> THE WATER LILY. (Author Unknown.) O star on the breast of the river; O marvel of bloom and grace; Did you fall right down from Heaven Out of the sweetest place?

You are white as the thougts of an angel, You heart is steeped in the sun; Did you grow in the golden city My pure and radiant one?

Nay, nay, I fell not from Heaven; None gave me my saintly white; It slowly grew from the darkness Down in the dreary night.

From the coz . of the silent river I won my glory and grace. White souls fall not, O my poet: They rise to the sweetest place.

> -0-ORIENTAL AFFAIRS.

It is evident enough that the Chinese feel toward the foreign powers which have planted themselves on their soil precisely as we should feel had the same powers-excluding ourselves-planted themselves here.

Our most sincere wish would be to utterly exterminate them. Mankind will be foolish to assume any other disposition on the part of the Chinese,

It is not possible that there should be any other feeling.

The Chinese people, however, are hampered by the Manchu domination.

But the Manchu dynasty seems to be petering out and the indications are that it is only the presence of Europeans and Japanese which prevents a bloody and successful revolution in the course of which there would naturally develop the spirit of nationality which alone is lacking to make China an awful force impelled by the memory of centuries of oppression.

There can be no doubt that the Boxer outbreak was merely a mani-Testation of a feeling which, with greater or less intensity, is prevading all China.

THERE IS BEGINNING TO BE EVIDENCE THAT THE HOSTILITY TOWARD EUROPEANS ON THE PART OF THE CHINESE IS BEING of testimonials. Address F. J. Che-TRANSFERRED TO JAPAN.

THERE IS A STRONG PROBABILITY THAT IN TIME IT WILL BE CONCENTRATED AGAINST JAPAN, FOR THE REASON THAT THE JAPANESE ARE ALREADY COMMERCIALLY SUPPLANTING EURO-PEANS AND ARE LIKELY TO MAKE A COMPLTE JOB OF IT.

None but fools will underrate the infilectual and industrial qualities of the Japanese.

They have completely outgeneraled Europe.

On equal terms they can drive out European competition in eastern Asia, as they well know,

They have placed themselves in a condition to do it by the alliances which they have formed.

Under the treaties Europe must look on while Japan drives its merchants out of eastern Asia, while still most politely holding open all the doors and inviting everybody in.

The pressure of Japaneses commercial competition is already severaly felt and there is evidence that Europeans domiciled in China are beginning to regard the Japanese just as that people are regarded by all who come in contact with them in large numbers,

The foreign merchants hate the Japanese.

the south, unless Hugenots should improperly be called so. "IN PENNSYLVANIA THE QUAKERS, WELSH, GERMANS AND

SCOTCH WERE THE SETTLERS AND DEVELOPERS. "IN NEW YORK AND DELAWARE THE DUTCH AND SWEDES WERE THE SETTLERS, AND AT NO TIME WAS THERE A LARGE ADMIXTURE OF PURITANS.

"Of the real founders of this country's independence only a few were Puritans. The Adamses, Hancock and Trumbull may properly be called Puritans, but Sam Adams and Johr Hancock were long opposed to the Constitution, and Rhode Island stayed out of the union for some time.

"Washington, Madison, Franklin, Jefferson, Lee, Henry, Wayne, the Muhlenbergs, Morris, Mercer, St. Clair, Herkimer, Marion, Sumter, Steuben, Hamilton, the Carrolls can in no sense be called Puritans in faith or practice.

"It is undoubted that New England ideals have had a vast importance in this country's development, but New England was slow in adopting the Constitution, was recreant in the war of 1812, after which Federalism, to a great extent coincident with Puritanism, died, and was in small sense a pioneer in the developmentof the country.

"Rather did its ideals follow the van of progress,

"If Puritanism be represented by the Congregational church of today, it makes a small, even if creditable, showing compared with other churches.

"These things are said not in criticism of the President, but as explanatory, since many readers might get a totally erroneous impression unless grounded in the facts of our historical development."

