Reiss, 3424 N. 14th street, St. Louis, Mo., writes: "I had catarrh of the head and throat, but through the use of five bottles of Peruna and two bottles of Manasin I was cured. I think that Peruna is the best tonic that I have ever used and I would advise all catarrhal sufferers to use Peruna."

**Catarrhal Fever.**  
Mrs. W. K. Good, Broadway, Va., writes: "When I was fifteen years old I had catarrhal fever and for nine years I have had catarrh of the head. Through neglect it went to my throat and nose. After consulting you I used Peruna for four months as directed, and I am entirely well and have my natural health. I cannot praise Peruna too highly. It will do all that it is recommended to do."

**Pe-ru-na Relieves Catarrh.**  
Mr. L. Clifford Figg, Jr., 2929 E. Marshall St., Richmond Va., writes: "As soon as I got a cold I send for a bottle of Peruna, and it soon drives it out of my system. Despaired of Being Cured. For several years I was not entirely well, and despaired of ever being cured, as I had used numerous remedies that my friends advised. I doctored for two years without any improvement. A Last Resort. As a last resort I tried Peruna, and am pleased to say that in a short time I was completely cured. I have not been troubled for over a year. I am pleased to endorse Peruna as it saved me a world of suffering."

the object of a certain amount of veneration, her cure being regarded as a miracle. She has been visited by Professor De Vioanni and other doctors, who assert that her recovery is an abnormally quick, intellectual and physical development of the girl, which first led to over-excitement of the brain, causing the nervous symptoms, and then to auto-suggestion so strong as to cause a reaction and corrective on the disturbed nervous system. This case, indeed, is a most perfect practical demonstration of the wonders which can be worked by auto-suggestion.

Mr. Husky went into a chemist's shop and bought a bottle of patent stuff which was advertised thus: "No more coughs. No more colds. Is, 1 1/2 d. the bottle." Three days later he went to the chemist, complaining that his throat was stopped up and that he could scarcely breathe. "I've drunk all that patent cough mixture, and I'm no better." "Drunk it? Why, that's an India-rubber solution to put on the soles of your shoes."—Tit-Bits.

by local applications, "as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. ## BACKACHE AND DESPONDENCY

Are both symptoms of organic derangement, and nature's warning to women of a trouble which will sooner or later declare itself. How often do we hear women say, "It seems as though my back would break." Yet they continue to drag along and suffer with aches in the small of the back, pain low down in the side, dragging sensations, nervousness and no ambition. They do not realize that the back is the main-spring of woman's organization and quickly indicates by aching a diseased condition of the feminine organs or kidneys, and that aches and pains will continue until the cause is removed.

**Women Workers in France**  
The Benoit affirms that there are a great number of workers in Paris who earn less than ten cents a day, and who live on this asking help from any one. These are the more unfortunate, and there are skillful workers in the sewing room who make as much as 80 cents a day; these are the humblest among the workers who are the most interested.

who have studied the wage question in both countries, confirms what chanced to be my own personal experience: the laborer in America makes double what he does in France, and spends only a fraction more. In my debut as a factory girl I never was offered less than 75 cents a day, or \$4.50 a week, for unskilled work. I never paid more than \$3 a week for board, lodgings, heat, light and washing. This left a balance of 1.50 a week for clothes, carfare, "pin money" and savings, at the very outset, and after a week or ten days' practice I was able to earn regularly \$6 to \$6.50 a week. The skilled "hands" in the mills where I worked gained on piecework an average of \$10 a week. What, indeed, we must ask ourselves can be the consolation of a girl of 18—perhaps even younger—alone in Paris, starting at a salary of 50 cents a day, with little hope of gaining more? Those whose horizon is hemmed in by the narrow confines of the material world will find no temptation to speculate regarding the inward joys of a poor creature who subsists on 13 cents a day! Those, on the other hand, who do not live by bread alone, will understand. First of all, there is the moral satisfaction of suffering honestly to oneself, without making upon others demands which they might find difficult to meet, or without taking from any one what might have to be repaid at a cost too dear. Then there is the great consolation—or torment, as the case may be—at all events, the absorbing, masterful, distracting preoccupation, love! Without the wings of Cupid to lift her into the clouds the little ouvrier's burden would crush her too heavily to earth.—Mrs. John Van Vorst in Lippincott's.

**A Modern Miracle.**  
A curious case of the power of auto-suggestion, but which by ignorant persons is claimed as a modern miracle, is reported by the newspapers. Some time ago the well known physician Professor De Vioanni, affected the cure of a girl who, owing to nervous derangement, had lost her voice and her memory. After she had returned to her village she had a relapse, her illness being aggravated by mania and paralysis of the limbs. Further efforts to alleviate her sufferings were useless. One night, however, the invalid saw in a dream St. Anthony of Padua, who bade her wear for a month the habit of the monks of his order. The girl was accordingly dressed in monk's clothing, and when she had worn it for 20 days she recovered the use of her limbs and was able to speak and write. She, in her turn, is now

## The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

**The Grammar Class.**  
The head mistress of a certain village school was one day examining a few of her select pupils in grammar. "Stand up, Freddie, and make me a sentence containing the word 'seldom,'" she said, pointing to a small urchin. Freddie paused as if in thought, then with a flush of triumph on his face replied, "Last week father had five horses, but yesterday he had seldom!"—Exchange.
