

# READY FOR THE BIG FAIR

Grounds and Buildings in Fine Shape --Many Splendid Exhibits Arranged For, and a Splendid Exhibition of All Kinds of Stock As Well As Fine Speed Contests Assured

The state fair is only a matter of three weeks away, and the management has everything in excellent shape. The big barns are completed inside and out and having received a couple of coats of red paint, they loom up like a summer sunset. Five of the barns are arranged for stabling horses; three will be used for cattle; two for sheep, and one each for goats and swine.

One of the barns with stalls for 58 animals, has already been engaged by Mr. Ruby, who will have a fine lot of horses here, which he has gathered in France, Belgium and Germany. It already seems certain that with all the barn room made this year, there will be demand for more.

The county exhibits in the pavilion will perhaps not be so numerous as last year, but they will be first class. Benton, Clatsop, Columbia, Multnomah, Lane and Marion have already applied for space and others may yet apply. Besides the county exhibits there will be two fine individual exhibits one from Linn and the other from Polk—that will each rival the county exhibits.

The grounds are in splendid shape, and the grass is mowed in the grounds between the pavilion and the track. The fountain has been overhauled and cleaned, and a bed of nasturtiums is growing finely around it.

The big "staff" statue of Ceres looms up in front of the pavilion, which she faces. The horse editor went up close to her and noticed that while she was much better shape than "Mrs. Oregon," she still needed fixing. This, by the way, she will get, for arrangements have been made for a "staff" artist to come up and graft new cuticle on her and the balance of the "scenery."

Studebaker & Co. will make a fine exhibit of vehicles, having a space of 75 by 85 feet set apart for their display.

The racing stables are filling up, the latest arrival being Mr. Bonnell from Redlands in southern California, who brings R. Ambrose, one of the speediest horses on the coast, and also a very speedy pacing mare. Sam Castro is there, of course, and has a string of seven, some of which will no doubt be heard from. Sim Lindsay has three, and Maule three or four. S. F. Wallace has four. John Pender is trying out three and C. A. Harrison of Portland two or three. There are several others with good horses, but The Journal man failed to find them all.

The track is in good shape, and some good time is being made in the tryouts, some of them cutting under 2:14 in the mile.

The poultry exhibit promises to excel all previous attempts along this line, and lovers of the feathered tribe on the Pacific coast are looking forward to the show with keen anticipation. H. C. Schellhous of Portland is superintendent of this division.

The poultry building has been turned half-way around to conform with the new system of walks and exhibits for this year's fair. An annex will be built especially for incubator and poultry supply displays and office room. In addition, the coops will be re-arranged and painted, and

the interior of the building thoroughly renovated.

Among the dozens of exhibitors who have already applied for entry blanks, Warren Cooper of Tacoma is a prominent breeder, as is James Wilder of North Yakima, who will send a big exhibit of Cochins and Buff Leghorns. Harry Collier of Tacoma will gather a large Washington exhibit from the smaller breeders of the state, which will contain from 150 to 200 birds. In the vicinity of Salem, John Jefferson, Mrs. J. A. Blake, H. S. Poissal, Sam Castro, and numerous others will be represented.

The pigeon exhibit will be made a special feature of the 1907 show. The coops for the pigeons will be found in the center of the building. The Portland Pigeon club will be a chief factor in this department. The homer pigeon races to be started at the fair grounds, and ended at Portland, which will be contested daily, are an attractive feature to pigeon fanciers.

Besides the regular chicken breeds and the pigeons, there will be special classes for game fowls, bantams, turkeys, geese, ducks and pheasants.

The Petaluma Incubator company and the Glendale Incubator company, two California concerns, have applied for space. They propose to have machines in operation in the poultry building, demonstrating the artificial raising of the chicks in all its stages.

Tozerville is in fine shape, and the way it is staked off reminds one of the way ground is located in a new mining camp. Mayor Tozier is on the grounds, and he manages them so successfully all by his lonesome, that one is led to think that maybe Salem would run smoother if the council mayor and other city officers all wore the same hat. There is a great deal of harmony in a one man government. The grounds have been put in shape by a gang from the pen, and the men were resting near the gate waiting for a car when The Journal man passed them. They were not a bad or criminal looking lot, and their faces seemed "weak," rather than criminal. It seemed pathetic somehow to think that they prepared the grounds for others, and none of them would be permitted to enjoy the big meeting their work had done so much for. However, they have one compensation, they won't have to listen to the spellers or go broke on the pink lemonade bars.

