

**MAN OF FAR EAST HAS STRANGE POWER**

is the condition of a human with the highest sense percept so distorted that the petals of the rose becomes as repulsive as the fungus of a toad. He sleeps in minerals, dreams and wakes in you and I." H. Martin, student of Mysteries. Three years of study, humiliated in the wilds of the mountains with East Indian Instructor William H. Martin of New York traveling homeward. He is the most interesting men who visited Seattle this summer. For three days he has been the guest of Manager Stevens of the miller, whom he has known for years. Martin says he sought peace and found them. Incidentally he developed some powers produce mystifying results. A ball or freeze water, without apparatus or refrigerating. That, he says, was one of the

**Haywood Declared Innocent.**

With the words "Not Guilty!" one of the most remarkable trials in the history of American jurisprudence was brought to a close at Boise at about 8 o'clock last Sunday morning. The jury was engaged in their deliberations 21 hours, and the trial covered a period of 80 days. The attorneys for both the prosecution and defense, and the defendant, Haywood, agree that the trial was conducted with utmost fairness and with impartiality. The verdict is satisfactory to a vast majority of the reading public. Nevertheless, most of the trial reports have shown a prejudice against the defendant. But what other verdict could have been expected when the character and scope of the evidence in considered? Every one of those twelve jurymen assented to an oath that they would decide the case according as the law and evidence dictated. If they had any prejudices or bias for or against the prisoner at bar, it was their duty to cast them aside. They were the exclusive judges of the credibility of the evidence submitted.

**DOCTORS MISTAKES**

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better in reason of the wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have cured the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured." Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system. As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down, debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic. As a soothing and strengthening nerve "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency. Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

**DR. GOULD SCHURMAN.**

President of Cornell university political economist of wide reputation. He learned. And, it does not turn on and off an electric by thought-force alone. It is very improbable. People deny they will believe it when they see it. But Mr. Martin is not perceiving tricks to gratify his own or awe the onlooker. He has studied the phenomena, but only demonstrate to a searcher the idea of a natural principle which is partial use all over the

ted. This jury, evidently, obeyed the instructions of the court and was true to the oath administered to it. A different verdict, however, would have been rendered if the jury had been composed of such men as the writer of the leading editorial of Monday's Oregonian. This writer believes that Haywood is guilty of the crime charged. For that matter, the Oregonian, from the date of the abduction of Moyer, Haywood and Pettibone from their homes in Denver, has pronounced them guilty. Even now after the Idaho jury has pronounced the defendant, Haywood, innocent, it insists that the evidence was sufficiently conclusive to warrant a verdict of murder of the first degree. In fact, if the Oregonian could have its way, organized labor would be wiped from the face of the earth. Nor is the Oregonian alone in this position towards the organized labor movement. All of the great newspapers that are controlled by the capitalist class, stands with it. All are so prejudiced, that if placed on a jury, as in the Haywood case, they could not, nor would not, render an impartial verdict.

The trial now just closed at Boise and the others yet to come, have and will give the Western Federation of Miners a standing before the world that could have been attained in no other way. The persecution of the mineowners and the Pinkertons have given the organization the sympathy of all the lovers of fair play and justice. As the News sees it, there are two men at Boise that should be convicted and executed. Those two are Orchard and Detective McParland. Orchard, by his own confession, is a murderer, and if McParland is not one as well, it is not because he has not tried to have innocent men convicted and hung.—Santiam News.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.  
Address: F. J. Cheney & Co., Toledo, Ohio.
