

OREGON SIENNA PAINT COMPANY

MANUFACTURERS OF

PAINTS, WOOD FILLERS, STAINS

Made in Oregon

above slogan is a good one for Oregon but we should make it mean some. The American people are ready to home product when it is as good as and they should not buy it unless it is. But when you can buy a home product that is better than anything else of the world, of course, there is no room for argument. Such is the case with the Oregon Sienna Paint, manufactured at Salem. In our State has brought upon the product that will not only add to the state's commercial reputation but also her credit.

Oregon Sienna Paint Company's mine near the Willamette River, in the western part of Lane County, two miles from Walker, a small town on the main line of the Southern Pacific R. R. Here we have twenty-two acres, under which lies "Sienna," the king of paint pigments.

Paint pigment when scientifically prepared makes an elastic paint; one that will not crack, scale or blister; one that will stand the elements of weather.

Sienna is the greatest Sienna Paint Mine in the world, and the only Sienna Paint Mine producing more than one natural color.

Oregon Sienna Paint Company's Mine has forty-two natural shades, and by mixing can make many more.

Analysis. Oregon's Sienna shows the highest analysis of mineral properties, as shown by Thomas & Son, analytical and consulting chemists, 509 Commercial street, San Francisco, given as follows:

	Per Cent.
Iron Dioxide	49.12
Iron Oxide	13.02
Aluminum Oxide	2.53
Aluminum Oxide	14.12
Aluminum Oxide	0.42
Aluminum Oxide	0.53
Aluminum Oxide	20.18
Losses and loss	0.08
	100.00

In addition to the above we have had a test made by the U. S. Government Engineers, the results of which are set forth in the following letter:

Portland, Ore., Aug. 5, 1905.

The Oregon Sienna Paint Co., 512 McKay Building, Portland, Oregon:

Gentlemen: I have been using one of your Sienna Paints as a riddle for marking crucibles, scorifiers and crucibles in my assay work. I find that it makes an excellent paint for this purpose, and can be heated to 1200 deg.-1300 deg. C. or from 2192 deg.-2372 deg. F. without burning off or changing color in the least. I take great pleasure in recommending it for use where subjected to high temperatures. Yours truly,

FREDERICK W. HORTON,

In charge of U. S. G. S. Assay at Lewis & Clark Exposition.

In past years the Sienna of the world came from Tuscany, Italy, producing but one color, "yellow," when burnt changed to a reddish brown, known as "burnt Sienna." A few years ago a mine of like character was discovered in Pennsylvania producing but one color "yellow," and when burnt changed to a reddish brown. For years these two mines was all the world contained.

Statistics show that the great volume of Sienna used in America comes from Italy.

The latest U. S. government reports of mineral resources show the production of Sienna in the United States as about 350,000 pounds.

The imports for the same year were 1,873,532 pounds, in the dry, and 1,387 pounds ground in oil.

Sienna is acknowledged everywhere as the best paint pigment known, but in the past it has been too expensive to use for general purposes owing to the cost of importation. But since the discovery of the great Oregon Sienna paint mines it is produced cheaper than lead or zinc, and has wearing qualities that are far superior to either. Besides all this our Sienna Paint is cheaper than any paint on the market.

Besides, the white lead paints are much less adhesive to the surfaces to which they are applied and have a marked tendency to rub off or blister.

The Oregon Sienna Paint Co. will prepare and manufacture the nearest perfect paint that it is possible to produce, from the highest grade of Sienna, and the best quality lin-

seed oil obtainable; also dry paint of like quality.

Testimonials.

Salem, Ore., May 20, 1907.

The Oregon Sienna Paint Co., Salem, Ore.:

Gentlemen: Your Sienna Paint is giving us good satisfaction in every way both outside and inside and we consider it a superior ready-mixed paint, and believe it worthy of all you claim for it. Whenever we are in the market for paint you will hear from us and we would be glad to recommend it to any one wanting a good paint.

Yours truly,

MUTUAL CANNING CO.

Salem, Ore., June 15, 1907.

The Oregon Sienna Paint Co., Salem, Ore.:

Dear Sirs: The paints which we lately purchased from your company and used on our various buildings have given good satisfaction. The color is good, they work nicely and make a good finish. Also the stain and hard fillers which we used on the inside work makes a good finish. We are therefore well pleased with your goods. Respectfully,

THOMAS KAY WOOLEN MILL CO.