### Eczema.

For the good of those suffering with eczema or other such trouble, I wish to say, my wife had something of that kind and after using the doctors' remedies for some time concluded to try Chamberlain's Salve, and it proved to be better than anything she had tried. For sale at Dr. Stone's drug store.

### New Incorporations.

The following companies filed articles of incorporation with the secretary of state yesterday and today: Adams Gardiner Lumber Company; incorporators F. D. Adams, J. K. Adams and Frank Gardiner; main office Baker City; capital, \$30,000.

The Seaside Light and Water Company; incorporators, J. H. McNary, A. Welch, E. W. Hall; main office, Portland; capital, \$50,000.

The Pacific Photo Company; incorporators, L. Birdsall, L. W. Jones and F. H. McClure; main office, Portland; capital, \$10,000.

The Briarhill Coal & Coke Company; incorporators, Rollo T. Smith, F. A. Bruckman and Arthur C. Emmons; main office, Portland; capital, \$15,000.

The Venetian Scenic Glass Company; incorporators, A. Duchamp, Geo. F. Schott and Fred E. Forbes; main office, Portland; capital, \$5000.

The Jasper Lumber Company; incorporators, Albert Brown, J. W. Holeman and W. E. Gregory; main office, Eugene; capital, \$10,000.

Spectator Publishing Company; incorporators, Hugh Hume, J. S. Tyler and Ralph E. Moody; main office, Portland; capital, \$9000.