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prosney disease, another from nervous pro-tration, another with pain here and there, and in this way they present alike to themselves and their easy-going or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, 'morant of the ourse of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better here the treatment wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Eavorling Prescription, directed to the cause, there by dispelling all those distressing symp-toms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured." Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and acapted to woman's delicate system. The British contingent already see what the British have regarded as their permanent sphere of influence passing steadily into the hands of the Japanese

THAT WOULD NOT BE SO BAD FOR THE JAPANESE WERE IT NOT THAT THE CHINESE ARE BEGINNING TO HATE THEM ALSO. .TT IS INHERENT IN THE JAPANESE CHARACTER TO BE BUMP-TIOUS AND RELENTLESSLY OVERBEARING WHENEVER THEY GET THE POWER.

What they are doing in Corea they are doing in less offensive way In Manchuria.

They show evidence of an intent to dominate China and to rule with rod of iron.

We believe that the world has to reckon with a real awakening in China and in the not distant future, and that Japan will be the first to feel the effects.

THE PURITAN CONQUEST."

President Roosevelt at Provincetown the other day referred to the Puritan Fathers in very forceful language as the following will show:

"The Puritan's task was to conquer a continent; not merely to overrun it, but to settle it, to till it, to build upon it a high industrial and social life; and, while engaged in the rough work of taming the shaggy wilderness, at that time also to lay deep the immovable foundations of our whole American system of civil, political and religious liberty, achieved through the orderly process of law. This was the work allotted to him to do; this is the work he did; and only a master spirit among men could have done it."

The Philadelphia Inquirer is not pleased with what the President said, unless it be taken as glittering generalities instead of concrete matter-as will be observed by the following leader:

"The President did not mean or should not have meant that this task was accomplished by the Puritans who settled in New England.

"The Puritans were a religious sect in the Anglican church, who strove to make reforms without leaving the mother church, just as later Methodists attempted the same thing

"THE PURITANS CAME TO THIS COUNTRY TO INSURE THEIR OWN PECULIAR FORM OF WORSHIP AND DISCIPLINE IN CHURCH AND STATES, WHICH WERE CLOSELY ALLIED.

... "THERE WAS NO THOUGHT OF RELIGIOUS LIBERTY.

"IT WAS FOR THE CONTRARY PURPOSE,

"The Pilgrims whose landing at Provincetown was celebrated by the President were not Puritans, but Separatists, who had left England for Holland and finally cameto America about ten years before the Purltans.

"The Puritan settlements were confined to New England and only a "portion of that section.

"They were not imperialist coloutaers.

"Connecticut claimed the northern half of Pennsylvania and was given the western reserve in Ohio as compensation.

"Some New England revolutionary officers settled in southern Oh!and had influence there and to an extent later in Michigan and Illinois, but generally speaking, the Purlian contingent remained in New Enghand and developed it.

"The greater portion of the winning of the west was done by the Beotch, Germans, English from Virginia and other southern states.

"The great highway to the west for decades was either through Cumberland Gap to Kentucky or by way of Pittsburg, Wheeling and the Ohio river.

"Prof. Fiske, perhaps the most eminent of American historians and a warm friend of Roosevelt, has shown that there were 600,000 Scotch (improperly called Scotch-Irish) settled here at the time of the Declaration of Independence, and that in war and peace they were the mainstay of the nation.

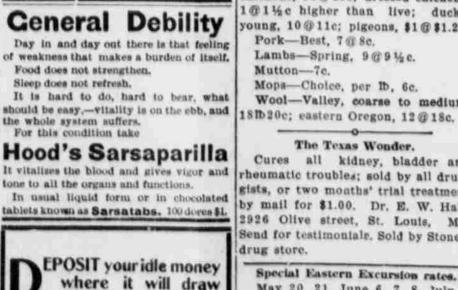

"Certainly Washington was no Puritan, nor were any to be found in

the sea by a mammoth wave but was rescued by the use of preservers which were thrown from the little sea-going boat. The Gazelle is a gasoline boat which has been taking excursionists over the bar, but the deck is so near the water of the little craft that a large wave would sweep completely over the boat. It is said to draw but four feet of water and is considered by many unsafe for any ocean voyage.

His Feet.

"Thank you," she said, as he finally gave her his seat, "the carbumps so it's almost impossible to stand on your feet."

"That was because I kept pullin' 'em out of your way, ma'am," he replied, "but you did manage to land on my pet corn a couple of times."-Philadelphia Press.