Portland, Ore., May 16, 1907.

Mr. D. H. Weyant, Mgr., of The Oregon Sienna Paint Company:

Dear Sir: I have used several barrels of your prepared paint on boat work and am pleased to say that it has given first-class satisfaction. It covers well and so far as my experience with it goes, it is durable. I have tried nearly all the prepared paints in this market and have had to discard them for one reason and another. Your paint has proved a surprise to me as I had come to the conclusion that the only way to get a satisfactory paint was to buy the lead and oil and mix it here. I am glad to be able to use an Oregon product, and am more glad to find it superior to all others that I have tried. You may send me at once another barrel of barge red and a barrel of white for immediate use. Yours very truly,

JOSEPH SUPPLE.

The Oregon Sienna Paint Co., Salem, Ore.:

Gentlemen: We desire to state in reply

to your inquiry as to whether we have been satisfied with the product of your factory, that it gives us pleasure to answer in the affirmative. We have been using your Sienna Paints for the past year and the same have given the very best of satisfaction. We shall continue to use them and we heartily recommend their use to the general trade.

Yours truly,

Mr. D. H. Weyant, Mgr., of The Oregon Sienna Paint Co., Salem, Ore.:

Dear Sir: I have been using your paints ever since they were first put on the market and I find them entirely satisfactory. I painted an old house that was badly weather-beaten and put on two very heavy coats during the very hottest part of last summer and there has been absolutely no blistering whatever. I am glad to give this unsolicited testimonial. Yours truly,

C. O. BOYER.

P. S.: We are going to use your paints entirely on the College of Music building soon to be placed on the campus.

C. O. B.

We have heretofore stated that we have a paint pigment that is king of all other paint pigments. Why?

First: Because it is a pure mineral pigment.

Second: Because we can produce over forty-two natural shades.

Third: Because it is more adhesive to the surface to which it is applied.

Fourth: Because it will not fade, crack, Fifth: Because it is elastic.

Sixth: Because it will be scientifically prepared in the purest boiled linseed oil obtainable, giving to the public the purest paint possible to manufacture. We use nothing but the best linseed oil.

Seventh: Because Oregon Sienna Paint once used always used.

San Temple Found.

July 10.—In three crumpled columns of sandstone, in an inaccessible region of Nubia, lies Henry Breasted, of the University of Chicago, has discovered only remaining monumentation, "the greatest of the world," and ended a search of an 3000 years by the scientists centuries past. The relics, to be the most valuable of the present century, are all left of the gorgeous Sun of Sesebi, in the buried city.

Robert F. Harper, of the University, director of the expedition, under which Breasted worked, received today in a bulky letter the famous Pharaoh lies all at the foot of the third of the Nile, approached by dangerous rapids that explorers of this century have feared to pass. The temple and the been lost in a great plain west from the Nile to the Sahara desert.

Breasted uncovered the ruins of Ikhnaton in the midst of a desert storm, which led him to view the relics only at a time before seeking in spite of this, he took photographs and drawings, beyond dispute the authenticity of his discovery. He was forced to flee from the scene of danger of the falling Nile.

The Magic No. 3.

Number three is a wonderful mascot for Geo. H. Parris of Cedar Grove, Mo., according to a letter which reads: "After suffering much with liver and kidney trouble, and becoming greatly discouraged by the failure to find relief, I tried Electric Bitters, and as a result I am a well man today. The first bottle relieved and three bottles completed the cure." Guaranteed best on earth for stomach, liver and kidney troubles, by J. C. Perry druggist, 50c.

The Charming Woman

Is not necessarily one of perfect form and features. Many a plain woman who could never serve as an artist's model, possesses those rare qualities that all the world admires; neatness, clear eyes, clean, smooth skin and that sprightliness of step and action that accompany good health. A physically weak woman is never attractive, not even to herself. Electric Bitters restore weak women, give strong nerves, bright eyes, smooth, velvety skin, beautiful complexion. Guaranteed at J. C. Perry, druggist, 50c.

Deafness Cannot be Cured

by local applications, "as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The Doctor Away from Home When Most Needed.

People are very much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured from or a physician summoned. The right way is to keep on hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by Dr. Stone's Drug Store.

Best Medicine in the World for Colic and Diarrhoea.

"I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skrum, Ala. I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until this week, when I had a very severe attack and took half a bottle of twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man."