### They Mean It.

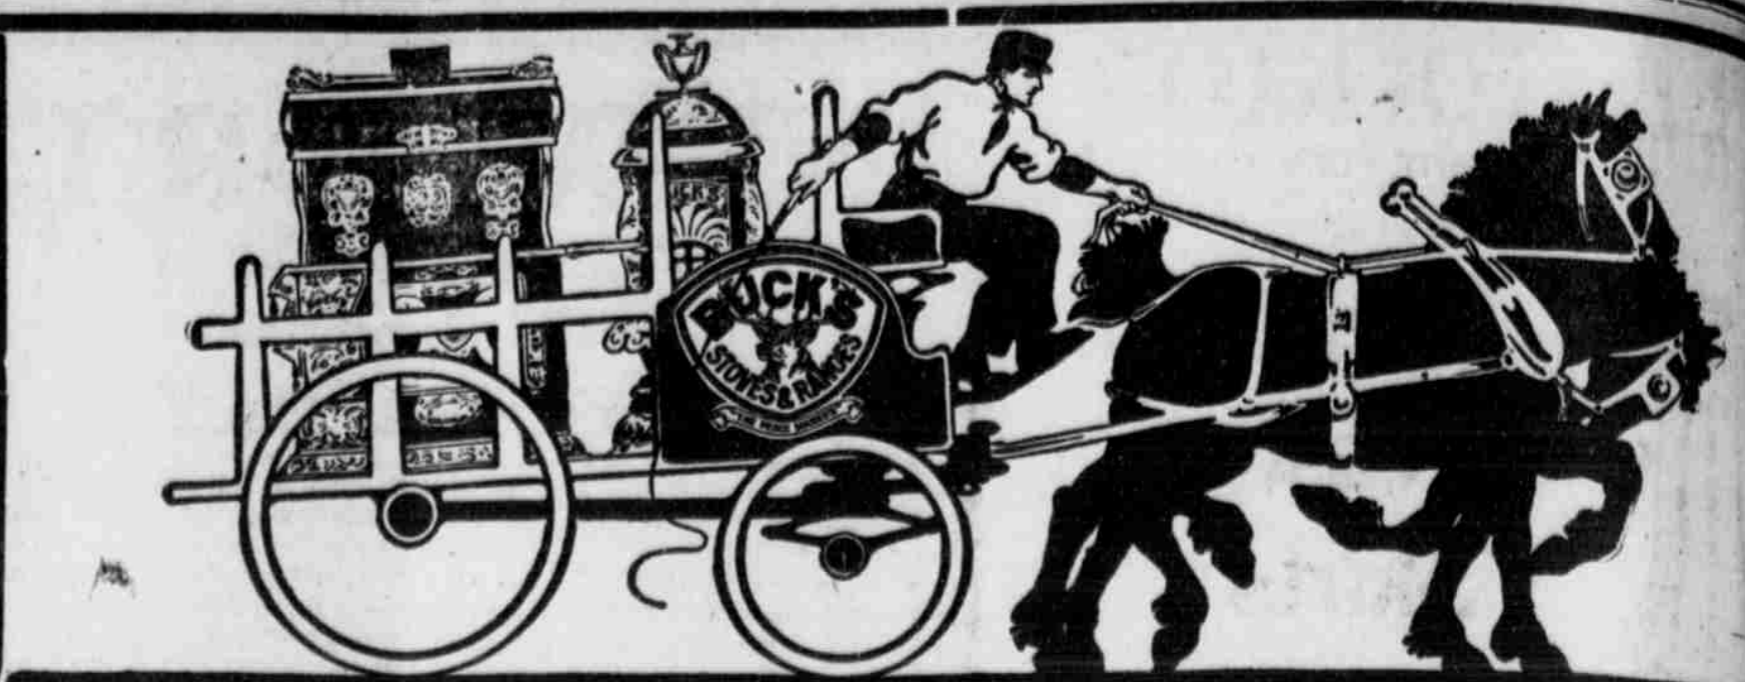

No one should suffer a moment longer with Piles, for Dr. Leonard's Hem-Roid will cure.

A guarantee for \$1,000.00 goes with every package of the Hem-Roid. No matter what kind you have, Blind, Bleeding, Internal, External, Itching or Suppurating, Dr. Leonard's Hem-Roid will cure you.

This is a strong statement, but it is supported by a thousand testimonials from those who have been permanently cured by Hem-Roid.

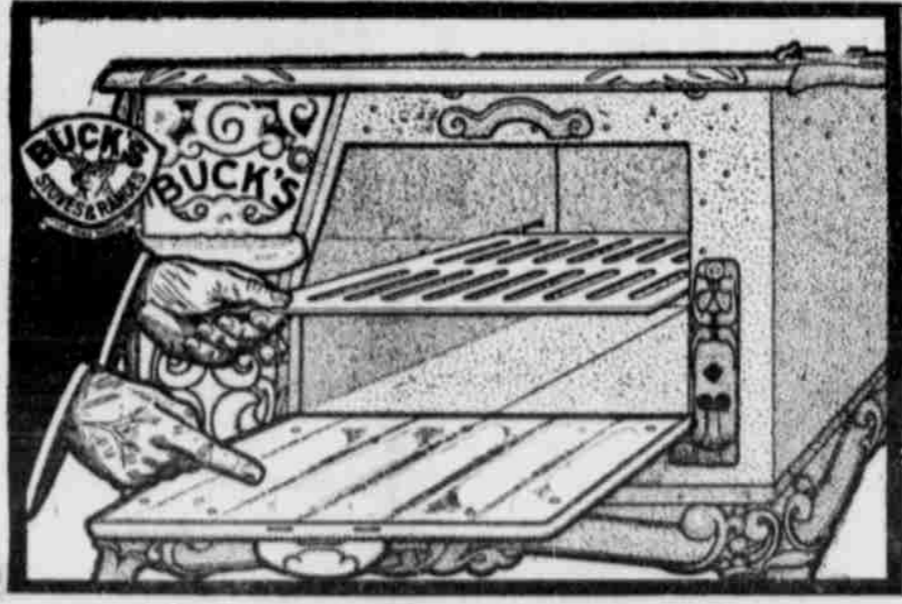

If you are not cured you get your money back. \$1.00 at druggists or Dr. Leonard Co., Niagara Falls, N. Y., Proprietors. Sold by Dr. S. C. Stone, Salem.

A substitute is never as good as the original—therefore insist on getting what you ask for. A dealer who is always wanting to sell you something just as good is not working for your interests, but for the extra profit he hopes to make.

