

CYRIL SCOTT IN "THE PRINCE CHAP"

we are to get Cyril Scott in "The Prince Chap," a play that has been running in New York for the past two weeks and has made one of the most successful hits in London recently in many years. It will be presented on Tuesday evening at the opera house.

One enjoys a hearty laugh, if one is interested in the play that has as its theme humanity that is really pure, in fact a love that is pure, in fact a love that has won applause perforce of the majority that Mr. People's drama is bound to please. The outline of the story can only

Restless Nervous

Do you get up in the morning tired, languid, and frequently with headache almost unbearable? You have been unable to rest or sleep. It is nervous exhaustion, and affects the heart, lungs, stomach and all the organs that depend upon the nerves for motive power. What you need is Dr. Miles' Nerve to restore nervous energy and give new life to the organs.

"For years I have been very nervous, suffered terribly with headache, I had always gone to the doctor, and was about to go one day to try him for the last time, when a friend advised me to try Dr. Miles' Restorative Nerve. I purchased a bottle and the results were so satisfactory I have been taking it ever since. It has helped me wonderfully. Dr. Miles' Nerve and Liver Pills have done lots of good for me. When I get to feeling nervous now, I go for the Nerve bottle and I am so thankful I have something to help me without a doctor bill."

put on in Lane county next Monday, starting from McKenzie bridge. Seventy-five men in all will be engaged in this work.

Two gangs of men will also start out in a few days to build houses in various parts of the reserve for the rangers. The houses will be commodious, substantially built and at each one there will be an enclosure for horse pasture of from 20 to 320 acres in extent each. There will be 12 or 15 of these houses in the reserve.

This work is all in addition to the regular work of the supervisor and comes under the head of permanent improvements. It is for the betterment of the service, and to place it on as high a standard as possible.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

PHONES IN THE RESERVE

Prime of Great Convenience to Public As Well As Foresters

A. C. Bartrum, supervisor of forest reserves, with headquarters at Medford, returned to that city this afternoon after having spent a couple of days here in the interests of the reserve. He was here for the purpose of looking after the beginning of work on a system of telephone

lines which the government will at once construct in the Cascade reserve and to be owned by the forest service.

Mr. Bartrum told a Guard reporter of the plans for the new telephone lines today. One line will extend from Lowell, 20 miles east of Eugene, on the Willamette river, over the mountains to Odell, a distance of about 120 miles, to connect with the Deschutes company's line from Prineville and Shaniko. The work of constructing this line will begin on September 9. The crew of men will be sent out from Eugene and will continue at the work until the line is completed. A large shipment of the wire, insulators and brackets has already been received here and more is expected at any time.

In addition to the line from Lowell to Odell, the service will at once begin work on a line from Eagle Point, 12 miles northeast of Medford to Crater Lake, a distance of 70 miles. This will be built in connection with a line projected by the Crater Lake company.

While these lines are built expressly for the convenience of those connected with the forest service and to facilitate the work of the supervisors and rangers, they may be used to a certain extent by the public and will be a great convenience in a commercial way. Eugene will have direct communication with Prineville and other eastern Oregon points when the Lowell-Odell line is completed.

Also Building Trails.
Mr. Bartrum also informed the reporter that the work of building a good trail through the Cascade reserve from McKenzie bridge south to the California line has been begun. Two gangs of 25 men each have been at work for several days, one in Jackson county and the other in Douglas county, and a third will be