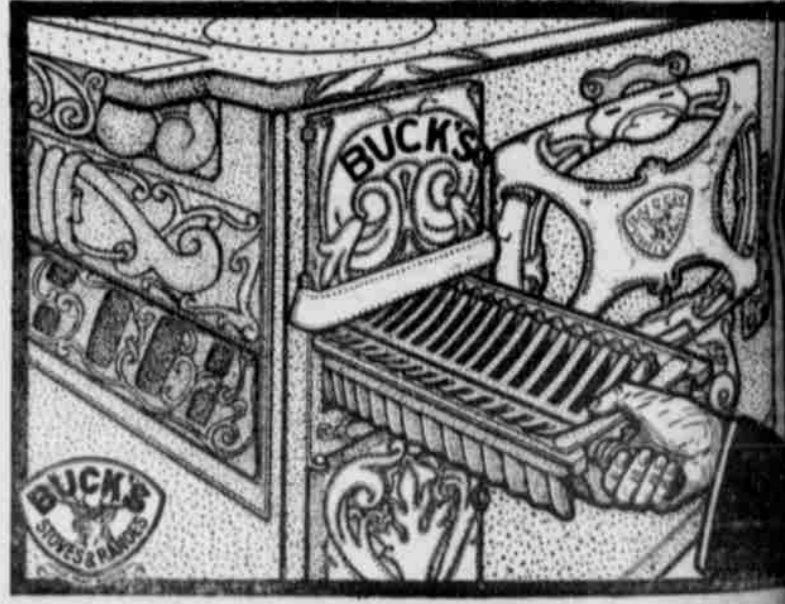

# -let us deliver to you home a Buck's stove on approval

--here is the greatest stove offer ever made to the buying public of this city  
--through special arrangements with the Buck's Stove and Range Company we are enabled to deliver to any home in the city or vicinity, a Buck's range cook stove, hard coal or hot blast heater for a thorough approval test.  
--if the stove does not perform all of its functions properly--does not do what we say it will do, we will cheerfully remove it and refund any payment that may have been made on the same.  
--and we will give you our written guarantee that we will do just as we say we will do.  
--this once-in-a-lifetime-offer is based on our faith in these wonderful stoves you cannot afford to miss it.  
--take advantage of it today, as the offer stands good but for a short time.

## --a white enameled oven which insures clean, wholesome food

—good health is largely dependent upon clean food—clean food cannot be prepared in a dirty oven  
—a sanitary oven is even a greater necessity than a sanitary refrigerator—for during the process of baking, chemical changes render contamination doubly easy.  
—why take great care in the preparation of a fine cake, for instance—then bake it in an oven, the seams and joints of which are filled with contaminating filth?  
—Buck's white enamel is not a paint—but a white glass enamel—burned into the pores of the iron—and is practically everlasting.  
Buck's ovens are absolutely clean—a reason why you should own one.

## This duplex grate will reduce your fuel expenses

—the first cost of a Buck's range is but a small part of the total cost—the range is so long-lived that it cuts up many times its original price in fuel.  
—a very small saving of fuel each day means a tremendous saving during the lifetime of the stove—a saving of many times the original cost.  
this duplex grate saves fuel—for it admits oxygen to the burner fuel in such quantities that all its heating power is exhausted and used.  
—and further—this grate may be changed—in an instant—so as to burn either wood or coal—and it may be easily removed for cleaning or repairs—and without disturbing the water back.  
—this is one of many reasons why you should own a Buck's.

## --one dollar a week pays for any Buck's stove or range selected from our stock--and sent to your home for free and thorough test.

—the most liberal credit and the most courteous treatment extended to all.

—everything for the home—furniture, carpets, draperies—right prices.

**STRICTLY PRIVATE.**  
We solicit your banking business; and with the assurance on our part that it will be kept strictly private.  
**SALEM STATE BANK**  
Salem, Oregon

**CANNERY BUSY.**  
Had a Slack Time, But Will Run to Capacity Now.  
The management of the Salem cannery expects to commence operations next week with a force of about 100. This is to take care of the pear and apple crops, which are just now beginning to be marketed in large quantities. A force of only about 30 is used this week, but that is much better than has been done for some time. Indeed it was very difficult to keep it running at all a few weeks back. It could not be done at all on the local supply, and it was necessary to ship fruit in. This will not be necessary much longer,

as the quantity of apples and pears coming into town is becoming larger every day.  
The new addition is progressing rapidly, and the congestion in the storage room of the old factory will soon be relieved. The greater part of the wall is already up, and many of the cases are already in it.  
"Regular as the Sun"  
Is an expression as old as the race. No doubt the rising and setting of the sun is the most regular performance in the universe, unless it is the action of the liver and bowels when regulated with Dr. King's New Life Pills. Guaranteed by J. C. Perry, druggist. 25c.

**IN THE BONEYARD.**  
"Maude," the Faithful Garden Road Car, Makes Last Run.  
"Maude" has finally gone to the boneyard. Not the Maude of comic pictures, the phenomenal kicker who does business for SI, but our own little "Maude," the car running on the Garden Road line. Maude was little and old, rheumatic of running gear, wheezy of breath, unkempt, uncared for, dirty and disreputable, but honest and true, always at her post and faithful to the end—both ends. For 10, these many years she has traveled back and forth over the little line, solitary and friendless, the last rose of summer, so to speak,

left blooming alone. With groaning and squeaking and bling Maude made her regular rounds, generally getting there on time and seeing her duty done to the best of her ability. Of course, she was not perfect, but she was a good girl, and she was a good girl against her, but now she has gone to the boneyard, heroically and bravely, and so many of her sister cars will go, nothing but her better. She should be remembered, and not now junk, just old iron and wood. Let us hope the resurrection is not resurrect her.
